Fare Policies, Structures and TechnologiesUpdateTransportation Research Board

Transportation plays a substantial role in the modern world: it provides tremendous benefits to society, but it also imposes significant economic, social, and environmental costs. Sustainable transport planning requires integrating environmental, social, and economic factors in order to develop optimal solutions to our many pressing issues, especially carbon emissions and climate change. This essential multi-authored work reflects a new sustainable transportation planning paradigm. It explores the concepts of sustainable development and sustainable transportation, describes practical techniques for comprehensive evaluation, provides tools for multi-modal transport planning, and presents innovative mobility management solutions to transportation problems. This text reflects a fundamental change in transportation decision making. It focuses on accessibility rather than mobility, emphasizes the need to expand the range of options and impacts considered in analysis, and provides practical tools to allow planners, policy makers and the general public to determine the best solution to the transportation problems facing a community. Featuring extensive international examples and case-studies, textbooks, graphics, recommended reading and end of chapter questions, the authors draw on considerable teaching and researching experience to present an essential, ground-breaking and authoritative text on sustainable transport. Students of various disciplines, planners, policymakers and concerned citizens will find many of its provocative ideas and approaches of considerable value as they engage in the processes of understanding and changing transportation towards greater sustainability.

A Basic Guide for State and Local Officials

Metro

The Humanscale series is an important toolkit for everyone who designs for the human body. It incorporates the extensive amount of human engineering data compiled and organized by Henry Dreyfus Associates throughout the twentieth century, including research of anthropologists, psychologists, scientists, human engineers, and medical experts.Originally published in 1974, Humanscale 1/2/3 consists of pictorial selectors equipped with rotary dials. This portfolio contains three selectors (two sides each) which present over 20,000 bits of information, encompassing anthropometry, guidelines for seating design, and requirements for the handicapped and elderly. Men, women, and children,large and small,are represented. Measurements are given in metric as well as English units.Engineers, architects, industrial designers, planners, interior and furniture designers, and craftsmen will find that the selectors minimize their searching through numerous and conflicting sources and unreliable information. The Humanscale materials are not a panacea, of course. More detailed studies dealing with interior space, safety, human strength and movement, displays, vision, reach, and controls should also be consulted. The selectors should be used in a creative way, and models and mock-ups based on the data should be tested out with the intended users.

Gideon Boas's experience as an international litigator and his renown as an academic practitioner means he was well-placed to write a book on international law that both covers this growing field and enters it at key moments to illustrate important themes. This book accomplishes the difficult task of offering a wide-ranging perspective on the whole field, as well as conveying the ferment that surrounds it. Students of international law will derive great benefit from it.' -- Gerry Simpson, University of Melbourne, Australia Public International Law offers a comprehensive understanding of international law as well as a fresh and highly accessible approach. While explaining the theory and development of international law, this work also examines how it functions in practice. Case studies and recent examples are infused in the discussion on each topic, and critical perspectives on the principles are given prominence, building an understanding of how and why the international legal system operates in the way it does and where it is heading. For each principle, the book starts by explaining the theoretical foundations in detail before illustrating how these principles function in practice. Features include:
• a focus on fundamental principles of international law rather than specialist sub-topics;
• integrated and contextual explanation of political and extra-legal dimension of international legal system;
• principles of international law placed within a contemporary real-life context;
• traditional and contemporary case studies explained in the context of legal principles; and
• uniform structure to facilitate understanding. With insight founded on the author's many years of experience as a practitioner and academic in the field of international law, this work will offer legal practitioners, policy makers and students, both undergraduate and postgraduate, an invaluable insight into the field of international law.

TCRP Report 94: Fare Policies, Structures and Technologies: Update identifies, describes, and evaluates key fare structures, policies, and technologies that are being considered by transit agencies, with a focus on their impact on customers, operations management, and effective and equitable fare integration. The report includes data on fare structures, policy-making procedures, and ongoing efforts to implement fare technology. This report provides guidance on making decisions related to fare policies, structures, and technologies. It includes practical information that can be readily used by transit professionals and policy makers in fare-related planning and decision making. This report updates information presented in TCRP Reports 10 and 32 and presents the latest developments and research results related to fare policy and technology issues.

The Kranji Countryside

Archie 3000

Bus Rapid Transit (BRT) is commonly discussed as an affordable way for cities to build sustainable rapid transport infrastructure. This book is the first to offer an in-depth analysis of BRT, examining the opportunities it presents along with the significant challenges cities face in its implementation. A wide range of contributors from both developed and developing countries bring expertise in fields ranging from engineering, planning and public policy to economics and urban design to provide a big picture assessment of BRT as part of a process for restructuring transit systems. Academically rigorous, based on five years of research conducted by the BRT Centre of Excellence in Chile, the book is written in an accessible style making it a valuable resource for academic researchers and postgraduate students as well as policy makers and practitioners.

ARCHIE 3000 is the complete collection featuring the classic series. This is presented in the new higher-end format of Archie Comics Presents, which offers 200+ pages at a value while taking a design cue from successful all-ages graphic novels. Travel to the 31st Century with Archie and his friends! In the year 3000, Riverdale is home to hoverboards, intergalactic travel, alien life and everyone's favorite space case, Archie! Follow the gang as they encounter detention robots, teleporters, wacky fashion trends and much more. Will the teens of the future get in as much trouble as the ones from our time?

This book is an in-depth analysis of three of the most crucial years in twentieth-century Italian history, the years 1943-46. After more than two decades of a Fascist regime and a disastrous war experience during which Italy changed sides, these years saw the laying of the political and cultural foundations for what has since become known as Italy's First Republic. Drawing on texts from the literature, film, journalism, and political debate of the period, Antifascisms offers a thorough survey of the personalities and positions that informed the decisions taken in this crucial phase of modern Italian history.

Restructuring Public Transport Through Bus Rapid Transit

An Introduction to Sustainable Transportation

How Social Forces Shape Our Lives

How Qualities of Place Shape Social Life

Markets, not politics, are driving health care reform in America today. Inventive entrepreneurs have transformed medicine over the past ten years, and no end to this period of rapid change is in sight. Consumer anxieties over managed care are mounting, and medical costs are again soaring. Meanwhile, the federal government remains mostly on the health policy sidelines, as it has since the collapse of the Clinton administration's campaign for health care reform. This book addresses the changes that the market has wrought– and the challenges this transformation poses for courts and regulators. The law that governs the medical marketplace is an incomplete, overlapping patchwork, conceived mainly without medical care specifically in mind. The ensuing confusion and incoherence are a central theme of this book. Fragmentation of health care lawmaking has foreclosed coordinated, system-wide policy responses, and lack of national consensus on many of the central questions in health care policy has translated into legal contradiction and bitter controversy. Written by leading commentators on American health law and policy, this book examines the widely-perceived failings of managed care and the law's relationship to them. Some of the contributors treat law as a cause of trouble; others emphasize the law's potential and limits as a corrective tool when the market disappoints. The first two chapters present contrasting overviews of how the doctrines and decision-makers that constitute health law work together, for better or worse, to constrain the medical marketplace. The next six chapters address particular market developments and regulatory dilemmas. These include the power of state versus federal government in the health sphere, conflict between insurers and patients and providers over medical need, financial rewards to physicians for frugal practice, the role of antitrust law in the organization of health care provision and financing, the future of public hospitals, and the place of investor-owned versus non-profit institutions. Acknowledging the health sphere's complexities, the authors seek remedies that fit this country's legal, political, and cultural constraints and can contribute to reasoned regulatory governance. Within limits they believe a measure of rationality is possible.

A “heartwarming, life-affirming” memoir of a relationship with an intellectually disabled sibling: “Read this book. It might just change your life” (Boston Herald). Beth is a spirited woman with an intellectual disability who lives intensely and often joyfully, and spends most of her days riding the buses in Pennsylvania. The drivers, a lively group, are her mentors; her fellow passengers, her community—though some display less patience or kindness than others. Her sister, Rachel, a teacher and writer, camouflages her emotional isolation by leading a hyperbusy life. But one day, Beth asks Rachel to accompany her on public transportation for an entire year—and Rachel accepts. This wise, funny, deeply affecting book is the chronicle of that remarkable time, as Rachel learns how to live in the moment, how to pay attention to what really matters, how to change, how to love—and how to slow down and enjoy the ride. Weaving in anecdotes and memories of terrifying maternal abandonment, fierce sisterly loyalty, and astonishing forgiveness, Rachel Simon brings to light a world that is almost invisible to many people, finds unlikely heroes in everyday life, and, without sentimentality, wrestles with her own limitations and portrays Beth as the endearing, feisty, independent person she is. “With tenderness and fury, heartbreak and acceptance . . . Simon comes to the inescapable conclusion that we are all riders on the bus, and on the bus we are all the same.” –Jacquelyn Mitchard, author of The Deep End of the Ocean Right-of-Way and Real Estate (US Federal Highway Administration Regulation) (FHWA) (2018 Edition) The Law Library presents the complete text of the Right-of-Way and Real Estate (US Federal Highway Administration Regulation) (FHWA) (2018 Edition). Updated as of May 29, 2018 The FHWA is revising its regulations governing the acquisition, management, and disposal of real property for transportation programs and projects receiving funds under title 23, United States Code. The revisions are prompted by enactment of the Moving Ahead for Progress in the 21st Century Act (MAP–21). Section 1302 of MAP–21 includes new early acquisition flexibilities that can be used by State departments of transportation (SDOT) and other grantees of title 23 Federal-aid highway program funds. This final rule addresses the use of those new early acquisition flexibilities. The FHWA is also updating the real estate regulations to reflect the agency’s experience with the Federal-aid highway program since the last comprehensive rulemaking for part 710, which occurred more than a decade ago. The update clarifies the Federal–State partnership, streamlines processes to better meet current Federal-aid highway program needs, and eliminates duplicative and outdated regulatory language. The enactment of the Fixing America's Surface Transportation (FAST) Act had a minimal effect on this rule. This book contains: – The complete text of the Right-of-Way and Real Estate (US Federal Highway Administration Regulation) (FHWA) (2018 Edition) – A table of contents with the page number of each section

The Transportation Disadvantaged

The Intercity Bus Industry

An Inspired Guide to the Two-Wheeled Life

Mood mapping simply involves plotting how you feel against your energy levels, to determine your current mood. Dr Liz Miller then gives you the tools you need to lift your low mood, so improving your mental health and wellbeing. Dr Miller developed this technique as a result of her own diagnosis of bipolar disorder (manic depression), and of overcoming it, leading her to seek ways to improve the mental health of others. This innovative book illustrates:
* The Five Keys to Moods: learn to identify the physical or emotional factors that affect your moods
* The Miller Mood Map: learn to visually map your mood to increase self-awareness
* Practical ways to implement change to alleviate low mood
Mood mapping is an essential life skill; by giving an innovative perspective to your life, it enables you to be happier, calmer and to bring positivity to your own life and to those around you.
'A gloriously accessible read from a truly unique voice'
Mary O'Hara, Guardian
'It's great to have such accessible and positive advice about our moods, which, after all, govern everything we do. I love the idea of MoodMapping'
Dr Phil Hammond
'Can help you find calm and take the edge off your anxieties'
Evening Standard
'MoodMapping is a fantastic tool for managing your mental health and taking control of your life'
Jonathan Naess, Founder of Stand to Reason
Travel Agency Management Is The First Book Of Its Kind Which Touches Upon At Length All Typical Travel Agency And Tour Operator Management Issues, Challenges, And Gray Areas Such As, Concept Of Agency And Tour Operation, Changing Dimensions Of Tour Operators, Itinerary Planning, Tour Package Management, Tour Costing And Pricing, Travel Agency Hrd, Cruise Industry, Hotel Industry, Financing Tourism Ventures And Projects, Airline Ticketing, Case Studies, Etc. This New Edition Has Been Thoroughly Revised To Take Account Of The Changes In This Voltaic Tourism Industry. Moreover, This Second Revised Edition Gives More Comprehensive Conceptual And Practical And Practical Understanding Of The Subject To The Students And Other Professionals." It Incorporates Academic And Industrial Topics To Meet Present As Well As Future Requirements." Cases, Examples, Thumbs, Tabs And Illustrations Are Given For Easy Understanding And Referencing." It Includes New Chapter On Cruise Industry, Which Is An Emerging Segment Of Tour Operation Business." Each Chapter Is Thoroughly Updated To Provide Latest Information About The Area." It Focuses On Students As Supervisor, Tour Planner, Tour Manager, Trainer And Tour Executive And Prepare Them For New Assignments, Duties, And Responsibilities." Each Chapter Starts With Learning Objectives And Ends With References Which Encourage Students And Readers For Further Research.

Honoree Corder, creator of the phenomenal groundbreaking STMA (Short Term Massive Action) Coaching Program, shares the principles and tools she's studied, coached, and lived for more than 20 years in this practical and inspiring guide that will help any aspiring person get from where they are to where they want to be. Vision to Reality will teach how to increase efficiency and effectiveness, overcome challenges, increase productivity, live with passion and purpose, and turn wildest visions into true reality. Not merely a collection of good ideas, this book spells out the steps used by successful men and women to transform their daily actions into the life of their dreams. With daily practical application, Honoree's formula for success will transform and life beyond wildest dreams "

Upper St. Clair As It Was

Vision to Reality

Dist. by St. Martin's Press, Exhibition catalog.

A documentary of Upper St. Clair, Pennsylvania

Sometimes you know things you're not supposed to know. Things that you can never un-know. Things that will change the course of your life...and the fate of the ones you love. I found her in our living room, bleeding and close to death, but alive. Barely. Until morning stole her last breath. The media called her killer the "Triangle Terror" ... and then forgot about her. But I never forgot—my murdered sister, and an investigation that led to my own resurrection from the dead. Twenty-two years ago, on a cold February night, Landon Worthington lost his father for the last time. After an armed robbery gone wrong, evidence and witness testimony pointed a shaky finger at Dan Worthington—deadbeat dad and alcoholic husband. But before the dust could settle over the conviction, Landon’s preteen sister, Alexis, is murdered in their home, plunging Landon’s life into further despair. Two decades and a cold case later, Landon is dogged by guilt over their estranged relationship and decides to confront his incarcerated father about what really happened the night of the robbery. But the years of lies are hard to unravel. And the biggest question of all haunts him: How does everything tie into his sister’s murder? And so begins Landon’s journey to piece together the puzzle of secrets, lies, and truths that can free his father, avenge his sister, and perhaps save himself. A short story mystery perfect for fans of Robert Dugoni’s Third Watch and Dean Koontz’s The Neighbor. Read as a standalone or as the companion book to A Secondhand Lie.

A Secondhand Lie

Public International Law

The Budget in Brief

Hello, Bicycle

The Fiscal Year ... Budget

Recent legislation deregulating the airline and trucking industries has enhanced competition and reduced real transportation prices by putting pressure on firms to operate more efficiently. Yet, with the entry of many new small airlines and trucking firms facing the financial pressures of competition, many legislators fear that public safety will be reduced due to compromises in maintenance, equipment replacement, recruitment and training. This volume examines the theoretical and empirical issues involved in the debate on the relationship between safety and economic performance in the airline and trucking industries. Contributors discuss such factors as the role of government as provider of safety oversight personnel and airport and road space quality, and conclude that the government has not acted quickly enough to provide the additional safety resources to meet the changed needs of the two industries, though the evidence does not support the notion that deregulation has compromised safety.

The Myth of Individualism offers a concise introduction to sociology and sociological thinking. Drawing upon personal stories, historical events and sociological research, Callero shows how powerful social forces shape individual lives in subtle but compelling ways.

My Feelings Diary Log Book For Kids - 8.5 x 11 inch journal, with over 120 pages to work with. Help Children And Tweens Express their Feelings- Reduce Anxiety, Anger & Frustration and recognize their emotions. This beautifully designed journal is ideal for both elementary age, up to the early teen years. Your child will be able to think about how they feel each day, track their mood and key aspects of their day. Each day has two pages to work with. On the first page.... The child is asked to identify their key emotion for the day by circling the most relevant emoji. There's then a space for the child to identify 3 great things that happened that day, to encourage positive thinking and gratitude. There's a space for your child to identify someone that's particularly helped them, or been good to them that day! There's a thought bubble, for the child to share a worry they have that day.

Legal and Regulatory Perspectives

This comprehensive book covers a wide range of key topics, from space and science to history and the natural world. Crammed with amazing facts and fantastic photographs, this Junior Encyclopedia provides children with a wealth of knowledge in an accessible format, while captions, annotation and special panels supply extra information.

George Meegan is an adventurer, lecturer, school reformer, and world traveler. He holds eight Guinness World Records, the most official world records for any European. This includes "The Longest Unbroken March of All Time" that which is described in this book. The epic journey he began linked Tierra del Fuego, South America to Prudhoe Bay, Alaska. The 19,019 miles, was completed in 2,425 days / 41 million steps. He was shot at and nearly killed by a Street Gang in Panama. He traversed the historically impassable Darien Gap, married his Japanese sweetheart, became a father, and was welcomed by US President Jimmy Carter! Across the United States he World Walker preceded towns-to-town. George found he had discovered the "American Dream"! From New York, where he was honoured by Meegan Day in Brooklyn, He proceeded through northern USA, into Canada's Yukon, and onto the final step into the Arctic Circle. On the afternoon of September 18, 1983, he crossed frozen tundra to the edge of the Arctic Ocean, dipped his hand into the cold, silvery water, and was done. He fell to his knees and wept. Until this day no human had ever traversed the entire Americas, be it by vehicle or even ship or aircraft; but of course, Meegan was on foot. Today, nearly three decades later, the feat remains unequalled. At age 31, George Meegan had walked 19,019 unbroken miles, and rose from the water's edge to face a new challenge of dealing with his journey,for the entire remainder of his life. The Longest Walk took place between 1977 and 1983. In 2000, he completed about 500km across the ice to reach Barrow, Alaska, the largest Eskimo settlement in the world. It was the final action of the 20th century at the historic millennium. Meegan uniquely got the USA government (by order of the White House) to 'fall down on knees' and apologize before to the First Nations for historical travesties. The story of the Longest Walk found its way to Dodd, Mead of New York. Just before publication, the book editor died, and then, after 199-years, Dodd, Mead slipped beneath the waves into bankruptcy. So, notwithstanding powered coverage, it was too late. The sunk publisher took the book down with them, after being told that his book was bound to become a bestseller. The English Publishers told him "They would publish nothing he wrote!"! In 1989, Paragon House pressed out a few thousand copies, but few saw it. Xlibris, ETC. of Philadelphia resurrected it; all in all, not a success. Still, from time to time, Meegan received letters asking about the abrupt vanish of The Longest Walk. Now, the answer is the 2021 Third Edition. This is the original story, with unpublished photos, an extended appendix, and Yoshiko, his wife makes an encore!

An inspirational and encouraging illustrated guide to the world of bicycles and cycling, with practical information on bike buying, riding, repairs, and maintenance as well as countless suggestions on how to better enjoy your wheels, from packing a bike picnic to crafting art projects using spare parts. Believe or not, anyone can be great at cycling. Let Hello, Bicycle empower you. Riding a bike is one of life's simple joys—it's fun, freeing, and good for the planet and our health. Hello, Bicycle is a practical guide to the bike life with real-world advice, covering everything you need to know to up your bicycling game and ride with confidence and style. Filled with everything you need to know about:
•Buying new, used, and custom bikes
•Making the switch to bike commuting
•Riding, locking, and storing your bike
•Maintaining your bike at home (and what your mechanic should handle)
•Picnicking, traveling, camping, and touring by bicycle
•Creating DIY bike projects
•And much more! Adorable illustrations and friendly tips will make even the most daunting cycling endeavors seem doable! This inspiring, ziftable, informative, and fun handbook offers something for cyclists of all types, whether you're new to biking, looking to get back into it, or a seasoned rider who wants to take it to the next level.
