Network Analysis User s Guide From its small headwaters in Hall County, Georgia, the North Oconee winds nearly seventy miles, tumbling over granite outcroppings at Hurricane Shoals and on to Page 21/65

Athens, where it meets the Middle Oconee. From there, the Oconee courses 220 miles through eastcentral Georgia to meet the *Ocmulgee* convergence near Lumber City, forming the Altamaha River, Page 22/65

which flows to the Atlantic Ocean. As the Oconee's importance as a recreational amenity has arown over the years, University of Georgia students and instructors, the Altamaha Riverkeeper, Page 23/65
