For many companies, their intellectual property can often be more valuable than their physical assets. Having an effective IT governance strategy in place can protect this intellectual property, reducing the risk of theft and infringement. Data protection, privacy and breach regulations, computer misuse around investigatory powers are part of a complex and often competing range of requirements to which directors must respond. The new edition has been fully updated to take account of the latest regulatory and technological developments, including the creation of the International Board for IT Governance Qualifications. Become a passionate, purposeful, and meaningful leader through identifying who you are, your strengths, and your skills. New York Times bestselling author Stedman Graham's *Identity Leadership* is a very personal and prescriptive guide that is based on his philosophy that a leader can't lead others until he can first lead himself—the more he works on himself, the more he can give to those around him. To know our purpose in life, we begin with our passions, skills, and talents, and with this book we learn how to channel the best of who we are to achieve success for ourselves and those we lead. In *Identity Leadership*, Graham examines why self-awareness matters, how leaders lead, the importance of communication, and much more. He then shows the reader how to step into their role as a leader and create their identity leadership plan. Key to the journey is believing in yourself, knowing your competence, continually challenging yourself, and being patient with yourself. Graham uses anecdotes from his own life, as well as discussing successful leaders, to illustrate the importance of identity leadership in each of our lives. Self-leaders can create a roadmap that leads to personal growth, development, and improvement of performance in every area of life. *Identity Leadership* provides the tools—self-awareness, emotional intelligence, discipline, and more-needed to continually plan and execute learning and development of our talents and skills. These tools enable readers to commit to a personal vision and lead with purpose.
