Miitopia is a traditional JRPG with a unique twist: every character in this story is a Mii! Players may pick who they wish to join them on their journey, whether it's Miis from their family, friends, or celebrities. On the Nintendo 3DS system, it was first published in Japan in December 2016 and then globally in July 2017. The game garnered mixed reviews from reviewers, however, it was well-liked by Metacritic users. However, because it was launched in the Americas and Europe, many months after the Nintendo Switch on March 3, 2017, its entire potential on 3DS may not have been recognized. For many, this will be their Miitopia experience, which has a strong potential of becoming one of the finest Nintendo Switch games, based on the overwhelmingly enthusiastic demo response. Here, we have carefully arranged this book to walk you through the game with ease, as simple guide that is interactive and easy to comprehend. I bet you'd love it!
