The book describes the world's oldest human settlements during the rather long and diversified sets of civilizations and cultural epochs in the regions, which are now situated within the territorial limits of Pakistan, and highlights three historical periods, namely (i) the age of neolithic settlements, (ii) the Indus Valley civilization, and (iii) the period of precolonial empires and kingdoms and against this backdrop deals with the human settlements of the colonial and postcolonial period in Pakistan. The main motivation for writing this book has been threefold. First, to increase the awareness among the current and prospective students of town planning in particular and the planners at large, in general, about the evolutionary process of town planning in Pakistan. Second, to identify some of the shortcomings, gaps, and overlapping in the process of planning and development of towns in Pakistan. And third, to emphasize the need to undertake further research about the various facets of the subject area. This book is a time series rather than a cross-sectional analysis of the Evolution of Town Planning in Pakistan. It attempts to highlight the various processes and geopolitical landmarks during the nine-thousand-years-long evolutionary processes of physical planning and development in the Indian subcontinent in general and those in Pakistan in particular. It traverses a long temporal and evolutionary

progression of town planning processes in Pakistan. This book is a very modest effort to fill a huge gap and may even provide an incentive for the future planning historians and academicians to undertake more in-depth cross-sectional analysis of various processes comprehensively.

Accountability is essential for good governance, and in many Asian countries the ombudsman is the key accountability institution. Originating in the West, the concept of the ombudsman arrived relatively late in Asia. Yet more and more ombudsman offices are being established in Asia, and they play a critical role in the fight against incompetence and injustice on the part of government officials. This report presents in-depth research on Asian ombudsmen, with a focus on best practices and emerging issues, especially in the context of the new public management, and includes recommendations to policy makers. It will be a valuable resource for scholars, ombudsmen, and anyone else interested in this vital institution.

Affectionately known as 'Bacha' Khan or 'Badshah' Khan amongst his people, Khan Abdul Ghaffar's life was dedicated to the social reform of the Pukhtuns, who traditionally adhere to a strict code of life called 'Pukhtunwali', which is governed by rather rigid tribal norms. Bacha Khan is an acknowledged leader in the hearts of the Pukhtuns across the world, due to his life long struggle to modernize Pukhtun

society and his teachings of non-violence, adopted by his Khudai Khidmatgar (Servants of God) party, during the struggle for independence against the British. He stands tall in the pantheon of leaders of the movement for independence. A close associate of Mahatma Gandhi, his success in mobilizing the Pukhtuns of the North-West Frontier Province and the Tribal Areas through a non-violent struggle, had significant bearing on this movement, in which the Khudai Khidmatgar allied with the Indian National Congress. Few are aware that, during the struggle for independence, the Khudai Khidmatgar lost the most number of workers, compared to any other party that was part of this movement, under a tyrannical suppression by British colonialists. An increasing consciousness amongst the Pukhtuns against oppression and war, in Pakistan and Afghanistan, has led to a resurgence of the teachings of Bacha Khan. His powerful political weapon of non-violence, his emphasis on including women in all walks of life, his belief in religious tolerance and pluralism, are, today, values that bear increasing relevance to the people of a much-troubled region. The Pushto edition of Bacha Khan's autobiography was first published in 1983 in Afghanistan, when he was 93 years old. Nearly four decades later the book has been translated and published for the first time in English. (An earlier account of his life, also titled My Life and Struggle was published in 1963 but this was based on

interviews conducted with him and not his written autobiography.) This translation was painstakingly done by Sahibzada at the request of Shandana Humayun Khan, to whom he has dedicated the book. Shandana's maternal great-grandfather was Qazi Ataullah, a close lieutenant of Bacha Khan's and a key figure in the Khudai Khidmatgar movement. Before the translation process started, Sahibzada and Shandana visited several members of Bacha Khan's family including his grandsons Nasir Ali Khan, Asfandayar Wali Khan and Saleem Jan. The translator shared a close friendship with Bacha Khan's son, Abdul Ghani Khan, the greatest Pukhtun poet of the century. The book is a result of the participation of several members of his family and those who have spent their lives studying Bacha Khan's philosophy. For the first time Bacha Khan's thoughts on Pukhtun society, his vision for a more equitable world achieved along the lines of non-violence have been researched, translated and made available for the world in his own words.

In every society a weak has always suffered at the hand of strong & resourceful. Man is

social animal and hence cannot escape impact of the events confronting the society. There is no society where people have not grievances against the governmental machinery. With the lapse of time the society crafts grew complex & demanding the society require redressing their grievances. The only way to redress the grievances of the poor man of very society is to invoke the door of Ombudsman.

A state-of-the-art, one-stop resource, Public Administration in South Asia: India, Bangladesh, and Pakistan examines public administration issues and advances in the Indian subcontinent. The book fulfills a critical need. These nations have the largest public administration programs in South Asia, yet existing knowledge on them is fragmented at best. Bringing together leading scholars from these countries, this book provides both an insider perspective and a scholarly look at the challenges and accomplishments in the region. Focusing on the machinery of government, the book explores questions such as: What is the history of public administration development? How are major decisions made in the agencies? Why are anti-corruption efforts so much a challenge? What is the significance of intergovernmental relations? What is the success of administrative reform? What are examples of successful social development programs? How successful is e-government, and what are its challenges? Why is civil service reform difficult to achieve? How is freedom of information being used as a means to combat corruption and invoke grassroots activism? What can be learned from the successes and failures? While public administration practice

and education have become considerably professionalized in the last decade, a sufficiently in-depth and well-rounded reference on public administration in these countries is sorely lacking. Most available books tackle only aspects of public administration such as administrative reforms, civil service, economic developments, or public policy, and are country specific. None provide the in-depth analysis of the sphere of public action in South Asia found in this book. It supplies an understanding of how public administration can be either the source of, or solution to, so many of the problems and achievements in the Indian subcontinent.

The Economic Survey is the budget document of the Government of India. It presents the state of affairs of the Indian economy. Economic

Survey 2017-18 consists of two volumes. Volume I provides an analytical overview of the performance of the Indian economy during the financial year 2017-18. It highlights the long-term challenges facing the economy. Volume II is a descriptive review of the major sectors of the economy. It emphasizes economic reforms of contemporary relevance like GST, the investment-saving slowdown, fiscal federalism and accountability, gender inequality, climate change and agriculture, science and technology, among others.

The report reviews how citizens can influence education, health and social protection services through access to information and opportunities to hold providers accountable. It takes stock of international evidence and experience from projects supported by the World Bank to identify knowledge gaps, key questions and areas for further work.

This book provides a detailed rationale for the creation of ombudsman offices; suggestions for structuring and documenting an ombudsman program and how to address issues that arise in litigation; a comprehensive presentation of various legal issues associated with organizational ombudsman programs; and numerous examples of how ombudsmen function in their organizations to illustrate how they are effective in addressing issues that people would not otherwise raise.

'Judges & Generals in Pakistan - Volume I' by Inam R Sehri is a collection of mostly his published articles; explaining diverse scenarios. This book evaluates certain conflicting news, editorials, opinions and criticisms on historical issues. No misleading intelligence story, no distracting investigative report, no concocted interview and no feed from the 'concerned ones' yet everything seems innovative; no fiction in this book but simple narration of facts. 'It is the collection of tragedies and misgivings which are deliberately buried in suspicions and darkness since decades. I've simply dig them out, collated and placed together for those who want to keep a track of their past;' Sehri holds.

Practitioners and academics dealing with the Middle East can turn to the Yearbook of Islamic and Middle Eastern Law for an instant source of information on the developments over an entire year in the region. The Yearbook covers Islamic and non-Islamic legal subjects, including the laws themselves, of some twenty Arab and other Islamic countries. The publication's practical features include: - articles on current topics, - country surveys reflecting important new legislation and amendments to existing legislation per country, - the text of a selection of documents and important court cases, - a Notes and News section, and - book reviews.

This collection of articles describes the juvenile correctional system from an historical perspective, beginning with an account of an early superintendant of the first state reform school and concluding with a survey undertaken for the President's Commission on Law Enforcement and the Administration of Justice in 1967. This book uses comparative law and comparative international law approaches to explore the role of human rights ombuds, classic-based ombuds and other types of ombuds institutions in human rights protection and promotion, their methods of application of international and domestic human rights law and their roles in strengthening good governance. It highlights the increasing importance of national human rights ombuds institutions globally and their roles as national human rights institutions (NHRIs).

The central role that good, effective and capable governance plays in the economic and social development of a country is now widely recognised. Using the Commonwealth countries of eastern and southern Africa, this book analyses some of the key constitutional issues in the process of developing, strengthening and consolidating the capacity of states to ensure the good governance of their peoples. Utilising comparative material, the book seeks to draw lessons, both positive and negative, about the problems of constitutionalism in the region and, in doing so, critically addresses the legal issues involved in seeking to make constitutions 'work' in practice.

Commonwealth Good Governance is the first comprehensive guide to public sector reform in the Commonwealth. Also contains 54 governance profiles of member countries.
