"Section on the Economic Foundations of EU competition law contributed by Julia Dietrich."

A landmark book, **Results-Based Leadership** challenges the conventional wisdom surrounding leadership. Authors Ulrich, Zenger, and Smallwood--world-renowned experts in human resources and training--argue that it is not enough to gauge leaders by personal traits such as character, style, and values. Rather, effective leaders know how to connect these leadership attributes with results. **Results-Based Leadership** shows executives how to deliver results in four specific areas: results for employees, for the organization, for its customers, and for its investors. The authors provide action-oriented guidelines that readers can follow to develop and hone their own results-based leadership skills. By shifting our focus to the connection between the attributes and the results of leadership, this perceptive new guide fundamentally improves our understanding of effective leadership. **Results-Based Leadership** brings a refreshing clarity and directness to the leadership discussion, providing a hands-on program to help executives succeed with their leadership challenges.

Techniques in Teaching Vocabulary

The government is now training around 6000 deputy heads per year towards a new qualification: the National Professional Qualification for Headship (NPQH). This book covers the one compulsory module for this qualification which is called Strategic Direction and Development of the School. This book will be essential for all those embarking on the NPQH and those teaching or supervising it.

Environmental and Natural Resource Economics is the best-selling text for natural resource economics and environmental economics courses, offering a policy-oriented approach and introducing economic theory and empirical work from the field. Students will leave the course with a global perspective of both environmental and natural resource economics and how they interact.

Complemented by a number of case studies showing how underlying economic principles provided the foundation for specific environmental and resource policies, this key text highlights what can be learned from the actual experience. This new, 11th edition includes updated data, a number of new studies and brings a more international focus to the subject. Key features include: Extensive coverage of the major issues including climate change, air and water pollution, sustainable development, and environmental justice. Dedicated chapters on a full range of resources including water, land, forests,

fisheries, and recyclables. Introductions to the theory and method of environmental economics including externalities, benefit-cost analysis, valuation methods, and ecosystem goods and services. Boxed 'Examples' and 'Debates' throughout the text which highlight global examples and major talking points. The text is fully supported with end-of-chapter summaries, discussion questions, and self-test exercises in the book and multiple-choice questions, simulations, references, slides, and an instructor's manual on the Companion Website.

Bank Shot

A crew of thieves hopes to hijack a mobile home full of money in this crime caper from "the funniest man in the world" (The Washington Post). John Dortmunder has been working an encyclopedia-selling scam while waiting for his next big heist. Unfortunately, his latest mark seems to be wise to the con, and he has to cut his sales pitch short and make a quick escape. But opportunity awaits: Main Street bank has temporarily relocated to a mobile home. All Dortmunder has to do is get past seven security guards, put the bank-on-wheels in gear, and drive away. It's a simple plan, until it all goes wrong . . . Perfect for fans of Carl Hiaasen or Lawrence Sanders's Bernie Rhodenbarr series, the Dortmunder novels by New York Times–bestselling and multiple Edgar Award–winning author Donald E. Westlake are a rollicking treat that combine fast-moving suspense with laugh-out-loud wit. Bank Shot is a "hilarious" standout in the series (The New York Times).
