From what I can remember, this whole writing thing began around 2009-2010. It all started as a trickle of Facebook postings. Mostly uplifting messages and quotes from other people – and very occasionally, I would share my own unique perspective. Although social media is littered with trivial, mundane information, I'm very appreciative of these platforms and choose to use them for the dissemination of more uplifting and inspirational subject matter. Interestingly enough, prior to the digital age it was a real challenge for me to write even a few sentences on a consistent basis, let alone an entire paragraph. But little did I know that in 2014 that "trickle" of inspirational insights would literally turn into a waterfall - which still remains consistent till this day. And some of my insights and observations are shared in the pages that follow. Welcome to my world.

Reflections: Observations about Life

The T&T Clark Handbook of Political Theology is a comprehensive reference resource informed by serious theological scholarship in the three Abrahamic traditions. The engaging and original contributions within this collection represent the epitome of contemporary scholarship in theology, religion, philosophy, history, law, and political science, from leading scholars in their area of specialization. Comprised of five sections that illuminate the rise and relevance of political theology, this handbook begins with the birth of contemporary "political theology," and is followed by discussions of historical resources and past examples of interaction between theology and politics from all three Abrahamic traditions. The third section surveys the leading figures and movements that have had an impact on the discipline of political theology in the twentieth and twenty-first centuries; and the contributors then build on previously discussed historical resources and methods to engage with contemporary issues and challenges, emphasizing interreligious dialogue, even while addressing concerns of relevance to a particular faith tradition. The volume concludes with three essays that look at the future of political theology from the perspective of each Abrahamic religion. Complete with select bibliographies for each topic, this companion features the most current overview of political theology that will reach a broader, global audience of students and scholars

Classrooms of the future will be multicultural classrooms. "Ninety-five Languages and Seven Forms of Intelligence" uses a multidimensional approach to examine the relationship between multicultural classrooms and border cities in the postmodern era. D. Emily Hicks argues that the diverse nature of the students in classrooms of the next century demand that we change the way we think about education and the state. Drawing on the work of Paolo Freire, Gilles Deleuze, Felix Guattari, and Antonio Negri, while using literary examples of Chicano/a literature, this text bridges the fields of pedagogical theory and cultural studies.
