NATIONAL BESTSELLER • "How did our democracy go wrong? This extraordinary document ... is Applebaum's answer." —Timothy Snyder, author of On Tyranny The Pulitzer Prize-winning historian explains, with electrifying clarity, why elites in democracies around the world are turning toward nationalism and authoritarianism. From the United States and Britain to continental Europe and beyond, liberal democracy is under siege, while authoritarianism is on the rise. In *Twilight of Democracy*, Anne Applebaum, an award-winning historian of Soviet atrocities who was one of the first American journalists to raise an alarm about antidemocratic trends in the West, explains the lure of nationalism and autocracy. In this captivating essay, she contends that political systems with radically simple beliefs are inherently appealing, especially when they benefit the loyal to the exclusion of everyone else. Elegantly written and urgently argued, *Twilight of Democracy* is a brilliant dissection of a world-shaking shift and a stirring glimpse of the road back to democratic values.

Prepare to be shocked. From the man *The Wall Street Journal* hailed as a "Swiftian satirist" comes the most shocking book ever written! *The Borowitz Report: The Big Book of Shockers*, by award-winning fake journalist Andy Borowitz, contains page after page of "news stories" too hot, too controversial, too -- yes, shocking -- for the mainstream press to handle. Sample the groundbreaking reporting from the news organization whose motto is "Give us thirty minutes -- we'll waste it."

Throughout her ground-breaking career in business and politics, Hurricane Hazel McCallion has seen it all. In 1978, she defeated a popular incumbent to win election as mayor of Mississauga, a rising city near Toronto that was, until then, a collection of towns, villages and farms. No one would have foreseen that the indomitable Hurricane Hazel would become so wildly popular she would remain mayor until 2014, retiring at age 93. Within months of taking office, Mayor McCallion orchestrated the largest Canadian peacetime evacuation at the time after a train derailed and put almost 250,000 Mississauga residents in harm's way of deadly chlorine gas. The incident made her an international media star and cemented her reputation as a plain-speaking, decisive political leader. She's been courted by federal and provincial parties over the years but turned them all down, declaring, "I could never toe the party line. I'd wear out the carpet crossing the floor." In her memoir, McCallion writes about her early years as the feisty mayor of a growing city; battles with politicians and business leaders; her love of hockey and abhorrence of on-ice violence; where the feminist movement misses its mark; and how she watched and dealt with her beloved husband's fall into the grip of Alzheimer's. Hazel's run as the leader of one of the fastest-growing cities in Canada has been nothing short of remarkable. The book is the story of Hazel's political, personal and business life, with all of its bumps and bruises along the way, as honest, bold and straightforward as the woman herself.

This is the full Mueller Report, as released on April 18, 2019, by the U.S. Department of Justice. A reprint of the report exactly as it was issued by the government, it is without analysis or commentary from any other source and with nothing subtracted except for the material redacted by the Department of Justice. The mission of the Mueller investigation was to examine Russian interference in the 2016 Presidential election, consisting of possible links, or "collusion," between the Donald Trump campaign and the Russian government of Vladimir Putin as well as any allegations of obstruction of justice in this regard. It was also intended to detect and prosecute, where warranted, any other crimes that surfaced during the course of the investigation. The report consists of a detailed summary of the various investigations and inquiries that the Special Counsel and colleagues carried out in these areas. The investigation was initiated in the aftermath of the firing of FBI Director James Comey by Donald Trump on May 9, 2017. The FBI, under Director Comey, had already been investigating links between Russia and the Trump campaign. Mueller submitted his report to Attorney General William Barr on March 22, 2019, and the Department of Justice released the redacted report one month later.

As human lives continue to get longer and seniors assume the largest age group, it is important to examine the way that age is viewed in contemporary society. Several studies, primarily based on surveys and examinations of television, have been conducted to determine whether ageism exists in the population. This study used a content analysis approach to identify the extent to which Palmore's eight negative stereotypes of the elderly exist in newspaper media. Qualitative analysis was also used to identify additional themes. One hundred sixty New York Times articles that had been identified as being on the topic of the elderly were randomly selected from the years 2008 to 2011. Frequencies revealed that illness, dependency, and poverty were the most prevalent stereotypes and ugliness the least prevalent stereotype represented in the newspaper articles.

Limitations and discrepancies were noted in order to allow opportunity for additional study.

"The long-awaited biography of the defining illustrator of the twentieth century by a celebrated art critic"--

It is now well-established that the long-time economic model on which the news industry has relied is no longer sustainable. Facebook, Google, and declining levels of popular trust in the media have been major contributors to this situation. Simultaneously, the closure of local media outlets across the country has left many areas without access to regional news, compounded the distance between media and publics, and further eroded civic engagement. Despite the looming crisis in journalism, a research-practice gap plagues the news industry. This book argues that an underappreciated factor in the news crisis is a potentially symbiotic relationship between journalism studies and the industry that it researches. As this book contends, scholars must think about their work in a public context, and journalists, too, need to listen to media scholars and take the

research that they do seriously. Including contributions from journalists and academics, Journalism Research That Matters offers journalists a guide on what they need to know and journalism scholars a call to action for what kind of research they can do to best help the news industry reckon with disruption. The book looks at new research developments surrounding audience behavior, social networks, and journalism business models; the challenges that scholars face in making their research available to the public and to journalists; the financial survival of quality news and information; and blind spots in the way that researchers and journalists do their work, especially around race, diversity, and inequality. A final section includes contributions from journalists about how researchers can better engage on the ground with newsrooms and media professionals.

"In this edition, Meyer's analysis of the correlation between newspaper quality and profitability is updated and applied to recent developments in the newspaper industry. Meyer argues that understanding the relationship between quality and profit is central to sustaining journalistic excellence and preserving journalism's unique social functions." -- Provided by the publisher.

The AAP's authoritative guide on preventing, recognizing, and treating more than 200 childhood infectious diseases. Developed by the AAP's Committee on Infectious Diseases as well as the expertise of the CDC, the FDA, and hundreds of physician contributors.

This How-to Guide describes what qualitative media analysis is, when and how it can be used to research online newspaper articles and shows how to draft a protocol to address the research problem under investigation. The guide also discusses similarities and differences between the more traditional quantitative content analysis often used in media research and the more recent qualitative content analysis which is far less rigid and puts emphasis on the researcher's reflexivity and ability to interact with the materials to arrive at more meaningful conclusions with regard to the communication of messages.

Furthermore, an overview of the 12 stages of the qualitative content analysis process is presented and a specific focus is placed on studying online newspaper articles. The 12 stages of the process include steps such as identifying a theoretical problem, finding documents, developing a protocol, collecting, coding, organising data, data analysis, and creating a final report. A more specific focus is then placed on how to develop a protocol which can meaningfully address the research question(s) and help categorise the data. The guide finishes with an example of a protocol used in a research project on organised crime representations in British national newspapers and a brief discussion on some of the research decisions and choices that guided its drafting, examination, and revision.

I have completed the manuscript with the tentative title Radioactive Clouds of Death Over Utah.. From 1950 to the 1958 moratorium on atmospheric testing, the Atomic Energy Commission detonated over 100 atomic bombs at the Nevada Test Site. The inhabitants of St. George, Utah--the so-called downwinders--were repeatedly in the fly zone of these toxic, wind-blown clouds--so much so that St. George became known nationwide as Fallout City, USA. According to the back cover of John Fuller's 1984 best seller, The Day We Bomb Utah: America's Most Lethal Secret, "Within a few years, a plague of cancer and birth defects had ripped through the area---a plague that may have caused the cancer-related deaths of John Wayne and over 100 other cast and crew members of The Conqueror which was filmed only miles from the test site." (Actually, it was filmed only five miles from St. George.) Utah Congressman Jim Matheson alleged in a recent op-ed article in the Deseret News that the horrendous legacy of radioactive fallout is still killing downwinders. "Thousands of citizens throughout the West continue to get sick and die from radiation-exposure-caused illnesses." From an editorial in the February 15, 2001 issue of the Deseret News: "...the federal government literally sacrificed the health of thousands of unsuspecting Utahans and Nevadans." The focus of Radioactive Clouds of Death Over Utah is to retrospectively consider both the short-term and long-term health effects of radioactive fallout exposure on downwinders from the perspectives of the downwinders, the tort lawyers, the government itself, politicians, producers of five television documentaries, writers of six popular books, hundreds of magazine and newspaper articles and many scientific studies on fallout health effects on Utah residents. Recently the Utah press has featured many fallout-cancer stories giving much weight to anecdotal accounts---downwinders have been featured in the Deseret News 265 times in the last decade. On April 12, 2011 U. S. Senator Tom Udall (D-NM) led a bipartisan group of senators in introducing S-791, the Radiation Exposure Compensation Act Amendments of 2011, which would among other things expand compensation to downwinders in all counties in Idaho, Montana, Colorado, New Mexico, and to areas not now covered in Utah, Nevada, and Arizona. Today, with heightened fears about radiation leaks from damaged nuclear power plants in Japan and the possibilities of nuclear terrorism, the discussion of fallout-induced cancers in this book provides valuable basic information about what is known about exposure to radiation and its health risks. A balanced perception of the health risks of ionizing radiation is of great societal importance to issues as varied as radiological terrorism, the future of nuclear power, nuclear waste storage, occupational radiation exposure, the clean-up of nuclear waste sites, medical x-rays (whole-body scanning by computed tomography results in much higher organ doses of radiation than conventional single-film x-rays), manned space exploration, and frequent-flyer risks.

From the author of the New York Times bestselling I Survived series, comes two gripping accounts of two young people who survived two terrifying twisters. The Tri-State Tornado of 1925 was the deadliest tornado strike in American history, tearing through three states and killing 700 people. Almost a century later, the Joplin Tornado was a mile-wide monster that nearly destroyed the heart of a vibrant city. The author of the New York Times best-selling I Survived series now brings you the vivid and true stories of two young people who survived these terrifying twisters, along with fascinating facts about tornadoes and profiles of the well-respected scientists and storm chasers who study them.

News is to the mind what sugar is to the body. In 2013 Rolf Dobelli stood in front of a roomful of journalists and proclaimed that he did not read the news. It caused a riot. Now he finally sets down his philosophy in detail. And he practises what he preaches: he hasn't read the news for a decade. Stop Reading the News is Dobelli's manifesto about the dangers of the most toxic form of information - news. He shows the damage it does to our concentration and well-being, and how a misplaced sense of duty can misdirect our behaviour. From the author of the bestselling The Art of Thinking Clearly, Rolf Dobelli's book offers the reader guidance about how to live without news, and the many potential gains to be had: less disruption, more time, less anxiety, more insights. In a world of increasing disruption and division, Stop Reading the News is a welcome voice of calm and wisdom.

A NEW YORK TIMES, TIME, GQ, Vulture, and WASHINGTON POST TOP 10 BOOK OF THE YEAR ONE OF BARACK OBAMA'S FAVOURITE BOOKS OF THE YEAR Finalist for the Los Angeles Times Book Prize, and the National Book Critics Circle Award Shortlisted for the Rathbones Folio Prize Winner of the Hefner Heitz Kansas Book Award From the award-winning author of 10:04 and Leaving the Atocha Station, a tender and expansive family drama set in the American Midwest at the turn of the century, hailed by Maggie Nelson as Ben Lerner's "most discerning, ambitious, innovative, and timely novel to date." Adam Gordon is a senior at Topeka High School, class of '97. His mother, Jane, is a famous feminist author; his father, Jonathan, is an expert at getting "lost boys" to open up. They both work at a psychiatric clinic that has attracted staff and patients from around the world. Adam is a renowned debater, expected to win a national championship before he heads to college. He is one of the cool kids, ready to fight or, better, freestyle about fighting if it keeps his peers from thinking of him as weak. Adam is also one of the seniors who bring the loner Darren Eberheart--who is, unbeknownst to Adam, his father's patient--into the social scene, to disastrous effect. Deftly shifting perspectives and time periods, The Topeka School is the story of a family, its struggles and its strengths: Jane's reckoning with the legacy of an abusive father, Jonathan's marital transgressions, the challenge of raising a good son in a culture of toxic masculinity. It is also a riveting prehistory of the present: the collapse of public speech, the trolls and tyrants of the New Right, and the ongoing crisis of identity among white men.

A seminal work and examination of the psychopathology of journalism. Using a strange and unprecedented lawsuit by a convicted murder against the journalist who wrote a book about his crime, Malcolm delves into the always uneasy, sometimes tragic relationship that exists between journalist and subject. Featuring the real-life lawsuit of Jeffrey MacDonald, a convicted murderer, against Joe McGinniss, the author of Fatal Vision. In Malcolm's view, neither journalist nor subject can avoid the moral impasse that is built into the journalistic situation. When the text first appeared, as a two-part article in The New Yorker, its thesis seemed so radical and its irony so pitiless that journalists across the country reacted as if stung. Her book is a work of journalism as well as an essay on journalism: it at once exemplifies and dissects its subject. In her interviews with the leading and subsidiary characters in the MacDonald-McGinniss case -- the principals, their lawyers, the members of the jury, and the various persons who testified as expert witnesses at the trial -- Malcolm is always aware of herself as a player in a game that, as she points out, she cannot lose. The journalist-subject encounter has always troubled journalists, but never before has it been looked at so unflinchingly and so ruefully. Hovering over the narrative -- and always on the edge of the reader's consciousness -- is the MacDonald murder case itself, which imparts to the book an atmosphere of anxiety and uncanniness. The Journalist and the Murderer derives from and reflects many of the dominant intellectual concerns of our time, and it will have a particular appeal for those who cherish the odd, the off-center, and the unsolved.

On April 13 2021, Director of National Intelligence Avril Haines, in coordination with Intelligence Community leaders, released to Congress an unclassified annual report of worldwide threats to the national security of the United States. Pursuant to Section 617 of the Intelligence Authorization Act for Fiscal Year 2021, the annual assessment examines the diverse array of threats that exist against the backdrop of the COVID-19 pandemic, great power competition, and rapidly evolving technology. "The American people should know as much as possible about the threats facing our nation and what their intelligence agencies are doing to protect them," said DNI Haines. "This report provides transparency to Congress and our nation's citizens with the aim of bolstering trust in our work and institutions."

What makes a place? Rebecca Solnit reinvents the traditional atlas, searching for layers of meaning & connections of experience across San Francisco.

This report delves into the implications for communities at risk of losing their primary source of credible news. By documenting the shifting news landscape and evaluating the threat of media deserts, this report seeks to raise awareness of the role interested parties can play in addressing the challenges confronting local news and democracy. The Expanding News Desert documents the continuing loss of papers and readers, the consolidation in the industry, and the social, political and economic consequences for thousands

of communities throughout the country. It also provides an update on the strategies of the seven large investment firms--hedge and pension funds, as well as private and publicly traded equity groups--that swooped in to purchase hundreds of newspapers in recent years and explores the indelible mark they have left on the newspaper industry during a time of immense disruption.

To demonstrate the powerfully enduring effect of place, this text reviews a decade of research in Chicago, to demonstrate how neighborhoods influence social phenomena, including crime, health, civic engagement & altruism.

In this vividly written, compelling narrative, award-winning journalist Neil Henry confronts the crisis facing professional journalism in this era of rapid technological transformation. American Carnival combines elements of memoir with extensive media research to explore critical contemporary issues ranging from reporting on the Iraq War, to American race relations, to the exploitation of the image of journalism by advertisers and politicians. Drawing on significant currents in U.S. media and social history, Henry argues that, given the amount of fraud in many institutions in American life today, the decline of journalistic professionalism sparked by the economic challenge of New Media poses especially serious implications for democracy. As increasingly alarming stories surface about unethical practices, American Carnival makes a stirring case for journalism as a calling that is vital to a free society, a profession that is more necessary than ever in a digital age marked by startling assaults on the cultural primacy of truth.

An illustrated collection of 175 mini love stories from the New York Times's Tiny Love Stories column, by the editors of Modern Love.

This book allows readers to bring newspapers into their everyday lives by promoting the idea that newspapers give us the opportunity to perceive ourselves as intrinsically involved in local, national, and global discussions. The only book of its kind on the market today, it provides a base for the development of critical thinking, reading, and writing skills as it shows ways in which we can reference newspaper articles as we work through new ideas and problems we encounter. This reader contains timely and interesting selections, and its organization mirrors that of any typical newspaper. Selections are divided into a News section, a Business section, a Discovery section, a Sports section, and a Life section. Each storyline presented includes a sample of an editorial, a report, and a feature article. Storylines include: the Jessica Smart case; the USA Patriot Act; Jayson Blair and The New York Times; Amazon.com; lotteries; fast food; the Space Shuttle disaster; cyberspace; cloning; Michael Jordan; Nancy Kerrigan and Tonya Harding; The US Olympic Hockey Team and the Gold Medal; fashion and fads; diet; and the 9/11 attacks. An excellent and exciting book that provides an excellent tutorial on how to read a newspaper for maximum effect and benefit. Will provide special insight for ESL students and others learning about newspapers and article-writing.

"The epic, definitive biography of Ted Kennedy--an immersive journey through the life of a complicated man and a sweeping history of the fall of liberalism and the collapse of political morality. Edward M. Kennedy was never expected to succeed. The youngest of nine, he lacked his brothers' natural gifts and easy grace. Yet after winning election to the Senate at the tender age of thirty, he became the most consequential legislator of his lifetime, perhaps even American history. Surviving the traumas of his brothers' assassinations, Ted Kennedy ultimately exerted the greatest effort keeping alive the mission of an active and caring government. He swept into the Senate at the high-water mark of the mid-century New Deal consensus and fulfilled the promise of that momentum throughout his glory years in the Senate as the booming voice of American liberalism. That voice found its greatest impact in the laws he passed that wove government firmly into American life, extending aid and opportunity to those in most desperate need. Two thousand pieces of legislation, ranging from health care to education to civil rights, bore Ted's fingerprints. He worked tirelessly to better people's lives, even after the Reagan-era push for limited government rewrote the contract between nation and citizens. He did this because he felt he owed it to those who suffered, and those with whom he empathized out of his own pain and ever-present sense of inadequacy. But Ted Kennedy was not immune to the darkness that plagued his family. He lived long enough to fail, to sin, to fall in and out of favor. The infamous incident at Chappaquiddick marked an unfortunate turning point in the youngest Kennedy's life, and it would not be his last brush with controversy. As his personal failures compounded in the public

eye, he struggled to maintain the traction that had carried his agenda so far. The product of a decade of work and hundreds of interviews, *Catching the Wind* will be an essential work of history and biography. The first of two volumes in a sweeping narrative, it traces the extraordinary life of an American statesman from his early years through the turning point of the 1970s. It is a landmark study of legislative genius and a powerful exploration of the man who spent his career upholding his mandate in service of a better America"--

Routledge English Language Introductions cover core areas of language study and are one-stop resources for students. Assuming no prior knowledge, books in the series offer an accessible overview of the subject, with activities, study questions, sample analyses, commentaries, and key readings—all in the same volume. The innovative and flexible 'two-dimensional' structure is built around four sections—introduction, development, exploration, and extension— which offer self-contained stages for study. Each topic can also be read across these sections, enabling the reader to build gradually on the knowledge gained. This revised second edition of *Language and Media: Provides an accessible introduction and comprehensive overview of the major approaches and methodological tools used in the study of language and media. Focuses on a broad range of media and media content from more traditional print and broadcast media formats to more recent digital media formats. Incorporates practical examples using real data, including newspaper articles, press releases, television shows, advertisements (print, broadcast, and digital), blogs, social media content, internet memes, culture jamming, and protest signs. Includes key readings from leading scholars in the field, such as Jan Blommaert, Sonia Livingstone, David Machin, Martin Montgomery, Ruth Page, Ron Scollon, and Theo van Leeuwen. Offers a wide range of activities, questions, and points for further discussion. The book emphasises the increasingly creative ways ordinary people are engaging in media production. It also addresses a number of urgent current concerns around media and media production/reception, including fake news, clickbait, virality, and surveillance. Features of the new edition include: Special attention on 'new media' forms such as websites, podcasts, YouTube videos, social media sites, and mobile apps such as Snapchat and Instagram; Additional material on: mobility and materiality in media, memes and virality, discourse processes in media production, collaborative production and user created content, reality TV, fake news, the role of algorithms and bots in media production and circulation, and media and resistance; Discussion of media surveillance, privacy boundaries, and the so-called 'right to be forgotten' related to Internet archiving; Brand new readings from key scholars in the field including Piia Varis, Jan Blommaert, Monika Bednarek and Martin Montgomery; Updated examples and references throughout, to reflect more contemporary issues. Written by three experienced teachers and authors, this accessible textbook is an essential resource for all students of English language and linguistics.*

The Intertext series has been specifically designed to meet the needs of contemporary English Language Studies. The core book, *Working with Texts*, is the foundation text which provides an introduction to language analysis. It is complemented by a range of 'satellite' titles which provide students with hands-on practical experience of textual analysis through special topics. They can be used individually or in conjunction with *Working with Texts*. The *Language of Newspapers* explores the ways in which the press portrays current events. From the ideological bias of the press, to the role of headlines in newspaper articles and ways in which newspapers relate to their audience, the book provides a comprehensive analysis of newspaper language. The second edition has been substantially rewritten and includes a range of new texts. Features include: * a new introduction, taking account of recent developments in the media * recent newspaper articles on a range of subjects, from Jeffrey Archer's conviction to the journalist captured for suspected spying in Afghanistan * a new introduction, taking account of recent developments in the media * new activities and commentaries to support student-directed study * a 'further resources' section with details of on-line newspapers and websites to visit.

#1 NEW YORK TIMES BESTSELLER • A dramatic expansion of a groundbreaking work of journalism, *The 1619 Project: A New Origin Story* offers a profoundly revealing vision of the American past and present. ONE OF THE BEST BOOKS OF THE YEAR: The Washington Post, NPR, Esquire, Marie Claire, Electric Lit, Ms. magazine, Kirkus Reviews, Booklist In late August 1619, a ship arrived in the British colony of Virginia bearing a cargo of twenty to thirty enslaved people from Africa. Their arrival led to the barbaric and unprecedented system of American chattel slavery that would last for the next 250 years. This is sometimes referred to as the country's original sin, but it is more than that: It is the source of so much that still defines the United States. The New York Times Magazine's award-winning "1619 Project" issue reframed our understanding of American history by placing slavery and its continuing legacy at the center of our national narrative. This new book substantially expands on that work, weaving together eighteen essays that explore the legacy of slavery in present-day America with thirty-six poems and works of fiction that illuminate key moments of oppression, struggle, and resistance. The essays show how the inheritance of 1619 reaches into every part of contemporary American society, from politics, music, diet, traffic, and citizenship to capitalism, religion, and our democracy itself. This is a book that speaks directly to our current moment, contextualizing the systems of race and caste within which we operate today. It reveals long-glossed-over truths around our nation's founding and construction—and the way that the legacy of slavery did not end with emancipation, but continues to shape contemporary American life. Leadership legend and bestselling author Ken Blanchard and trust expert and thought leader Randy Conley present this carefully curated collection of fifty-two essential leadership principles that are easy to implement and practice. Effective leadership is an influence process where leaders implement everyday, commonsense approaches that help people and organizations thrive. Yet somehow, many of these fundamental principles are still missing from most workplaces. In *Simple Truths of Leadership*, legendary servant leadership expert Ken Blanchard, whose books have sold millions of copies worldwide, and his colleague Randy Conley, known and recognized for his many years of thought leadership and expertise in the field of trust, share fifty-two Simple Truths about leadership that will help leaders everywhere make commonsense leadership common practice. Readers will discover profound, memorable, and in some cases counterintuitive leadership wisdom such as • Who should make the first move to extend trust • What role a successful apology plays in building trust • When to use different strokes (leadership styles) for different folks—and for the same folks • Where the most important part of leadership happens • How to create autonomy through boundaries • Why the key to developing people is catching them doing something right A fun, easy read that will make a positive difference in leadership and organizational success, *Simple Truths of Leadership* will show readers how to incorporate simple but essential practices into their leadership style, build trust through servant leadership, and enhance their own lives and the lives of everyone around them. For a decade, Amy Dickinson has been the Chicago Tribune's signature general advice columnist, helping readers with questions both personal and pressing. *Ask Amy: Advice for Better Living* is a collection of over 200 question-and-answer columns taken from 2011–2013. As the highly popular successor to the legendary Ann Landers, Dickinson answers readers' questions with care and attention, while also providing a plainspoken, straight-shooting dose of reality that often only comes to us from close friends. Dickinson's advice is rooted in honesty and trust, which is why so many readers turn to her for advice on their everyday lives and for maintaining healthy, lasting relationships. *Ask Amy: Advice for Better Living* is a testament to the empathetic counsel and practical common-sense tips that Dickinson has been distilling for years.

This is an applications-oriented text that demystifies the linkages between monetary and fiscal policies and key macroeconomic variables such as income, unemployment, inflation and interest rates. Specially written "newspaper" articles simulate current macroeconomic news on asset-price bubbles, exchange rates, hyperinflation and more. Exercises and diagrams, and a global perspective – incorporating both developed and emerging economies - make this a broadly useful, real-world oriented text on a complex and shifting subject.

Using the media to promote public health is an innovative and valuable approach. Media Advocacy and Public Health develops the concept of media advocacy as a central strategy for the prevention of public health problems. How we think about health problems, and what we do about them, is largely determined by how they are reported on television, radio, and in the newspaper. Often, crucial issues of public health policy are discussed and decided only after they are made visible by the media. A traditional communication strategy like social marketing focuses on giving people a message. Media advocacy gives people a voice. The first book of its kind, Media Advocacy and Public Health lays out the theoretical framework and practical guidelines to successful media advocacy strategies.
