“ Marvelous . . . [Vonnegut] wheels out all the complaints about America and makes them seem fresh, funny, outrageous, hateful and lovable. ” —The New York Times
In *Breakfast of Champions*, one of Kurt Vonnegut ' s most beloved characters, the aging writer Kilgore Trout, finds to his horror that a Midwest car dealer is taking his fiction as truth. What follows is murderously funny satire, as Vonnegut looks at war, sex, racism, success, politics, and pollution in America and reminds us how to see the truth. “ Free-wheeling, wild and great . . . uniquely Vonnegut. ” —Publishers Weekly

'We are all Zapatistas.' Subcomandante Marcos
This book began in 1994, when Zapatista Subcomandante Marcos replied to a 10-year-old girl from Mexico City who had sent him a drawing. The ensuing collection of related tales about the warrior-beetle, narrated by his pipe-smoking, black-ski-masked human squire is an extraordinary account for the general reader of current global political struggle. Marcos created a humorous fictitious character, Don Durito, a beetle with Quixotic fantasies which regards Marcos as his Sancho Panza. In this book, Marcos creates a new political genre, so-called "postdata": ironical commentaries which he affixes to his formal communiqués or declarations. In one of them he even offers to perform a striptease for government negotiators. 'We are the product of 500 years of struggle...They [Mexican government] don't care that we have nothing, absolutely nothing, not even a roof over our heads; no land, no work, no health care, no food, no education... nor is there peace nor justice for ourselves and our children. But today, we say ENOUGH IS ENOUGH!' First EZLN declaration of war, December 31st 1993
The Zapatistas are not Marxist, Rightists, or Anarchists. They seek not to replace one infrastructure of power with another, thus rejecting the normal goal of an armed struggle. They are armed but do not use violence as a tool to expand their aims. Although a localized rebellion, the Zapatistas are unified in a worldwide struggle that transcends the mainstream media's limited perspective through eloquent dictations distributed globally via the Internet. With a fresh perspective and tactics that have never been seen in relation to an armed insurrection, the EZLN (Zapatista National Liberation Army) has changed the definition of what revolution means. From the marginalized confines of the poorest region in Mexico, a new concept of revolutionary change with a new solution to societies woes is currently being proposed.

At a crucial moment after the cliffhanger ending of book one, *The Immortals of Meluha*, the warrior-hero Shiva--the man who is the prophesied Neelkanth, or

destroyer of evil--is fighting to protect his wife Sati from an invasion by the Nagas, a mysterious militaristic society. Evil forces are growing in strength all around the conflict, and Shiva's own philosopher-guides have betrayed his unquestioning faith by accepting aid from the dark side. Even the idyllic empire of Meluha hides a terrible secret. Accompanied by his troop of warriors, Shiva travels East to the land of Branga in hopes of discovering clues as to the whereabouts of the Naga people. The journey concludes in the Naga capital of Panchavati, where a surprise awaits him that will change the balance of power...

Hindi is one of the world's main language, with over 650 million speakers in India, and millions more on every continent. There are many primers that teach children who can already speak Hindi-how to read and write their language. As the title Hindi Teacher for English Speaking People suggests, Dr. Ratnakar Narale has written this book with a different audience in mind: English speakers of all ages who want to learn Hindi from scratch. This audience includes many kinds of people: the inhabitants of non-Hindi-speaking parts of India; Canadians, Americans, and West Indians whose ancestors came from India, but whose first language is English. This logically arranged book is filled with virtually thousands of examples, and each dialogue is designed with the view of its practical value for the targeted people. Along the way, hundreds of new words and the frequent exercises let the student learn to speak and write Hindi sentences almost without much effort. This practical 'Teach Yourself' manual closes with exercises in correcting faulty sentences, reading dialogues, telling the time, and writing letters. There are also useful lists of proverbs, synonyms and antonyms, and so on. Dr. Narale has been careful to draw most of the examples from words and concepts that are familiar to Westerners. This emphasizes that Hindi is a world language, and not merely an Indian one. Truly practical, compre-

hensive and easy to understand reference manual for classroom study to learn Hindi.

This is a dictionary of Cebuano Visayan, the language of the central part of the Philippines and much of Mindanao. Although the explanations are given in English, the aim of this work is not to provide English equivalents but to explain Cebuano forms in terms of themselves. It is meant as a reference work for Cebuano speakers and as a tool for students of the Cebuano language. There is a total of some 25,000 entries and an addenda of 700 forms which were prepared after the dictionary had been composed. This dictionary is the product of eleven years work by more than a hundred persons. The work was edited by John Wolff but the sources are entirely native, and all illustrations are composed by native speakers. To date, this work probably represents the most authoritative dictionary of the Cebuano Visayan language.

The second edition of Progressive Community Organizing offers a concise intellectual history of community organizing and social movements while also providing practical tools geared toward practitioner skill building. Drawing from social-constructionist, feminist and critical traditions, Progressive Community Organizing affirms the practice of issue framing and offers two innovative frameworks that will change the way students of organizing think about their work. Progressive Community Organizing is ideal for both undergraduate and graduate courses focused on community theory and practice, community organizing, community development, and social change and service learning. The second edition presents new case studies, including those of a welfare rights organization and a youth-led LGBTQ organization. There are also new sections on the capabilities approach, queer theory, the Civil Rights movement, and the practices of self-inquiry and non-violent communication. Discussion of global justice has been expanded significantly and includes an account of a

transnational action-research project in post-earthquake Haiti. Each chapter contains discussion questions, written and web resources, and a list of key terms; a full, free-access companion website is also available for the book.

Hi, I'm Keshav, and my life is screwed. I hate my job and my girlfriend left me. Ah, the beautiful Zara. Zara is from Kashmir. She is a Muslim. And did I tell you my family is a bit, well, traditional? Anyway, leave that. Zara and I broke up four years ago. She moved on in life. I didn't. I drank every night to forget her. I called, messaged, and stalked her on social media. She just ignored me. However, that night, on the eve of her birthday, Zara messaged me. She called me over, like old times, to her hostel room 105. I shouldn't have gone, but I did ... and my life changed forever. This is not a love story. It is an un-love story. From the author of Five Point Someone and 2 States, comes a fast-paced, funny and unputdownable thriller about obsessive love and finding purpose in life against the backdrop of contemporary India.

The hum of a motorbike. The uproar of the crowd in the stadium. The cheering and clapping. All fell silent... Just the thumping of their hearts remained and a question-were they going to lose him? Thanks to the makeover by her sister's friends, the nerdy Niharika entered college more confident, more attractive. She meets the sweet, shy Tanmay, and the spoilt but lovely Pia and they become best friends. And when Akshat and she began dating, life finally seemed to be falling in place. Except that it wasn't... Tanmay's success in football had begun to change him. Akshat's perfection seemed like a front for something dark and sinister. And their college senior Karthik? His aggressiveness was a cover for his mysterious past. Someone Like You is a powerful and touching story of friendship, love and betrayal.

This volume gathers scholars who focus on gender through a variety of disciplines and approaches to Sikh Studies. The intersections of religion and gender are here explored, based on an understanding that both are socially constructed. Far from being static, as so often presented in world religions textbooks, religious traditions are constantly in flux, responding to historical, cultural and social contexts. So too is 'the' Sikh tradition in terms of practices, ideologies, rituals, and notions of identity. We here conclude that 'a' Sikh tradition does not exist; instead, there are numerous forms thereof. In this volume, Sikhism is presented as a collection of 'Sikh traditions'. Gender studies—in line with women's liberation, masculine and feminist studies have long examined and have long deconstructed the patriarchy, but also move to identify other subordinate-dominant relations between individuals. Indeed, there are numerous forms of discrimination and power structures that simultaneously create a multiplicity of oppression. Intersectionality has become the basis of an increasingly systematized production of contemporary discourses on feminism and gender analysis, as is evidenced by the varied contributions in this volume.

Throughout the world, the kitchen is the heart of family and community life. Yet, while everyone has a story to tell about their grandmother's kitchen, the myriad activities that go on in this usual world are often devalued, and little scholarly attention has been paid to this crucial space in which family, gender, and community relations are forged and maintained. To give the kitchen the prominence and respect it merits, Maria Elisa Christie here offers a pioneering ethnography of kitchenspace in three central Mexican communities, Xochimilco, Ocotepc, and Tetecala. Christie coined the term "kitchenspace" to encompass both the inside kitchen area in which everyday meals for the family are made and the larger outside cooking area in which elaborate meals for community fiestas are prepared by many women working together. She explores how both kinds of meal preparation create bonds among family and community members. In particular, she shows how women's work in preparing food for fiestas gives women status in their communities and creates social networks of reciprocal obligation. In a culture rigidly stratified by gender, Christie concludes that kitchenspace gives women a source of power and a place in which to transmit the traditions and beliefs of older generations through quasi-sacramental food rites.

Press 1 for technical support. Press 2 for broken hearts. Press 3 if your life has totally crashed. . . Six friends work nights at a call center in India, providing technical support for a major U.S. appliance corporation. Skilled in patience—and accent management—they help American consumers keep their lives running. Yet behind the headsets, everybody's heart is on the line. Shyam (Sam to his callers) has lost his self-confidence after being dumped by the girl who just so happens to be sitting next to him. Priyanka's domineering mother has arranged for her daughter's upscale marriage to an Indian man in Seattle. Esha longs to be a model but discovers it's a horizontal romp to the runway. Lost, dissatisfied Vroom has high ideals, but compromises them by talking on the phone to idiots each night. Traditional Radhika has just found out that her husband is sleeping with his secretary. And Military Uncle (nobody knows his real name) sits alone working the online chat. They all try to make it through their shifts—and maintain their sanity—under the eagle eye of a boss whose ego rivals his incompetence. But tonight is no ordinary night. Tonight is Thanksgiving in America: Appliances are going haywire, and the phones are ringing off their hooks. Then one call, from one very special caller, changes everything. Chetan Bhagat's delicious romantic comedy takes us inside the world of the international call center, where cultural cross-wires come together with perfect pathos, hilarity, and spice.

The book received the Emme Award for Astronautical Literature at the March 20 2000 luncheon of the Goddard Memorial Symposium, sponsored by the American Astronautical Society. Named in honor of the first NASA Historian, Eugene Emme, the Emme award was created in 1982 to annually recognize an outstanding book that increases public understanding of the past and potential impact of the field of astronautics.

*It's time to stop giving a sh*t! Be calm... Stop stressing... Embrace the universe... Try yoga... Be fulfilled... and that's an order! We're overwhelmed with these sorts of commands, and we often torture ourselves to "try harder," yet somehow we never feel we've done quite enough. It's about time we stop pushing ourselves to do what we think we're supposed to do, and instead simply allow ourselves to be angry, be tired, be silly, be passionate--to stop giving a shit, and just be. An international bestseller (now in English for the first time), *The French Art of Not Giving a Sh*t* by Fabrice Midal explains why the key to true mindfulness is freeing ourselves from social and often self-imposed stresses--and highlights how we can embrace life more fully by giving ourselves a break. He gives readers permission to: Stop obeying -- you are intelligent Stop being calm -- be at peace Stop wanting to be perfect -- accept life's storms Stop rationalizing -- let things be Stop comparing -- be you Stop being ashamed -- be vulnerable Stop tormenting yourself -- become your own best friend Stop wanting to love -- be benevolent One of the world's leading teachers of meditation and mindfulness, Midal offers us a new solution to the perennial problem of our too-much, too-fast modern life. It's OK, he urges us, to say no. It's fine to quit the things that don't fulfill you. It's necessary, in fact, to give ourselves a break and say, simply, *c'est la vie*. In *The French Art of Not Giving a Sh*t*, Midal gives each of us permission to stop doing the things that don't make us happy ... so we have room in our lives for the things that do.*

Education is a challenging subject for anarchists. Many are critical about working within a state-run education system that is embedded in hierarchical, standardized, and authoritarian structures. Numerous individuals and collectives envision the creation of counterpublics or

alternative educational sites as possible forms of resistance, while other anarchists see themselves as “saboteurs” within the public arena—believing that there is a need to contest dominant forms of power and educational practices from multiple fronts. Of course, if anarchists agree that there are no blueprints for education, the question remains, in what dynamic and creative ways can we construct nonhierarchical, anti-authoritarian, mutual, and voluntary educational spaces? Contributors to this edited volume engage readers in important and challenging issues in the area of anarchism and education. From Francisco Ferrer’s modern schools in Spain and the Work People’s College in the United States, to contemporary actions in developing “free skools” in the U.K. and Canada, to direct-action education such as learning to work as a “street medic” in the protests against neoliberalism, the contributors illustrate the importance of developing complex connections between educational theories and collective actions. Anarchists, activists, and critical educators should take these educational experiences seriously as they offer invaluable examples for potential teaching and learning environments outside of authoritarian and capitalist structures. Major themes in the volume include: learning from historical anarchist experiments in education, ways that contemporary anarchists create dynamic and situated learning spaces, and finally, critically reflecting on theoretical frameworks and educational practices. Contributors include: David Gabbard, Jeffery Shantz, Isabelle Fremeaux & John Jordan, Abraham P. DeLeon, Elsa Noterman, Andre Pusey, Matthew Weinstein, Alex Khasnabish, and many others.

Fieldwork extending over a thirty-year period provided materials for this book. Paths and Rivers offers an unusually deep and broad picture of the Sa’dan Toraja as a society in dynamic transition over the course of the past century. The Toraja inhabit the mountainous highlands of South Sulawesi, Indonesia, and are well known for their dramatic architecture, their unusual cliff burials, and their flamboyant ceremonial life, which places extraordinary economic demands on individuals and families. The analysis is informed, firstly, by a comparative perspective which sets Toraja social structure in the context of the Austronesian world. Secondly, the author delves deeply into Toraja social memory to show how people think about the past. She examines the usefulness of history and myth in the present as a source of identity, a template for action, or a resource by means of which to claim precedence. The book gives a clear picture of the structure and ethos of the indigenous Toraja religion, the Aluk To Dolo or “Way of the Ancestors”, with its complex cycle of rituals. The book concludes with an analysis of the ceremonial economy, which draws upon both domestic subsistence production and the global market economy.

Sociolinguists have been pursuing connections between language and identity for several decades. But how are language and identity related in bilingualism and multilingualism? Mobilizing the most current methodology, this collection presents new research on language identity and bilingualism in three regions where Spanish coexists with other languages. The cases are Spanish-English contact in the United States, Spanish-indigenous language contact in Latin America, and Spanish-regional language contact in Spain. This is the first comparativist book to examine language and identity construction among bi- or multilingual speakers while keeping one of the languages constant. The sociolinguistic standing of Spanish varies among the three regions depending whether or not it is a language of prestige. Comparisons therefore

afford a strong constructivist perspective on how linguistic ideologies affect bi/multilingual identity formation.

“Harsha Walia has played a central role in building some of North America’s most innovative, diverse, and effective new movements. That this brilliant organizer and theorist has found time to share her wisdom in this book is a tremendous gift to us all.”—Naomi Klein, author of The Shock Doctrine Undoing Border Imperialism combines academic discourse, lived experiences of displacement, and movement-based practices into an exciting new book. By reformulating immigrant rights movements within a transnational analysis of capitalism, labor exploitation, settler colonialism, state building, and racialized empire, it provides the alternative conceptual frameworks of border imperialism and decolonization. Drawing on the author’s experiences in No One Is Illegal, this work offers relevant insights for all social movement organizers on effective strategies to overcome the barriers and borders within movements in order to cultivate fierce, loving, and sustainable communities of resistance striving toward liberation. The author grounds the book in collective vision, with short contributions

from over twenty organizers and writers from across North America. Harsha Walia is a South Asian activist, writer, and popular educator rooted in emancipatory movements and communities for over a decade. Praise for Undoing Border Imperialism: "Border imperialism is an apt conceptualization for capturing the politics of massive displacement due to capitalist neoglobalization. Within the wealthy countries, Canada's No One Is Illegal is one of the most effective organizations of migrants and allies. Walia is an outstanding organizer who has done a lot of thinking and can write—not a common combination. Besides being brilliantly conceived and presented, this book is the first extended work on immigration that refuses to make First Nations sovereignty invisible."—Roxanne Dunbar Ortiz, author of Indians of the Americas and Blood on the Border "Harsha Walia's Undoing Border Imperialism demonstrates that geography has certainly not ended, and nor has the urge for people to stretch out our arms across borders to create our communities. One of the most rewarding things about this book is its capaciousness—astute insights that emerge out of careful organizing linked to the voices of a generation of strugglers, trying to find their own analysis to build their own movements to make this world our own. This is both a manual and a memoir, a guide to the world and a guide to the organizer's heart."—Vijay Prashad, author of The Darker Nations: A People's History of the Third World "This book belongs in every wannabe revolutionary's war backpack. I addictively jumped all over its contents: a radical mixtape of ancestral wisdoms to present-day grounded organizers theorizing about their own experiences. A must for me is Walia's decision to infuse this volume's fight against border imperialism, white supremacy, and empire with the vulnerability of her own personal narrative. This book is a breath of fresh air and offers an urgently needed movement-based praxis. Undoing Border Imperialism is too hot to be sitting on bookshelves; it will help make the revolution."—Ashanti Alston, Black Panther elder and former political prisoner

The "one-nation-one-language" assumption is as unrealistic as the well-known Chomskyan ideal of a homogeneous speech community. Linguistic pluricentricity is a common and widespread phenomenon; it can be understood as either differing national standards or differing local norms. The nine studies collected in this volume explore the sociocultural, conceptual and structural dimensions of variation and change within pluricentric languages, with specific emphasis on the relationship between national varieties. They include research undertaken in both the Cognitive Linguistic and sociolinguistic tradition, with particular emphasis upon the emerging framework of Cognitive Sociolinguistics. Six languages, all more or less pluricentric, are analyzed: four Germanic languages (English, German, Dutch and Swedish) and two Romance languages (Portuguese and French). The volume describes patterns of phonetic, lexical and morphosyntactic variation, and perception and attitudes in relation to these pluricentric languages. It makes use of advanced empirical methods able to account for the complex interplay between conceptual and social aspects of pluricentric variation and other forms of language-internal variation.

In the Zombie apocalypse the last Vampire on Earth has a hell of time keeping his food alive. Coburn's been dead now for close to a century, but seeing as how he's a vampire and all, it doesn't much bother him. Or at least it didn't, not until he awoke from a forced five-year slumber to discover that most of human civilization was now dead—but not dead like him, oh no. See, Coburn likes blood. The rest of the walking dead, they like brains. He's smart. Them, not so much. But they outnumber him by about a million to one. And the clotted blood of the walking dead cannot sustain him. The vampire not only has to find human survivors (with their sweet, sweet blood), but now he has to transition from predator to protector—after all, a man has to look after his food supply.

This volume introduces English speakers to genetic criticism, arguably the most important critical movement in France today. In recent years, French literary scholars have been exploring the interpretive possibilities of textual history, turning manuscript study into a recognized form of literary criticism. They have clearly demonstrated that manuscripts can be used for purposes other than establishing an accurate text of a work. Although its raw material is a writer's manuscripts, genetic criticism owes more to structuralist and poststructuralist notions of textuality than to philology and textual criticism. As Genetic Criticism demonstrates, the chief concern is not the "final" text but the reconstruction and analysis of the writing process. Geneticists find endless richness in what they call the "avant-

texte": a critical gathering of a writer's notes, sketches, drafts, manuscripts, typescripts, proofs, and correspondence. Together, the essays in this volume reveal how genetic criticism cooperates with such forms of literary study as narratology, linguistics, psychoanalysis, sociocriticism, deconstruction, and gender theory. Genetic Criticism contains translations of eleven essays, general theoretical analyses as well as studies of individual authors such as Flaubert, Proust, Joyce, Zola, Stendhal, Chateaubriand, and Montaigne. Some of the essays are foundational statements, while others deal with such recent topics as noncanonical texts and the potential impact of hypertext on genetic study. A general introduction to the book traces genetic criticism's intellectual history, and separate introductions give precise contexts for each essay.
