Oliver Twist; or, the Parish Boy's Progress is Charles Dickens's second novel, and was first published as a serial 1837-39.[1] The story centres on orphan Oliver Twist, born in a workhouse and sold into apprenticeship with an undertaker. Fagin. Oliver Twist is notable for its unromantic portrayal by Dickens of criminals and their sordid lives, as well as for exposing the cruel treatment of the many orphans in London in the mid-19th century.[2] The alternative title, *The Parish Boy's Progress*, alludes to Bunyan's *The Pilgrim's Progress*, as well as the 18th-century caricature series by William Hogarth, *A Rake's Progress* and *A Harlot's Progress*. [3] In this early example of the social novel, Dickens satirises the hypocrisies of his time, including child labour, the recruitment of children as criminals, and the presence of street children. The novel may have been inspired by the story of Robert Blincoe, an orphan whose account of working as a child labourer in a cotton mill was widely read in the 1830s. It is

An investigation of the syntax and semantics of wh-questions through the lens of intervention effects, offering a new proposal on overt and covert wh-movement. In this book, Hadas Kotek investigates the syntax and semantics of wh-questions, offering a new solution to a central question in the study of interrogatives: given that overt wh-movement is cross-linguistically common, is syntactic movement a prerequisite for the

interpretation of wh-phrases? Some linguists argue that all wh-phrases undergo movement to interrogative C, even if covertly; others propose mechanisms of in-situ interpretation that do not require any movement. Kotek moves beyond these positions to argue that wh-in-situ does move covertly, but not necessarily to C. Instead, she contends, wh-in-situ undergoes a short movement step akin to covert scrambling. This makes the LF behavior of English parallel to the overt behavior of German. Kotek presents a series of self-paced reading experiments, alongside

judgment data from German, to substantiate the idea of covert scrambling. She introduces new diagnostics for the underlying structure of questions, using as a principal tool the distribution of intervention effects. This system allows her to offer the first unified account for a range of phenomena of interrogative syntax-semantics as pied-piping, superiority effects, the cross-linguistically varied syntax of questions, and intervention effects. Kotek develops a theory of interrogative syntax-semantics; studies the phenomena of intervention

effects in wh-questions, proposing that the nature of intervention is crucially tied to the availability of wh-movement in a question; and shows that covert wh-movement should be modeled as a short scrambling operation rather than an unbounded, successive-cyclic, and potentially long-distance movement operation.

ethnographic study of English language classrooms in a South African township, this book highlights linguistic expertise in a setting where it is not usually expected or sought. Rather than being 'peripheral and unskilled', South African township teachers and learners emerge as skilled (re)linguagers central to the workings of South African education, and to our understanding of how language classrooms work. This book foregrounds the heterogeneity, flexibility and creativity of day-to-day language practices that African urban spaces are known for, and conceptualises language teaching not as a progression from one fixed language to another, but as a circular sorting process between linguistic heterogeneity (linguaging) and homogeneity (a standard language).

From a parish workhouse to the heart of the industrial revolution, from debtors' jail to Cambridge University and a prestigious London church, Robert Blincoe's political, personal and turbulent story illuminates the Dickensian age like never before. In 1792 as revolution, riot and sedition spread across Europe, Robert Blincoe was born in the calm of rural St Pancras parish. At four he was abandoned to a workhouse, never to see his family again. At seven, he was sent 200 miles north to work in one of the cotton mills of the dawning industrial age. He suffered years of unrelenting

His life was immortalised in one of the most remarkable biographies ever written, A Memoir of Robert Blincoe. Renowned popular historian John Waller tells the true story of a parish boy's
