December 1966. A baby girl is born in the forests of central Zimbabwe. Seventeen years on, on a cold concrete floor at Gatwick arrivals, she sits alone, afraid, abandoned by the country she fought for. The Forgotten Child of Zimbabwe is the heart-rending story of Debra Mina Chidakwa-Akue, her early life of abuse, slavery, war, and betrayal. Set during the years of Zimbabwe's long and bloody struggle for independence, Debra's journey shines a harrowing light on life in her country, how conflict and power corrupts, and what horror the human spirit can somehow endure. It is through one girl's life experiences and the desire to share how we meet with life's challenges and how we should never give up that the author opened her heart to share a journey of a thousand miles full of pain, heartache, disappointments, near-death experiences, physical and emotional abuse, and the experiences of the bitter liberation war in Zimbabwe. Through every little journey that she endured there exists tremendous encouragement, inspiration, sadness, and thought-provoking encounters, of which some will send shivers in your spine. The Forgotten Child of Zimbabwe reveals the hidden agendas and real life stories that human beings experience, which is sometimes impossible to talk about. The Forgotten Child of Zimbabwe brings into the open the realities of life through the life and experiences of this brave young African girl. It will leave you with a challenge to take control of your life, to do something positive, and to see other human beings with fresher eyes. It will make you laugh, cry, and celebrate life and uplift you as well give you hope and be thankful. It is a story that is difficult to put down as it takes you on journey that is full of adventure and real life experiences, and, in the end, strengthens your faith or leads you to it.

This Companion offers a concise and engaging introduction to the Hebrew Bible or Old Testament. Providing an up-to-date 'snapshot' of scholarship, it includes essays, specially commissioned for this volume, by twenty-three leading scholars. The volume examines a range of topics, including the historical and religious contexts for the contents of the biblical canon, and critical approaches and methods, as well as newer topics such as the Hebrew Bible in Islam, Western art and literature, and contemporary politics. This Companion is an excellent resource for students at university and graduate level, as well as for laypeople and scholars in other fields who would like to gain an understanding of the current state of the academic discussion. The book does not presume prior knowledge, nor does it engage in highly technical discussions, but it does go into greater detail than a typical introductory textbook.

This book scrutinises religion in education in ten countries. It reveals much about the tension between religion and education in secular countries, and the blending between religion and education in religious countries, such as Iran and Malaysia, as well as secular countries such as the Netherlands. It also shows the important role the church currently plays in education in developing countries, such as Tanzania.

Understanding and Using the Bible is an engaging and exciting introduction to biblical methods and practices of study, edited by two trusted teachers in collaboration with a diverse array of contributors. Part one explores key Christian beliefs about the Bible and why it matters, guides effective use and application of the Bible in different cultural and social contexts, and encourages readers to take the Bible as a whole and build a biblical worldview. Part two illustrates applied Bible use in different contexts with contributions from a variety of authors.

A guide to creating Bible lessons covers various teaching methods, including the chapter study method and the character quality method, along with sample lessons, an overview of the books of the Bible, and a guide to the main themes of the Bible.

Religion and spirituality make critical contributions to an inclusive vision for the welfare of minorities, the marginalized and other disadvantaged groups in societies and cultures around the globe. Religious movements and spiritual traditions work to improve social outcomes for disenfranchised groups by enriching educational, political, and social agendas, and by providing a wide variety of justice-driven programs and services. Values underpinning these services include the dignity of the human person, the sanctity of human life, the foundational role of families and communities, the transformative power of learning, and the advancement of shared personal and social rights and responsibilities. These values act as a counter-balance to other attitudes and values that may impede pro-social cohesion and development. Drawing on diverse religious and spiritual perspectives and traditions, this new volume provides exciting and enriching examples of theory, research and practice that directly contribute to our understanding

of how religion and spirituality promote and facilitate social justice and equity in diverse social and cultural contexts – with a particular focus on educational settings, contexts, processes and outcomes. Religious communities invest heavily in schools, colleges and universities in the belief that these educational institutions enable them to inculcate into their membership the kinds of moral values and qualities that lie at the heart of their spiritual teachings. Looking beyond the sacred-secular impasse, religious organisations attempt to provide a "education for life" which draws from both the scientia of science and the sapientia of religion and spirituality. These depth-dimensions provide the pool of values which enable citizens to enact equity, mercy and justice in society in the name of God and for the sake of humanity. The chapters which comprise this volume demonstrate the possibility of a healthy integration between religion and education from a truly global, transdisciplinary and ecumenical perspective. From contexts within Asia, Africa, the USA and Australia, and from disciplines ranging from ethics to social work, from health to educational curriculum, from personal identity to community-consciousness; this volume makes a unique contribution to the theory and practice of the educational and religious inter-face. It is a contribution which holds a great deal of promise for being pro-humanitas.

There is nothing particularly new or unique about the subject matter of Prophetic Figures of the Old Testament. In fact, greater authorities have covered it better many times before, and this endeavour is hugely reliant upon and indebted to these great minds for this current work. The hope is that readers can enjoy more of what they have already had, from many different quarters, presented through a different hand. It is also the hope that beginning learners of divinity or biblical studies can find this book greatly enjoyable and inspiring. In the main, the prophetic figures represented in the wording of the book title certainly refer to persons called or identifiable as prophets in the Bible. But this is also extended to include some objects, occurrences, and places that prophets may have encountered and even made use of in the performance of their prophetic duties. The interplay of these and the prophet is generally taken to signify the comprehensiveness or completeness of prophecy, in this book. The reader is invited to interrogate the relationship of the prophet and this environment in order to enjoy more fully the religious, historical, political, intellectual, and inspirational aspects one goes through in respect of the issues selected and commented on. The reader is encouraged to think beyond what one reads. Any statement or comment is not meant to be some kind of definitive prescription but is meant to arouse thought and more thought. More important, readers should always be in constant contact with the origin of the materials spoken about in this book - that is, the Bible. There is obviously no way in which selective consideration of items picked on a rather random, personal, subjective basis can replace the source from which these are originally taken. Reading of Prophetic Figures of the Old Testament should therefore always depend on knowledge of, or familiarity with, the background information provided in the Bible.

The Cambridge Introduction to Anglo-Saxon Literature

A Global Perspective on Women in Leadership and Work-Family Integration

Nearly five centuries after the first wave of Catholic missionaries arrived in the New World to spread their Christian message, contemporary religious workers in the Bolivian highlands have begun to encourage Aymara Indians to return to traditional ritual practices. All but eradicated after hundreds of years of missionization, the "old ways" are now viewed as local cultural expressions of Christian values. In order to become more Christian, the Aymara must now become more Indian. This groundbreaking study of the contemporary encounter between Catholic missionaries and Aymara Indians is the first ethnography to focus both on the evangelizers and the evangelized. Andrew Orta explores the pastoral shift away from liberation theology that dominated Latin American missionization up until the mid-1980s to the recent "theology of inculturation," which upholds the beliefs and practices of a supposedly pristine Aymara culture as indigenous expressions of a more universal Christianity. Addressing essential questions in cultural anthropology, religious studies, postcolonial studies, and globalization studies, Catechizing Culture is a sophisticated documentation of the widespread shift from the politics of class to the politics of ethnicity and multiculturalism.

Living a life of emotional dependence on a lost love, Nathan has nothing to live for, except the humdrum of a crippling life. Believing that people cannot resist the currents of their time, he has been docile taking life as it comes along, until the secret police pick him up for interrogation. Then, he realizes that behind the facade of revolutionary slogans he has almost come to believe carte blanche is a more sinister plan. Someone has to stop the powerful. But who? He finds an ally in Major Adams, convinces him that the powerful don't have all the monopoly on intrigue and blackmail. Major Adams has discovered the Junta's secret. Death is almost certain for all, until the participants in the unfolding drama--Adams, Nathan, and Amina--realize that it will take their collective will to live, and all their endurance and courage to overcome the large cadre of the 'revolutionary zealots' in order to return this African nation to a modicum of peace. Drawing upon his early memories and serious search for answers to the senselessness of wasted lives, the author presents a story of the clash of ethnic cultures and the struggles of individuals to cope with their ever-changing landscape.

HELP FROM EXPERT SCHOLARS IN UNDERSTANDING THE SCRIPTURES • What does That verse mean? • How should I interpret this passage? • What is the significance of this word or phrase in Hebrew or Aramaic? • How do Bible-time customs help me understand the meaning of this passage? • How does the information on the author, historical background, and features of a Bible book help interpret that book? The Bible Knowledge Commentary answers these and other questions about the Scriptures, discussing all the Bible verse by verse and often phrase by phrase. In addition, maps, charts, and diagrams help you grasp the meanings of the biblical text. Unlike most others this commentary is by authors from one school - Dallas Theological Seminary. The Bible Knowledge Commentary - popular in style and scholarly in content - will deepen your understanding of God's written Word

Dieser Band widmet sich der Zeitspanne zwischen Renaissance und Aufklärung (1300-1800).

Christian and Muslim schools have become important target points in families and pupils' quests for new study opportunities and securing a 'good life' in Tanzania. These schools combine secular education with the moral (self-)formation of young people, triggering new realignments of the fields of education with interreligious co-existence and class formation in the country's urban centres. Hansjörg Dilger explores the emerging entanglements of faith, morality, and the educational market in Dar es Salaam, thereby shedding light on processes of religious institutionalisation and their individual and collective embodiment. By contextualising these dynamics through analysis of the politics of Christian-Muslim relations in postcolonial Tanzania, this book shows how the field of education has shaped the positions of these highly diverse religious communities in diverging ways. In doing so, Dilger suggests that students and teachers' religious experience and practice in faith-oriented schools are shaped by the search for socio-moral belonging as well as by the power relations and inequalities of an interconnected world.

Breaking Balance

P. 275-357 : les éditions genevoises au 16e siècle de la Bible en anglais.

This reference collection presents academic reviews of more than twelve-hundred contemporary Africa-related publications relevant for informed Christian reflection in and about Africa. The collection is based on the review journal BookNotes for Africa, a specialist resource dedicated to bringing to notice such publications, and furnishing them with a one-paragraph description and evaluation. Now assembled here for the first time is the entire collection of reviews through the first thirty issues of the journal's history. The core intention, both of the journal and of this compilation, is to encourage and to facilitate informed Christian reflection and engagement in Africa, through a thoughtful encounter with the published intellectual life of the continent. Reviews have been provided by a team of more than one hundred contributors drawn from throughout Africa and overseas. The books and other media selected for review represent a broad cross-section of interests and issues, of personalities and interpretations, including the secular as well as the religious. The collection will be of

special interest to academic scholars, theological educators, libraries, ministry leaders, and specialist researchers in Africa and throughout the world, but will also engage any reader looking for a convenient resource relating to modern Africa and Christian presence there.

Meet Fire--Jamaican-born, charming, poetic, and talented--a man who's vowed to never play "love-is-blind" games again. Then he meets Sylvia, a beautiful magazine editor who keeps her passions under lock and key. Together they must choose between the love in their lives and the love of their lives. From the galleries of Soho to the brownstones of Brooklyn, from the nightclubs of London to the streets of Kingston, Jamaica, Channer takes us on a wild, soul-searching ride as Fire and Sylvia try to connect, disconnect, and reconnect amid conflicting desires and wounds from the past. But through intricate love triangles, skewed priorities, and crushing personal tragedies, Fire, Sylvia, and their friends must learn that some things in life are worth fighting for. If not, you're simply waiting in vain.

This book offers a way to engage with the Bible as a set of sacred texts that can serve as a song sheet for believers in exile--those people Bishop John Shelby Spong calls the "church alumni association." This includes those internally displaced persons of faith who have not yet become spiritual refugees but who feel the pressure to conform to traditional expressions of faith that no longer serve as springs of living water for the journey of life. These ancient texts come from another world and another time, but they can serve as maps for the journey of life. They can best do this when the sacred wisdom of the Bible is accepted as permission to voice the new questions we face today in the confidence that authentic faith has always required such boldness. Religious progressives are people who live the questions, not dodge them. Our task is not to guard a set of traditional answers, but to live life boldly, taking risks for God's sake and our own. One of the hallmarks of this book is that the problems posed by the Bible are acknowledged. In particular, the contributions of recent critical scholarship are embraced, rather than being ignored or neutralized by pious ambivalence. The intended reader of this book is not a traditional believer, secure in her assumptions about God and salvation, but someone struggling to live with integrity in a time when traditional religion seems increasingly irrelevant. The goal is not to persuade the reader that the Bible is credible but--more modestly--to offer an account of the Bible that may encourage religious progressives to reclaim the Bible as a valued part of our spiritual baggage.

New and Old Horizons in the Orality Movement

The Toronto 2018 Symposium on Christian Higher Education provided an opportunity for leaders in the Canadian Christian higher education movement to reflect deeply on its development, current reality, and future possibilities. The Canadian Christian higher education scene comprises a wide range of institutions, including Christian universities, Bible colleges, and seminaries and graduate schools. Each type has its own distinctive history and likewise represents both challenges and opportunities. Even though they are intertwined in their common purpose, these higher educational institutions express this purpose in various ways. This volume is a collection of the papers and plenary talks designed to share the content of the symposium with a wider audience. The papers are all written by active scholars and researchers who are connected to the member institutions of Christian Higher Education Canada (CHEC). They not only illustrate the quality of the scholarship at these institutions, but they make their own critical contribution to an ongoing discussion regarding the role and place of Christian higher education within the wider society. This volume is intended to be helpful to students, faculty, staff, board members, and supporters of Canadian and other Christian higher education institutions, as well as interested individuals and scholars.

Orality formed us. Orality forms us. Orality will forever form us. Orality is a central theme of our lives. In this fast-paced world, few Christian workers take the time to look back to learn and build on the lessons of the past. Wise Christian workers, however, do not forge ahead into new horizons without first investigating past horizons. They understand in this complex world there are too many strong shoulders of the past to be overlooked. The dozen practiced researchers contributing to New and Old Horizons in the Orality Movement offer such inquirers wisdom from the past that can boldly and boundlessly improve the future of the modern-day orality movement.

Dead Woman Pickney chronicles Yvonne Shorter Brown's life growing up in Jamaica between 1943 and 1965 and teaching in Canada from 1969. Told with stridency and humour, the stories include both personal experience and history. Taking up the haunting memories of childhood, along with persistent racial

marginalization of Black people, both globally and in Canada, the author sets out to construct a narrative that at once explains her own origins in the former slave society of Jamaica and traces the outsider status of Africa and its peoples. The author's quest to understand the absence of her mother and her mother's people from her life is at the heart of the narrative. The author struggles through life to discover the identity of her mother in the face of silence from her father's brutal family. In this updated edition she adds a coda, "finding mother", constructed from archives, genealogy, letters, and journals.

Initially published in 2010, this second edition includes expanded text and a foreword by Sonja Boon, author of *What the Oceans Remember*.

The present book entitled the Illuminati Bible of Divine Light is a work of philosophy that deepens both ontological and gnoseological themes, regarding the Existence of God and implicitly ours. I have said many times, so far, that philosophy is the religion of the future. At the base of the Illuminati Bible of Divine Light is the philosophical-religious system called Coaxialism, published in its final form in the book entitled *Coaxialism - Final Edition*, but also the *Collection of Wisdom* consisting of 16,777 aphorisms structured according to certain themes, published in its final form in the book entitled, *The Wisdom Collection: 16. 777 Philosophical Aphorisms- 2020 Edition*. The God of the Illuminati Bible of Divine Light is not a dictatorial God who demands total submission from Man so that Man can benefit from a Paradise after Death, but is a God of Man's rediscovery in his own Self. The God of this World is the Creator Factor and Unique-Incidentally, who is defined through a Meaning that forms a Word. In the Parallel Universes there are an infinity of Creator Factors and Unique-Incidentally where each one in part is a Meaning that in turn determines a Word in the respective Universe, Word from which the respective Universe was formed, as well as our Universe in turn, was formed from the Word of our own Creator Factor and Unique -Incidentally. The totality of the Creator Factors and Unique-Incidentally, that is, the totality of the Meanings which determine, in their turn, each in part, a Word, form the Universal Pure Language, which in its totality determines the Consciousness Unique and Incidentally of the Universal Unique Expression which is the Supreme God, the Supreme Intelligence of all Universes whose number is infinite as is infinite and the number of the Words defined in turn, each in part, by the Creator Factors and Unique -Incidentally. The Unique-Incidentally Consciousness of the Universal Unique Expression always KNOWS where it is and what namely it does, each atom in part, each elementary particle in part, from each Universe which in turn together with all the other Universes makes up the infinity of Universes. I have always said that we are from before us, that is, we are a reflection of what was and from here comes the Destiny that cannot be changed, and the Free Will is an Illusion from the great range of the Illusions of Life. Everything that will Happen in our Future has Happened and has been in our Past before it was Time. Thus, the spiritual Energy of our Soul is allowed to pass through the Happenings that the Illusion of our own Life renders to us as being something new, even though they were, long before us. We are a quantum of energy, which flows through a reflection of the World that was before Time, a World through whose reflection we flow in the so-called Present, with our own spiritual energies of the Soul, having the false sensation of, Time, Past, Present and Future. From this flowing of ours, through the reflection of that World in the Mirror of Knowledge, we have the feeling that we are living our own Life even though in reality we are living our own Illusion of Life. In conclusion, we are only a quantum of energy which flows through the reflected images of the World that was somewhere - sometime, from before Time. As those images of the World in whose reflection we have the Illusion that we live cannot be changed, so neither our Destiny cannot be changed, because it flows once with the spiritual energies of our Souls, through the images of that World, which cannot be changed by us, because that World was before us. Thus, precisely the Illusion of Life that gives us the so-called Free Will, he which in reality does not exist, she, the Illusion of Life is the one that can help us to improve or worsen the spiritual energy of our Soul. Hence, results the necessity of the Illusion of Life in this World. Thus, once we travel through this World with Happenings that were long Before we believed that it Happens, accompanied by the Illusion of Life that makes us believe in the existence of Free Will, we go through, all sorts of Trials, that are the spiritual relief forms of this World, which is a reflection of what was, somewhere - sometime and from here comes the ineffable Destiny. Destiny is ineffable because it cannot be changed, because neither the World through whose reflection we pass can never be changed. Thus, the religions that have developed in this World, did not appear Incidentally, but they existed in the Initial World that was reflected in the Mirror of our Knowledge, a World that was, long Before us. In that World was also Jesus Christ, and the other Great Prophets such as the Prophet Muhammad, the Buddha, Moses, etc. What Happened on Earth, that is, in our World, was that some Souls who were so spiritually perfect had the approval of God, to travel through this World in the bodies of these Great Prophets, just as each of us have the acceptance of God, to travel through this World in our own bodies, which are some vehicles that take us from the destination of Birth to the destination of Death. These vehicles which are our bodies, they too, are, in turn, a reflection of a World that was long Before us. Due to these things, every Man is born under the specter of a certain Religion which has been left so by God through Destiny to Happen. The appearance of the Great Prophets was due to the Destiny. Jesus Christ, did not appear from Nothingness, Incidentally in our World, but was left namely to Happen in this way, by God, because God is the one who let the Mirror of Knowledge through which we to can become Aware of this World. That's exactly why every Man is good to follow the Religion existing in the area where he was born and to respect the Religions of other People born in other areas where there are other kinds of Religions,

until these will be replaced or not, by other Religions, or philosophical and religious systems, with the Will of God, that is, on the understanding of some, in a natural way and not forced by anyone. Even Atheism is in itself a Religion, precisely through the fact that it is based on a certain Faith, where God is represented through the Laws of the Universe. It has been speculated about me that in the book *The Evil I do not make a clear distinction between the Evil necessary for the existence of Good, and the Devil. Evil is necessary for the existence of Good just as Good is necessary for the existence of Evil. Evil can often be a far greater Good than Good and vice versa, Good can sometimes be a far greater Evil than Evil. Instead with what I do not agree and can really be considered an Evil that can be Devilish, is for example Wickedness. About wickedness, I have developed an entire chapter in the book entitled *The Far Future of Mankind, Philosophical Aphorisms, the Chapter of Wickedness, aphorisms 1-227, a book which in turn is part of The Wisdom Collection : 16,777 Philosophical Aphorisms, which in turn is part from this book entitled The Illuminati Bible of Divine Light. Thus, Wickedness is something demonic which must be combated, because the Evil it brings does not serve the Good than in a much lesser extent, than the Good could serve, the Evil from this Wickedness. If we are to attribute Wickedness to the Devil, then we must certainly avoid him, as much as we can. In conclusion, Evil and Good are the attributes of God when Evil can help the Good and of the Devil when Evil can not help the Good than an even greater Evil. There is all sorts of speculation concerning the fact that I would have stated in Coaxialism that Man thinks only with a tiny percentage of the brain. I even said that Man does not think than with 2 percent from his brain. I stated this in the context in which I wanted to express that only a tiny percentage of the cognitive total we use would have any connection with the Absolute Truth through this interweaving of Illusions of the Life through which we travel during our own Life. In reality, I think that, that two percent percentage is very high and in reality it would not be, not even that much. And the brain in turn, is also an Illusion from the arsenal of the Illusions of Life, so the so-called ability of the human brain to process data is an Illusion as great, as our own Illusion of Life is. It is irrelevant whether or not Man uses his entire brain in the thought process once his entire thought process is subjected to the Illusion of Life and due to this fact the Man's thinking is not anchored by even two percent to the Absolute Truth. With the appearance of my first philosophical studies but also of aphorisms, I initially published the book entitled *Bible of the Light* and then a more complete form of the book *Bible of the Light* was the book entitled *The Illuminati Bible*, so that in present to publish the full form of the Bible, which I felt that it will be perfected with the help of God, and which I decided to call the *Illuminati Bible of Divine Light*. Some will wonder why I chose this name of *The Illuminati Bible* starting with that book published in 2014, the content of which is also in this book called the *Illuminati Bible of Divine Light* which in turn contains many other parts? Simple. Firstly because I wanted to help, in Good, the Karma of this World, because *Illuminati* and *Enlightenment* are spoken of in negative terms, and secondly because *Illuminati* comes from *Enlightenment*, and true *Enlightenment* cannot bring the Evil, nor can it be the Evil, vile. True *Enlightenment* must be based only on Good and never on bringing the Evil as the supreme *Wickedness*. Therefore, in order to improve the Karma of Mankind, I show that *Enlightenment* does not consist in *Wickedness* but in combating *Wickedness*. The enlightened ones cannot be a hidden group of people who lead humanity out of the shadows committing all sorts of evils and abuses to maintain power. These people are by no means *Enlightened* but *Dark*. If there really are some in such a situation then they use the term *Illuminati* or *Enlightened* falsely. How, just as *Dark* are those who dirtyly attack on the true *Illuminati* or *Enlightened* only out of obscure interests of a religious nature, for fear that the *Enlightened* ones might open the souls of the People and show them the Way to the Truth from which some high prelates that are at the head of certain churches flee, who are afraid that, if the Truth would be found, they will lose both their financial and their decision-making power. I believe that the future will belong to those truly *Enlightened*, the true *Illuminati*. A thing is to use Evil to bring through it, Good and another is to use Evil to bring through it the *Wickedness*. The true *Enlightened* and not *Dark* are those who understand that the Evil can only be used for Good when he can do it, and the Good only for the Evil less Evil, when the Good itself can lead to destruction, disaster or pain. The real Bad People, the *Dark Ones*, are the ones who use both Good and Evil to do as much as possible Evil and not Good. Mankind must understand that the Evil and Good, the God and the Devil are an Entity with two distinct characteristics, an Entity that defines our True God, that is, our Creator Factor and Unique-Incidentally. Therefore, in order to improve the Karma of this World, we will have to pray to the Universal Consciousness formed by the Universal Pure Language. That is, to pray to the Divine Light of all the Worlds, the Supreme God of Intelligence, which to inspire our thoughts so that to use in moderation both Good and Evil, for the ultimate purpose of doing and bringing through us as much as possible Good. Why didn't I let in continuation the name of the *Illuminati Bible* and to this new, much deeper work of the Bible and call it the *Illuminati Bible of Divine Light* ? Because compared to the other book called the *Illuminati Bible*, the *Illuminati Bible of Divine Light* contains in addition to the content of that book many other new chapters that appeared with the new *Wisdom Collections* or with the final form of the *Coaxialism*. In the last edition of the *Wisdom Collection*, I published six other new books of philosophical aphorisms, bringing the *Collection of Wisdom* to a total of 16,777 philosophical aphorisms. The last books refer to topics such as those related, to Justice, to the World after Death, to the philosophy of Artificial Intelligence, to the far Future of Mankind, etc. All this highlights not only a Bible with concepts like the one I called the *Illuminati Bible* but also one**

that fully reflects my thinking and faith as a whole, which is based on my philosophical-religious system called Coaxialism, and therefore, the book could not be called otherwise than the Illuminati Bible of Divine Light. Especially since in this book, entitled the Illuminati Bible of Divine Light, there is also the final form of my philosophical-religious system called Coaxialism, where I refer to Transcendental Coaxiological Mathematics but also to Mathematical Psychology. I am convinced that philosophy, Coaxialism, will become part of the Religion of the Future, a Religion whose churches will be the souls of the People. Yes, I want that the soul of every Man to be a Temple of worship, Enlightened by the Divine Light of Absolute Truth, whose Thought is reflected by the Universal Consciousness of the Universal Pure Language. A Language whose Words are infinite, and of all these Words, one of them is our God, that is, our Creator Factor and Unique-Incidentally, who gave birth to this World. Sorin Cerin July 7, 2021

Its History and Influence

This collection of essays gives an insight into the problems that we encounter when we try to (re)construct events from Israel's past. On the one hand, the Hebrew Bible is a biased source, on the other hand, the data provided by archaeology and extra-biblical texts are constrained and sometimes contradictory. Discussing a set of examples, the author applies fundamental insight from the philosophy of history to clarify Israel's past.

Featuring more than two hundred in-depth articles, a comprehensive resource introduces the principal players in the history of biblical interpretation and explores their historical and intellectual contexts, their primary works, their interpretive principles, and their broader historical significance.

This book explores the role of education in the formation of the Singapore developmental state. The book provides a historical study of citizenship education in Singapore, whereby a comparative study of history, civics and social studies curricula, and the politics and policies that underpin them are examined.

Sexual rules and regulations are among society's oldest yet it is only in recent decades that this once-stigmatized field has become the focus of scholarly attention. This volume, which includes some of the most thought-provoking and hard-to-find essays in the field, covers a diverse range of topics from sexual orientation and gender identity to intersexuality and commercial sex, and from HIV/AIDS and trafficking to polygamy. Through historical, political and critical-theoretical lenses, and through a global focus, the selections ask how we conceptualize the groups and acts subjected to sexual regulation and how regulations in the field implicate and produce understandings of sexuality and identity. By placing this variety of works together, Sexuality and Equality Law invites fresh insights into commonalities and synergies across regulatory arenas that are often isolated from one another. The volumes introduction situates all of these works in the broader field and offers readers an extensive bibliography.

The life and times of a Mauritian expatriate

This third volume of the comprehensive international reference work on the interpretation of the Hebrew Bible/Old Testament deals with its reception within the time span of 1300-1800, from the Renaissance to the Enlightenment. Written by Jewish and Christian experts.

Under mounting pressure, including food riots and an attempted coup, President Jerome Jumbe (JJ) of Zambia revokes the repressive and dreaded one-party state system and re-introduces multiparty elections, which usher in the charismatic and diminutive Joseph Francis Chaluma (JFC). JFC embarks on liberalisation of the country's shuttered economy. Like JJ before him, JFC implements subjective constitutional reforms. However, JFC commits three cardinal sins; arresting the founding father of the nation, attempting a divisive third-term bid and picking an unlikely successor, Luka Mwambwa who, against all odds sells him down the river. Isolated and vulnerable, JFC's eyes dilated and he certainly saw more light, "All the first three Republican Presidents missed key points....." he quipped, mourned and regretted it all.

The Stonewall Riot in New York in 1969 marked the birth of the sexual minority rights movement worldwide. In the subsequent four decades, equality and related rights on grounds of sexual orientation and gender identity have been enshrined in many African, Asian, Australasian, European and North American countries, thanks to better informed discourses of the natures of sexual orientation, gender identity, equality and rights that systematic scientific and socio-legal research has generated. Discrimination, harassment and persecution on grounds of a person's sexual orientation or gender identity, however, continue to pervade the laws and social norms in all developed and developing countries. In tribute to the courage of those who participated in the Stonewall Riot, this book examines the progress and stalemate in various countries on five

continents, as well as in the development of international law, concerning the rights of persons belonging to sexual minorities. This book covers issues including homophobic bullying and gay–straight alliances in schools; the merits and problems that legislation prohibiting hate speech on grounds of sexual orientation presents; criminal justice systems in relation to male rape victims and to criminalisation of HIV exposure and transmission; the development of sexual minority rights, from historical and socio-legal perspectives, in Hong Kong, Japan, Singapore, and Zimbabwe; the lives of transgender persons in Asian countries; the evolution, operation and impact of international and domestic refugee laws on sexual orientation and gender identity as grounds for refugee status and asylum; and the conflicts between law, religion and sexual minority equality rights that inhere in the same-sex marriage debate in Ireland. This book was previously published as a special double issue of *The International Journal of Human Rights*.
