The author, Claude Jarman Jr., takes us from his discovery in a small school in Nashville, Tennessee, through his life among the movie elite. After receiving a special Academy Award for his performance in *The Yearling* in 1946, he remained at MGM until 1950 when the arrival of television savaged the studio and the star system.

Now the subject of the hit documentary *Scotty and the Secret History of Hollywood*, praised by *Vanity Fair* as “full of revelations” and *Entertainment Weekly* as “deliciously salacious,” *Full Service* is the remarkable true story of Scotty Bowers, the “gentleman hustler,” during the heyday of classic Hollywood. Newly discharged from the Marines after World War II, Bowers arrived in Hollywood in 1946. Young, charismatic, and strikingly handsome, he quickly caught the eye of many of the town’s stars and starlets. He began sleeping with some himself, and connecting others with his coterie of young, attractive, and sexually free-spirited friends. His own lovers included Edith Piaf, Spencer Tracy, Vivien Leigh, Cary Grant, and the abdicated King of England Edward VIII, and he arranged tricks or otherwise crossed paths with Tennessee Williams, Charles Laughton, Vincent Price, Katharine Hepburn, Rita Hayworth, Errol Flynn, Gloria Swanson, Noël Coward, Mae West, James Dean, Rock Hudson and J. Edgar Hoover, to name but a few. *Full Service* is not only a fascinating chronicle of Hollywood’s sexual underground, but also exposes the hypocrisy of the major studios, who used actors to propagate a myth of a conformist, sexually innocent America knowing full well that their stars’ personal lives differed dramatically from

this family-friendly mold. As revelation-filled as Hollywood Babylon, Full Service provides a lost chapter in the history of the sexual revolution and is a testament to a man who provided sex, support, and affection to countless people.

This collection of 23 new essays focuses on the lives of female screenwriters of Golden Age Hollywood, whose work helped create those unforgettable stories and characters beloved by audiences--but whose names have been left out of most film histories. The contributors trace the careers of such writers as Anita Loos, Adela Rogers St. Johns, Lillian Hellman, Gene Gauntier, Eve Unsell and Ida May Park, and explore themes of their writing in classics like *Gentlemen Prefer Blondes*, *Ben Hur*, and *It's a Wonderful Life*.

The beloved New York Times columnist "inspires women to embrace aging and look at it with a new sense of hope" in this lively, fascinating, eye-opening look at women and aging in America (*Parade Magazine*). "You're not getting older, you're getting better," or so promised the famous 1970's ad -- for women's hair dye. Americans have always had a complicated relationship with aging: embrace it, deny it, defer it -- and women have been on the front lines of the battle, willingly or not. In her lively social history of American women and aging, acclaimed New York Times columnist Gail Collins illustrates the ways in which age is an arbitrary concept that has swung back and forth over the centuries. From Plymouth Rock (when a woman was considered marriageable if "civil and under fifty years of age"), to a few generations later, when they were quietly retired to elderdom once they had passed the optimum age for reproduction, to recent decades when freedom from striving in the workplace and caretaking at home is often celebrated, to the first female nominee for president, American attitudes towards age have been a moving target. Gail Collins gives women reason to expect the best of their golden years.

Engineering Hollywood tells the story of the formation of the Hollywood studio system not as the product of a genius producer, but as an industry that brought together creative practices and myriad cutting-edge technologies in ways that had never been seen before. Using extensive archival research, this book examines the role of technicians, engineers, and trade organizations in creating a stable technological infrastructure on which the studio system rested for decades. Here, the studio system is seen as a technology-dependent business with connections to the larger American industrial world. By focusing on the role played by technology, we see a new map of the studio system beyond the backlots of Los Angeles and the front offices in New York. In this study, Hollywood includes the labs of industrial

manufacturers, the sales routes of independent firms, the garages of tinkerers, and the clubhouses of technicians' societies. Rather than focusing on the technical improvements in any particular motion picture tool, this book centers on the larger systems and infrastructures for dealing with technology in this creative industry. Engineering Hollywood argues that the American industry was stabilized and able to dominate the motion picture field for decades through collaboration over technologies of everyday use. Hollywood's relationship to its essential technology was fundamentally one of interdependence and cooperation-with manufacturers, trade organizations, and the competing studios. As such, Hollywood could be defined as an industry by participation in a closed system of cooperation that allowed a select group of producers and manufacturers to dominate the motion picture business for decades.

While some film scores crash through theater speakers to claim their place in memory, others are more unassuming. Either way, a film's score is integral to successful world building. This book lifts the curtain on the elusive yet thrilling art form, examining the birth of the Hollywood film score, its turbulent evolution throughout the decades and the multidimensional challenges to musicians that lie ahead. The history of the film score is illuminated by extraordinary talents (like John Williams, Hans Zimmer and countless others).

Beginning with vaudeville and silent cinema, chapters explore the wonders of early pioneers like Max Steiner and Bernard Herrmann, and continue through the careers of other soundtrack titans. Leading Hollywood film composers offer in this book fascinating perspectives on the art of film music composition, its ongoing relevance and its astonishing ability to enhance a filmmaker's vision.

Thomas Hahn's work laid the foundations for medieval romance studies to embrace the study of alterity and hybridity within Middle English literature. His contributions to scholarship brought Robin Hood studies into the critical mainstream, normalized the study of historically marginalized literature and peoples, and encouraged scholars to view medieval readers as actively encountering others and exploring themselves. This volume employs his methodologies - careful attention to texts and their contexts, cross-cultural readings, and theoretically-informed analysis - to highlight the literary culture of late medieval England afresh. Addressing long-established canonical works such as Chaucer, Christine de Pizan, and Malory alongside understudied traditions and manuscripts, this book will be of interest to literary scholars of the later Middle Ages who, like Hahn, work across boundaries of genre, tradition, and chronology.

through the stories of some of the dozens of actresses pursued by Howard Hughes, to reveal how the millionaire mogul's obsessions with sex, power and publicity trapped, abused, or benefitted women who dreamt of screen stardom. In recent months, the media has reported on scores of entertainment figures who used their power and money in Hollywood to sexually harass and coerce some of the most talented women in cinema and television. But as Karina Longworth reminds us, long before the Harvey Weinsteins there was Howard Hughes—the Texas millionaire, pilot, and filmmaker whose reputation as a cinematic provocateur was matched only by that as a prolific womanizer. His supposed conquests between his first divorce in the late 1920s and his marriage to actress Jean Peters in 1957 included many of Hollywood's most famous actresses, among them Billie Dove, Katharine Hepburn, Ava Gardner, and Lana Turner. From promoting bombshells like Jean Harlow and Jane Russell to his contentious battles with the censors, Hughes—perhaps more than any other filmmaker of his era—commoditized male desire as he objectified and sexualized women. Yet there were also numerous women pulled into Hughes's grasp who never made it to the screen, sometimes virtually imprisoned by an increasingly paranoid and disturbed Hughes, who retained multitudes of private investigators, security personnel, and informers to make certain these actresses would not escape his clutches. Vivid, perceptive, timely,

and ridiculously entertaining, *The Seducer* is a landmark work that examines women, sex, and male power in Hollywood during its golden age—a legacy that endures nearly a century later.

The treatment—and mistreatment—of women throughout history continues to be a necessary topic of discussion, in order for progress to be made and equality to be achieved. While current articles and books expose troubling truths of the gender divide, modern cinema continues to provide problematic depictions of such behavior—with a few heartening exceptions. *The Encyclopedia of Sexism in American Films* closely examines the many, pervasive forms of sexism in contemporary productions—from clueless comedies to superhero blockbusters. In more than 130 entries, this volume explores a number of cinematic grievances including: the objectification of women's bodies the limited character types available for female performers the lack of sexual diversity on the screen the limited range of desirable traits for female performers the use of gratuitous sex the narrow focus on heteronormative depictions of courtship and romance The films discussed here include *As Good as It Gets* (1999), *Beauty and The Beast* (2017), *The Devil Wears Prada* (2006), *Do the Right Thing* (1989), *Easy A* (2010), *The Forty-Year-Old Virgin* (2005), *Hidden Figures* (2016), *Lost in Translation* (2003), *Mulholland Drive* (2001), *Showgirls* (1995), *The Silence of the Lambs* (1991), *Star Wars* (1977), *Thelma & Louise*

Adopting and developing a 'cultural politics' approach, this comprehensive study explores how Hollywood movies generate and reflect political myths about social and personal life that profoundly influence how we understand power relations. Instead of looking at genre, it employs three broad categories of film. 'Security' films present ideas concerning public order and disorder, citizen-state relations and the politics of fear. 'Relationalities' films highlight personal and intimate politics, bringing norms about identities, gender and sexuality into focus. In 'socially critical' films, particular issues and ideas are endowed with more overtly political

significance. The book considers these categories as global political technologies implicated in hegemonic and 'soft power' relations whose reach is both deep and broad.

During World War I, as young men journeyed overseas to battle, American women maintained the home front by knitting, fundraising, and conserving supplies. These became daily chores for young girls, but many longed to be part of a larger, more glorious war effort--and some were. A new genre of young adult books entered the market, written specifically with the young girls of the war period in mind and demonstrating the wartime activities of women and girls all over the world. Through fiction, girls could catch spies, cross battlefields, man machine guns, and blow up bridges. These adventurous heroines were contemporary feminist role models, creating avenues of leadership for women and inspiring individualism and self-discovery. The work presented here analyzes the powerful messages in such literature, how it created awareness and grappled with the engagement of real girls in the United States and Allied war effort, and how it reflects their contemporaries' awareness of girls' importance.

'An entertaining and lucid biography' We Are Cult ?CAROLE LOMBARD was the very opposite of the typical 1930s starlet. A no-nonsense woman, she worked hard, took no prisoners and had a great passion for life. As a result, she became Hollywood's highest-paid star. From the outside, Carole's life was one of great glamour and fun, yet privately she endured much heartache. As a child, she was moved across the country, away from her beloved father. She then began a film career, only to have it cut short after a devastating car accident. After she picked herself back up, she was rocked by the accidental shooting of her lover; a failed marriage

to actor William Powell; and the sorrow of infertility during her marriage to Hollywood's King, Clark Gable.

Reframing Vivien Leigh takes a new look at the laboring life one of the twentieth century's most iconic stars. Author Lisa Stead reframes the dominant narratives that have surrounded Leigh's life and career, offering a new perspective on Vivien Leigh as a distinctly archival subject. The book examines the collections and curatorial practices that have built up around her, exploring material documents collated by her own hand and by those who worked with her. The book also examines the collection practices of those who have developed deep, long-standing fandoms of her life and work. To do so, the book draws upon new oral history work with curators, archivists and fan collectives and examines a variety of archived correspondence, items of dress and costume, script annotations, photography, press clippings, props and memorabilia. It argues that such material has the potential to produce a new interpretation of Leigh as a creative laborer. As such, the book casts new light on the labor of archiving itself and the significance of archival processes and practices to contemporary feminist film historiography.

This book examines Black Panther not only as a film grounded in Afro-futurism, but also as an invitation for viewers to think about relevant real-world social questions about identity, liberation, and racial justice, ultimately posing the question of how Black Panther invites a reimagining of Blackness.

Television and film have always been connected, but recent years have seen them overlapping, collaborating, and moving towards each other in ever more ways. Set amidst this moment of unprecedented synergy, this book examines how television and film culture interact in the 21st century. Both media appear side by side in many platforms or venues, stories and storytellers cross between them, they regularly have common owners, and they discuss each other constantly. Jonathan Gray and Derek Johnson examine what happens at these points of interaction, studying the imaginary borderlands between each medium, the boundary maintenance that quickly envelops much discussion of interaction, and ultimately what we allow or require television and film to be.

Offering separate chapters on television exhibition at movie theaters, cinematic representations of television, television-to-film and film-to-television adaptations, and television producers crossing over to film, the book explores how each zone of interaction invokes fervid debate of the roles that producers, audiences, and critics want and

Aging is one of the most compelling issues today, with record numbers of seniors over sixty-five worldwide. Gray Matters: Finding Meaning in the Stories of Later Life examines a diverse array of cultural works including films, literature, and even art that represent this time of life, often made by people who are seniors themselves. These works, focusing on important topics such as housing, memory loss, and intimacy, are analyzed in dialogue with recent research to explore how “stories” illuminate the dynamics of growing old by blending fact with imagination. *Gray Matters* also incorporates the life experiences of seniors gathered from over two hundred in-depth surveys with a range of questions on growing old, not often included in other age studies works. Combining cultural texts, gerontology research, and observations from older adults will give all readers a fuller picture of the struggles and pleasures of aging and avoids over-simplified representations of the process as all negative or positive.

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

This book looks closely at Ernst Lubitsch's The Student Prince in Old Heidelberg, a film undervalued by film scholars and critics. It advocates for the elevation of the film within the canon of Lubitsch's films, as well as an appreciation of the classical style it represents, characterized by aesthetics, meticulous structure, and understatement.

Pre-World War II Hollywood musicals weren't only about Astaire and Rogers, Mickey and Judy, Busby Berkeley, Bing Crosby, or Shirley Temple. The early musical developed through tangents that reflected larger trends in film and American culture at large. Here is a survey of select titles with a variety of influences: outsized songwriter personalities, hubbub over "hillbilly" and cowboy stereotypes, the emergence of swing, and the brief parade of opera stars to celluloid. Featured movies range from the smash hit Alexander's Ragtime Band (1938), to obscurities such as Are You There? (1930) and Swing, Sister, Swing (1938), to the high-grossing but now forgotten Mountain Music (1937), and It's Great to Be Alive (1933), a zesty pre-Code musical/science-fiction/comedy mishmash. Also included are some of the not-so-memorable pictures made by some of the decade's greatest musical stars.

Much has changed since Camille Paglia first burst onto the scene with her groundbreaking *Sexual Personae*, but the laser-sharp insights of this major American thinker continue to be ahead of the curve—not only capturing the tone of the moment but also often anticipating it. Opening with a blazing manifesto of an introduction in which Paglia outlines the bedrock beliefs that inform her writing—freedom of speech, the necessity of fearless inquiry, and a deep respect for all art, both erudite and popular—*Provocations* gathers together a rich, varied body of work that illuminates everything from the Odyssey to the Oscars, from punk rock to presidents past and present. Whatever your political inclination or literary and artistic touchstones, Paglia's takes are compulsively readable, thought provoking, galvanizing, and an essential part of our cultural dialogue, invariably giving voice to what

most needs to be said.

New Perspectives on the War Film addresses the gap in the representation of many forgotten faces of war in mainstream movies and global mass media. The authors concentrate on the untold narratives of those who fought in combat and were affected by its brutal consequences. Chapters discuss the historically under-represented stories of individuals including women, African-American and Indigenous Soldiers. Issues of homosexuality and gender relations in the military, colonial subjects and child soldiers, as well as the changing nature of war via terrorism and bioterrorism are closely analyzed. The contributors demonstrate how these viewpoints have been consistently ignored in mainstream, blockbuster war sagas and strive to re-integrate these lost perspectives into current and future narratives. In *Manufacturing Celebrity* Vanessa Díaz traces the complex power dynamics of the reporting and paparazzi work that fuel contemporary Hollywood and American celebrity culture. Drawing on ethnographic fieldwork, her experience reporting for *People* magazine, and dozens of interviews with photographers, journalists, publicists, magazine editors, and celebrities, Díaz examines the racialized and gendered labor involved in manufacturing and selling relatable celebrity personas. Celebrity reporters, most of whom are white women, are expected to leverage their sexuality to generate coverage, which makes them vulnerable to sexual exploitation and assault. Meanwhile, the predominantly male Latino paparazzi can face life-threatening situations and endure vilification that echoes anti-immigrant rhetoric. In pointing out the precarity of those who hustle to make a living by generating the bulk of celebrity media, Díaz highlights the profound inequities of the systems that provide consumers with 24/7 coverage of their favorite stars.

Despite playing a decisive role in shaping the past two hundred years of American and European politics, liberalism is no longer the dominant force it once was. In this expanded and updated edition of

what has become a classic history of liberalism, Edmund Fawcett traces its ideals, successes, and failures through the lives and ideas of exemplary thinkers and politicians from the early nineteenth century to today. Significant revisions--including a new conclusion--reflect recent changes affecting the world political order that many see as presenting new and very potent threats to the survival of liberal democracy as we know it. A richly detailed account of a vulnerable but critically important political creed, this book reminds us that to defend liberalism it is vital to understand its character and history.

Films like Zama and The Headless Woman have made Lucrecia Martel a fixture on festival marquees and critic's best lists. Though often allied with mainstream figures and genre frameworks, Martel works within art cinema, and since her 2001 debut The Swamp she has become one of international film's most acclaimed auteurs. Gerd Gemünden offers a career-spanning analysis of a filmmaker dedicated

to revealing the ephemeral, fortuitous, and endless variety of human experience. Martel's focus on sound, touch, taste, and smell challenge film's usual emphasis on what a viewer sees. By merging of these and other experimental techniques with heightened realism, she invites audiences into film narratives at once unresolved, truncated, and elliptical. Gemünden aligns Martel's filmmaking methods with the work of other international directors who criticize—and pointedly circumvent—the high-velocity speeds of today's cinematic storytelling. He also explores how Martel's radical political critique forces viewers to rethink entitlement, race, class, and exploitation of indigenous peoples within Argentinian society and beyond. Explores romantic comedy's revitalizing response to shifting sexual and social mores of the past decade. The best-selling Mass Communication: Living in a Media World presents a highly accessible introduction to mass communication that equips students with the critical thinking skills to become savvy media consumers. To help

The advent of new screening practices and viewing habits in the twenty-first century has spurred a public debate over what it means to be a "cinophile." In Anxious Cinephilia, Sarah Keller places these competing visions in historical and theoretical perspective, tracing how the love of movies intertwines with anxieties over the content and impermanence of cinematic images. Keller reframes the history of cinephilia from the earliest days of film through the French New Wave and into the streaming era, arguing that love and fear have shaped the cinematic experience from its earliest days. This anxious love for

the cinema marks both institutional practices and personal experiences, from the curation of the moviegoing experience to the creation of community and identity through film festivals to posting on social media. Through a detailed analysis of films and film history, Keller examines how changes in cinema practice and spectatorship create anxiety even as they inspire nostalgia. Anxious Cinephilia offers a new theoretical approach to the relationship between spectator and cinema and reimagines the concept of cinephilia to embrace its diverse forms and its uncertain future.

Among early Hollywood's most renowned filmmakers, Lois Weber was considered one of the era's "three great minds" alongside D. W. Griffith and Cecil B. DeMille. Despite her accomplishments, Weber has been marginalized in relation to her contemporaries, who have long been recognized as fathers of American cinema. Drawing on a range of materials untapped by previous historians, Shelley Stamp offers the first comprehensive study of Weber's remarkable career as

director, screenwriter, and actress. Lois Weber in Early Hollywood provides compelling evidence of the extraordinary role that women played in shaping American movie culture. Weber made films on capital punishment, contraception, poverty, and addiction, establishing cinema's power to engage topical issues for popular audiences. Her work grappled with the profound changes in women's lives that unsettled Americans at the beginning of the twentieth century, and her later films include sharp critiques of heterosexual marriage and consumer capitalism. Mentor to many women in the industry, Weber demanded a place at the table in early professional guilds, decrying the limited roles available for women on-screen and in the 1920s protesting the growing climate of hostility toward female directors. Stamp demonstrates how female filmmakers who had played a part in early Hollywood's bid for respectability were in the end written out of that industry's history. Lois Weber in Early Hollywood is an essential addition to histories of silent cinema, early filmmaking in Los

Angeles, and women's contributions to American culture.

Through a set of vibrant case studies, this collection investigates rebooting as a practice that seeks to remake an entire film series or franchise, with ambitions that are at once respectful and revisionary. International in scope, this volume brings together leading and emerging voices working at the intersection of contemporary art, visual culture, activism, and climate change, and addresses key questions, such as: why and how do art and visual culture, and their ethics and values, matter with regard to a world increasingly shaped by climate breakdown? Foregrounding a decolonial and climate-justice-based approach, this book joins efforts within the environmental humanities in seeking to widen considerations of climate change as it

intersects with social, political, and cultural realms. It simultaneously expands the nascent branches of ecocritical art history and visual culture, and builds toward the advancement of a robust and critical interdisciplinarity appropriate to the complex entanglements of climate change. This book will be of special interest to scholars and practitioners of contemporary art and visual culture, environmental studies, cultural geography, and political ecology. American culture has long represented mixed-race identity in paradoxical terms. On the one hand, it has been associated with weakness, abnormality, impurity, transgression, shame, and various pathologies; however, it can also connote genetic superiority, exceptional beauty, and special potentiality. This ambivalence has found its way into superhero media, which runs the gamut from Ant-Man and the Wasp's tragic mulatta villain Ghost to the cinematic depiction of Aquaman as a heroic "half-breed." The essays in this collection contend with the multitude of ways that racial mixedness has been presented in superhero comics, films, television, and literature. They explore how superhero media positions mixed-race characters within a genre that has historically privileged racial purity and propagated images of white supremacy. The book considers such iconic heroes as Superman, Spider-Man, and The Hulk, alongside such lesser-studied characters as Valkyrie, Dr. Fate, and Steven Universe. Examining both

Winner of the AAP 2021 PROSE Award for Excellence in Social Sciences. Propaganda is inescapable. It's everywhere. Students need to analyze, resist, critique—and create. Media literacy educators have always insisted that we are both creators and receivers of media messages. The truth of this is even more apparent in today's digital environment, with children and adults alike participating in a ubiquitous, nonstop stream of social media. Clearly, students need the tools to interpret news and information critically—not just for school but for life in a “post-truth” world, where the lines blur between entertainment, information, and persuasion. Renee Hobbs demonstrates how a global perspective on contemporary propaganda enables educators to stimulate both the intellectual curiosity and the cultural sensitivities of students. Replete with classroom and online learning activities and samples of student work, *Mind Over Media* provides a state-of-the-art look at the theory and practice of propaganda in contemporary society, and shows how to build learners' critical thinking and communication skills on topics including computational propaganda, content marketing, fake news, and disinformation.

Films create both an impression of and – at times for younger audiences – a primary definition of events, people, and issues of an era. The 1960s on Film examines the 1960s as the decade was presented in ten films that focused on that decade. Discussion will focus on both what the films have to say about the era and how close they come to accurately depicting it. For example, films such as Mississippi Burning and Selma tell the story of racial conflict and hope for reconciliation in the 1960s. Other films such as The Right Stuff and Hidden Figures show the deep fascination America had at that time with the burgeoning space program and NASA, while Easy Rider and The Doors analyze the role of rock music and drugs among young people of the decade. The Deer Hunter studies the controversies surround the war in Vietnam. Mad Men, JFK and Thirteen Days also receive significant treatment in this exciting volume.

A Hollywood screenwriting and movie-making icon, Ernest Lehman penned some of the most memorable scenes to ever grace the silver screen. Hailed by Vanity Fair as "perhaps the greatest screenwriter in history," Lehman's work on films such as *North by Northwest*, *The King and I*, *Sabrina*, *West Side Story*, and *The Sound of Music* helped define a generation of movie making. But while his talent took center stage, the public knew little of Lehman himself, a native of Manhattan's Upper West Side and the Five Towns of Long Island devoted to his wife of 50 years. His relentless perfectionism, hypochondria and all-night writing sessions fueled by tequila and grilled cheese sandwiches were some of the quirks that made Lehman a legend in the Hollywood community. In *Ernest Lehman: The Sweet Smell of Success*, author Jon Krampner lays bare the life of this lauded yet elusive character. Moving seamlessly from post-production meetings to sound stages and onto the locations of Lehman's greatest films, Krampner's extensive biography brings to life the genius and singularity of the revered screenwriter's personality and the contributions he made to the world of cinema. Our approach examines these directors within history, culture, and industrial practice in animation. In addition to making a case for including these women and their work in the annals of film and animation history, this volume also makes an argument for why their work should be considered part of the tradition

women's cinema. We offer textual analysis that focuses on the changing attitudes towards both the woman question and feminism by examining the films in light of the emergence and evolution of a Soviet female subjectivity that still informs women's cinema in Russia today.

Sex and Sexuality in Modern Screen Remakes examines how sexiness, sexuality and revisited sexual politics are used to modernize film and TV remakes. This exploration provides insight into the ever-evolving—and ever-contested—role of sex in society, and scrutinizes the politics and economics underpinning modern media reproduction. More nudity, kinky sex, and queer content are increasingly deployed in remakes to attract, and to titillate, a new generation of viewers. Sex in this book refers to increased erotic content, this discussion also incorporates an investigation of other uses of sex and gender to help a remake appear woke and abreast of the zeitgeist including feminist reimaginings and 'girl power' make-overs, updated gender roles, female cast swaps, queer retellings, and repositioned gazes. Though increased sex is often considered a sign of modernity, gratuitous displays of female nudity can sometimes be interpreted as sexist and anachronistic, in turn highlighting that progressiveness around sexuality in contemporary media is not a linear story. Also examined therefore, are remakes that reduce the sexual content to appear cutting-edge and cognizant of the demands of today's audiences.

This book claims that Hollywood cinema had a significant relationship with the millennial crisis of masculinity, as the films of the fin de millennium movement reflected the cultural discourse of concern over the crisis of masculinity through a dichotomous structure of either feminine or masculine representations of male identity.

A brutally honest look at the systemic exclusion of women in film—an industry with massive cultural influence—and how, in response, women are making space in cinema for their voices to be heard. Generation after generation, women have faced the devastating reality that Hollywood is a system built to keep them out. The films created by that system influence everything from our worldviews to our brain chemistry. When women's voices are excluded from the medium, the impact on society is immense.

Actor, screenwriter, and award-winning independent filmmaker Naomi McDougall Jones takes us inside the cutthroat, scandal-laden film industry, where only 5% of top studio films are directed by women and less than 20% of leading characters in mainstream films are female. Jones calls on all of us to act radically to build a different kind of future for cinema—not only for the women being actively hurt inside the industry but for those outside it, whose lives, purchasing decisions, and sense of selves are shaped by the stories told. Informed by the journey of her own career; by interviews with others throughout the film industry; and by cold, hard data, Jones deconstructs the casual, commonplace sexism

rampant in Hollywood that has kept women out of key roles for decades. Next, she shows us the growing women-driven revolution in filmmaking—sparked by streaming services, crumbling distribution models, direct-to-audience access via innovative online platforms, and outside advocacy groups—which has enabled women to build careers outside the traditional studio system. Finally, she makes a business case for financing and producing films by female filmmakers.
