*The Essentials of GCSE OCR Science for Specification A.*

*OCR Psychology for A Level*

*Revision Plus GCSE OCR 21st Century Science Revision Guide*

*My Revision Notes: OCR GCSE (9-1) Geography B, Second Edition*

The Wright Science Pocket Booster is designed to assist those students embarking on their GCSE Science examinations. This book has been written to cover the key facts for the first biology exam paper for the higher tier on OCR Gateway A. Inside the book, in addition to the printed notes, you also have QR codes that will take you directly to a video that supports that topic. This book is written for the separate science GCSE Biology course. It has been written by a secondary science teacher teaching in England using the resources my students have always found to be helpful.

Written by experienced examiner Richard Fosbery, this Student Guide for Biology: -Identifies the key content you need to know with a concise summary of topics examined in the A-level specifications -Enables you to measure your understanding with exam tips and knowledge check questions, with answers at the end of the guide -Helps you to improve your exam technique with sample answers to exam-style questions - Develops your independent learning skills with content you can use for further study and research

This title covers the entire syllabus for Cambridge International Examinations' International AS and A Level Biology (9700). It is divided into separate sections for AS and A Level making it ideal for students studying both the AS and the A Level and also those taking the AS examinations at the end of their first year. - Explains difficult concepts using language that is appropriate for students around the world - Provides practice throughout the course with carefully selected past paper questions at the end of each chapter We are working with Cambridge International Examinations to gain endorsement for this title.

The Wright Science Pocket Booster is designed to assist those students embarking on their GCSE Science examinations. This book has been written to cover the key facts for the first biology exam paper for the foundation tier on OCR Gateway A. Inside the book, in addition to the printed notes, you also have QR codes that will take you directly to a video that supports that topic. This book is written for the GCSE Combined Science course. It has been written by a secondary science teacher teaching in England using the resources my students have always found to be helpful.

Gcse Ocr Coordinated Science Biology P

Cambridge International AS and A Level Biology

Aiming for an A in A-level Biology

Written by experienced examiner Richard Fosbery, this Student Guide for Biology: - Identifies the key content you need to know with a concise summary of topics examined in the AS and A-level specifications - Enables you to measure your understanding with exam tips and knowledge check questions, with answers at the end of the guide - Helps you to improve your exam technique with sample answers to exam-style questions - Develops your independent learning skills with content you can use for further study and research

Exam Board: AQA, CCEA, Edexcel, OCR, WJEC/Eduqas Level: A-level Subject: Biology First teaching: September 2015 First exams: Summer 2017 Master the skills you need to set yourself apart and hit the highest grades; this year-round course companion develops the higher-order thinking skills that top-achieving students possess, providing step-by-step guidance, examples and tips for getting an A grade. Written by experienced author and teacher Jo Ormisher, Aiming for an A in A-level Biology: - Helps you develop the 'A grade skills' of analysis, evaluation, creation and application - Takes you step by step through specific skills you need to master in A-level Biology, including scientific reading, quantitative and practical skills, so you can apply these skills and approach each exam question as an A/A\* candidate - Clearly shows how to move up the grades with sample responses annotated to highlight the key features of A/A\* answers - Helps you practise to achieve the levels expected of top-performing students, using in-class or homework activities and further reading tasks that stretch towards university-level study - Perfects exam technique through practical tips and examples of common pitfalls to avoid - Cultivates effective revision habits for success, with tips and strategies for producing and using revision resources - Supports all exam boards, outlining the Assessment Objectives for reaching the higher levels under the AQA, Edexcel, OCR, WJEC/Eduqas and CCEA specifications

Build essential maths, literacy and working scientifically skills to boost marks in GCSE Biology and ensure that students reach their full potential. Suitable for all specifications, this skills book provides additional support and will help to: - Sharpen mathematical skills with plenty of practice questions and coverage of all the maths techniques needed for the exams. - Improve literacy skills with tips on how to write longer answers, plus peer-assessment marking activities. - Develop the working scientifically skills needed to plan, carry out and evaluate practical experiments, in order to secure the maximum number of marks. - Build confidence by putting skills into practice; using our three-step formula students will progress from worked examples to guided questions and exam-style questions, with fully-worked solutions in the book. - Raise performance in the exams with practical advice on how to revise effectively and tips on understanding the questions, command words and assessment objectives.

These Foundation level CGP practice papers are tailored exactly for the AQA specifications. There's also an answer book in the pack containing full answers and tips to improve students' performance. We even provide the odd moment of humour as well as plenty of handy hints. The secret of exam success is plenty of practice like the real thing - which is where this pack will really help.

There is no mention of Biology.

**The Wright Science Pocket Booster is designed to assist those students embarking on their GCSE Science examinations. This book has been written to cover the key facts for the first biology exam paper for the higher tier on OCR Gateway A. Inside the book, in addition to the printed notes, you also have QR codes that will take you directly to a video that supports that topic. This book is written for the separate science GCSE Biology course. It has been written by a secondary science teacher teaching in England using the resources my students have always found to be helpful. All trainee teachers working towards ATLS or QTLS are accountable for the quality of their work, the delivery of their lessons and the success of their students. This book provides comprehensive coverage of the sector's challenging quality agenda and focuses on the reality of teaching and managing under pressure. It begins by asking what is meant by 'quality', and goes on to give guidance on delivering quality lessons and coping with inspections. Professional issues such as accountability and team working are covered in a practical, accessible way. Throughout, case studies provide insights into everyday challenges faced by trainee teachers.**

**Written by a senior examiner, Richard Fosbery, this OCR A2 Psychology Student Unit Guide is the essential study companion for Unit F215: Control, Genomes and Environment. This full-colour book includes all you need to know to prepare for your unit exam: clear guidance on the content of the unit, with topic summaries, knowledge check questions and a quick-reference index examiner's advice throughout, so you will know what to expect in the exam and will be able to demonstrate the skills required exam-style questions, with graded student responses, so you can see clearly what is required to get a better grade**

**Written by a senior examiner, Richard Fosbery, this OCR AS Biology Student Unit Guide is the essential study companion for Unit F212: Molecules, Biodiversity, Food and Health. This full-colour book includes all you need to know to prepare for your unit exam: clear guidance on the content of the unit, with topic summaries, knowledge check questions and a quick-reference index examiner's advice throughout, so you will know what to expect in the exam and will be able to demonstrate the skills required exam-style questions, with graded student responses, so you can see clearly what is required to get a better grade**
