Ozawa Ichir? was the axis on which Japanese politics turned for more than two decades. He helped to reshape the electoral system, political funding rules, the evolution of the party system, the nature of executive government, the roles and powers of bureaucrats, and the conduct of parliamentary and policymaking

processes. Admired and reviled in almost equal measure, Ozawa has been the most debated and yet least understood politician in Japan, with little agreement to be found amongst the many who have debated his patent political assets and palpable political flaws. This book examines the political goals, behaviour, methods and practices of Ozawa Ichirō, and in doing so, provides fascinating insights into the inner workings of Japanese politics. It explores Ozawa's paradoxical and conflicting contributions in terms of

two contrasting models of 'old' and 'new' politics. Indeed, therein lies the problem of understanding the 'real' Ozawa: he remained a practitioner of old politics despite his rhetorical agenda of change to bring about new politics. In seeking to unravel the Ozawa enigma, Aurelia George Mulgan reveals his primary motivations, to establish whether he sought power primarily to enact reforms, or, whether his reform goals simply disguised power-seeking objectives. This volume seeks to illuminate Ozawa's true character as a

politician, and untangle the complex elements of old and new politics that he represents. Through an in-depth study of Ozawa and his political activities, this book shows how the Japanese political system works at the micro level of individual politicians, political relationships and systems. As such it will be of huge interest to students and scholars of Japanese politics, Asian politics and political systems.

that the European Union suffers from a "democratic deficit," Athanasios Psygkas argues that EU mandates have enhanced the democratic accountability of national regulatory agencies. This is because EU law has created entry points for stakeholder participation in the operation of national regulators; these avenues for public participation were formerly either not open or not institutionalized to this degree. By focusing on how the EU formally adopted procedural mandates to advance the substantive goal of creating an internal

Recent years have seen a remarkable expansion in the scale and importance of economic, social, and cultural rights (ESC rights), culminating in the adoption of the Optional Protocol to the International Covenant on Economic, Social and Cultural Rights in December 2008. The Protocol gives individuals and groups the ability to bring complaints about rights violations before the UN Committee on Economic, Social, and Cultural Rights. Against this background, this book focuses on the question of how fundamental socio-

The exposure of two senior republicans as informers for British intelligence in 2005 led to a popular perception that the IRA had 'lost' the intelligence war and was pressurised into peace. In this first in-depth study across the entire conflict, Thomas Leahy re-evaluates the successes and failures of Britain's intelligence activities against the IRA, from the use of agents and informers to special-forces, surveillance and electronic intelligence. Using new interview material alongside memoirs and Irish and UK archival materials, he suggests that the IRA was not

***to the country's problems. New cities, new farms, new industrial zones, new tourism resorts, and new development corridors, all have been promoted for over half a century to create a modern Egypt and to pull tens of millions of people away from the increasingly crowded Nile Valley into the desert hinterland. The results, in spite of colossal expenditures and ever-grander government pronouncements, have been meager at best, and today Egypt's desert is littered with stalled schemes, abandoned projects, and forlorn dreams. It also remains stubbornly uninhabited. Egypt's Desert Dreams is the first attempt of its kind to look at***

?This volume explores China's cultural heritage ideology and policies from three interrelated perspectives: the State and World Heritage tourism; cultural heritage tourism at undesignated sites, and the cultural politics of museums and collections. Something of a cultural heritage designation craze is happening in China. This is new within even the last five to ten years. Officials at many levels now see heritage preservation as a means for commoditizing their regions. They are devoting new resources and attention to national and international heritage designations. Thus, addressing cultural heritage politics in a nation dedicated to designation is an

important project, particularly in the context of a rapidly growing economy. This volume is also important because it addresses a very wide range of cultural heritage, providing an excellent sample of case studies: historic vernacular urban environments, ethnic tourism, scenic tourism, pilgrimage as tourism, tourism and economic development, museums, border heritage, underwater remains, and the actual governance and management of the sites. This volume is an outstanding introduction to cultural heritage issues in China while contributing to Chinese studies for those with greater knowledge of the area.

How will China develop under the new leadership of Xi Jinping and Li Keqiang? This is a key question for both China and the wider world. This book presents a comprehensive overview of the key areas and issues, assessing how things are likely to develop under the new leadership. It considers the economy, trade, politics, and demographics; appraises the leadership, both at the national and provincial levels; and discusses potential flashpoints in China's relationship with its neighbors and China's emerging role in world politics. The book emphasizes the great uncertainties surrounding the next phase of China's development, highlighting the structural
