

OCR Geography Past Paper

Absolute clarity is the aim with a new generation of revision guide for the 2020s. This guide has been expertly compiled and edited by successful former teachers of Computer Science, highly experienced examiners and a good dollop of scientific research into what makes revision most effective. Past examinations questions are essential to good preparation, improving understanding and confidence. This guide has combined revision with tips and more practice questions than you could shake a stick at. All the essential ingredients for getting a grade you can be really proud of. Each specification topic has been referenced and distilled into the key points to make in an examination for top marks. Questions on all topics assessing knowledge, application and analysis are all specifically and carefully devised throughout this book. Reinforce students' geographical understanding throughout their course; clear topic summaries with sample questions and answers help students improve their exam technique and achieve their best. Written by teachers with extensive examining experience, this guide: - Helps students identify what they need to know with a concise summary of the topics examined at AS and A-level - Consolidates understanding through assessment tips and knowledge-check questions - Offers opportunities for students to improve their exam technique by consulting sample graded answers to exam-style questions - Develops independent learning and research skills - Provides the content students need to produce their own revision notes

This updated revision guide has tips and examiners' comments on preparing for and sitting the exam, explanations of how case studies should be used and guidance on how to approach the decision-making paper. There are also short questions and practice exam questions with answers. New editions of the bestselling Revise GCSE Study Guides with a fresh new look and updated content in line with curriculum changes. Revise GCSE contains everything students need to achieve the GCSE grade they want. Each title has been written by a GCSE examiner to help boost students' learning and focus their revision. Each title provides complete curriculum coverage with clearly marked exam board labels so students can easily adapt the content to fit the course they are studying. Revise GCSE is an ideal course companion throughout a student's GCSE study and acts as the ultimate Study Guide throughout their revision.

*This is overwhelmingly a valuable book - particularly in the context of science education in the UK. It is a book that deserves to be read more widely by science teachers, particularly those who seek not simply to extend their repertoire of teaching techniques, but who wish to place these techniques upon a sound academic footing." Educational Review 'I have greatly enjoyed reading through Science Education for Citizenship. It is extremely informative and contains much of value. We will definitely be putting it on our MA in Science Education reading list.' Dr Michael Reiss, Institute of Education, University of London This innovative book explores the effective teaching and learning of issues relating to the impact of science in society. Research case studies are used to examine the advantages and problems as science teachers try new learning approaches, including ethical analysis, use of media-reports, peer-group decision-making discussions and community projects. This book: offers practical guidance in devising learning goals and suitable learning and assessment strategies helps teachers to provide students with the skills and understanding needed to address these multi-faceted issues explores the nature and place of socio-scientific issues in the curriculum and the support necessary for effective teaching Science Education for Citizenship supports science teachers, citizenship teachers and other educators as they help students to develop the skills and understanding to deal with complex everyday issues.

The most student-friendly and engaging resource for the 2016 OCR GCSE Geography B specification. Written to match the demands of the specification, this student book motivates your students with accessible, stimulating content and up-to-date case studies, while retaining a rigorous approach.

Rome

OCR A2 Geography Student Unit Guide New Edition: Unit F764 Geographical Skills

OCR GCSE (9-1) Geography B Second Edition

This book provides a practical illustration of the skills, knowledge and understanding required to teach in the secondary classroom. As well as discussing concepts and ideas, the book gives a critical examination of some of the key issues, and will encourage the reader to engage with the ideas and consider their views and beliefs. It is an invaluable resource for those who are learning to teach or for those teachers who wish to reflect on their teaching practice.

Following the requirements of OCR Geography specification A, this revision guide includes sample exam questions to build students' confidence. It can be used for additional practice either in the classroom or at home and offers advice on exam techniques, map skills and data analysis.

This textbook is endorsed by OCR and supports the specification for GCSE Ancient History (first teaching September 2017). It covers the whole of Component 2, both the compulsory longer Period Study and the three optional Depth Studies: Longer Period Study: The Foundations of Rome: From Kingship to Republic, 753-440 BC by Paul Fowler Depth Study: Cleopatra: Rome And Egypt, 69-30 BC by James Melville Depth Study: Britannia: From Conquest to Province, AD 43 - 84 by Christopher Grocock How did reactions to the exploitation of women and the poor make Rome great? How did Rome survive a fourteen-year invasion? Was Cleopatra a great queen? What was the impact of Roman invasion on Britain's diverse and prosperous culture? This book raises these and other key questions. GCSE students and their teachers will explore the foundation of Rome, the rise of its empire, and its interactions with neighbouring cultures, through the eyes of its historians and archaeology. This book invites us to look at Ancient Rome and the modern world in a new light. The ideal preparation for the final examinations, all content is presented by experts and experienced teachers in a clear and accessible narrative. Ancient literary and visual sources are described and analysed, with supporting images. Helpful student features include study questions, further reading, and boxes focusing in on key people, events and terms. Practice questions and exam guidance prepares students for assessment. A Companion Website is available at www.bloomsbury.com/anc-hist-gse.
