customers to discover that they even exist. Every year, tens of thousands of businesses start and fail because the entrepreneurs don't understand this one essential skill: the art and science of getting traffic (or people) to find you. And that is a tragedy. Traffic Secrets was written to help you get your message out to the world about your products and services. I strongly believe that entrepreneurs are the only people on earth who can actually change the world. It won't happen in government, and I don't think it will happen in schools. It'll happen because of entrepreneurs like you, who are crazy enough to build products and services that will actually change the world. It'll happen because we are crazy enough to risk everything to try and make that dream become a reality. To all the entrepreneurs who fail in their first year of business, what a tragedy it is when the one thing they risked everything for never fully gets to see the light of day. Waiting for people to come to you is not a strategy. Understanding exactly WHO your dream customer is, discovering where they're congregating, and throwing out the hooks that will grab their attention to pull them into your funnels (where you can tell them a story and make them an offer) is the strategy. That's the big secret. Traffic is just people. This book will help you find YOUR people, so you can focus on changing their world with the products and services that you sell.

drive more traffic, and tricks to use your Instagram profile effectively for your company."Traffic Secrets" is a book designed to uncover the secrets underlying the world of e-commerce marketing. As a rule, in the world of e-commerce, the number of businesses having the same underlying idea for their website as you do not matter because truth be told, there will be many. What matters is how you differentiate the optimization and content creation on your website to provide more value to the customer. In this book, the author has discussed a plethora of aspects that are otherwise considered insignificant in traffic driving and has proven how successful entrepreneurs worldwide utilize those elements on their websites. Growing your following fast, driving massive traffic, and generating predictable profits with online marketing are the bundle's key points. We suggest that now is the time to BUY and read this book and draw from it unending inspiration and motivation to lead your business to its true potential. Summary of Traffic Secrets Digital marketing is still new. With all the new trends, services, and concepts, it seems to be staying that way for a while. Every social network is rolling out ad networks and introducing new features, retargeting is growing in popularity, and experts continue to pop up and endorse various tactics. Next year, or heck, next month, a slew of new experts, tactics, and networks will rise. So where does that leave us? Well, with a huge burden. Ever really try to keep up with digital marketing? It's nearly impossible. If your job is to

know the ins-and-outs of digital marketing and you love doing so, then you might be okay. But for everyone else out there, particularly the business owners with enough going on between work and personal life, there's no chance. There's just too much clutter to always know what's valuable or a fad. Don't get me wrong – us digital marketers have it tough also. We might live in this world, but that means it's our job to make sense of it all. And if you don't have a system to link all the tactics into, it becomes a huge headache. That's why I tested out different concepts and mindsets when I approached digital marketing, leaving me with one central theory. We only need two things: a digital sales funnel and a strategy. We still need to invest endless hours discovering and testing the latest tools and tactics. But when we know that the tools and tactics have to fit into a funnel and strategy, we begin to understand how the whole machine works. It's how digital marketing changes from being a business expense into a business investment. When I discovered that I just need to focus on the funnel and strategy, I didn't want to stop learning. Maybe in my position, I don't have a choice to stop learning each day, assuming I want to stay as an expert. But the fact that it didn't bother me anymore was a huge advantage. Sounds simple, doesn't it? Just two things. And you already know what a sales funnel and strategy is, right? But don't worry; we're going to get much more in-depth than that as we go through this book. As you'll see, this book isn't

about digital marketing tools and tactics. I frankly couldn't care less whether you know how to code your own website, design beautiful graphics, or run detailed analytics. I just want you to know two things: digital sales funnels and strategy. When it comes time to get something technical done, you'll find that you can hire help to take care of those high skill, technical, and creative jobs. And if you're cash-strapped, don't worry either. I can't think of anything you'll ever need that hasn't been commoditized by the internet, making potentially extremely expensive initiatives affordable for the solopreneur. Inside this eBook, you will discover the topics about how to exploit the social media giant for unlimited free traffic without spending more than 5 minutes & exactly how major businesses are taking advantage of the popularity of read more. Best Book for secret tips and tricks to get unlimited traffic to your website. Introduction To Pinterest Traffic Secrets Social media is the darling of the Internet. For the past few years, online user activity has been shifting more and more toward social media of all types, but recently it has truly become an almost entirely visual format. Gone are the days where text-based communications dominated the social scene. These days, it's all about visual stimulation and contact through engaging pictures and videos. No website has made this more evident than Pinterest. Pinterest allows users to share photos and other media by "pinning" them to virtual pin boards. Remember the former popularity of corkboards?

Pinterest has brought that concept online in a big way! According to Alexa.com, Pinterest is currently 15th in the United States and 34th in the world for traffic volume. The site gets a tremendous amount of traffic, and those users are known to visit the site regularly and to purchase products and visit websites they see there. In fact, MediaBistro.com compiled a report about social networking tools and discovered that almost as many people use Pinterest as use Twitter! In this guide, you're going to learn how to make the most of this social media powerhouse, and how to use it effectively as a marketing tool. So let's get started.

For the past few years, online user activity has been shifting more and more toward social media of all types, but recently it has truly become an almost entirely visual format. Gone are the days where text-based communications dominated the social scene. These days, it's all about visual stimulation and contact through engaging pictures and videos. No website has made this more evident than Pinterest. Pinterest allows users to share photos and other media by "pinning" them to virtual pin boards. Remember the former popularity of corkboards? Pinterest has brought that concept online in a big way! According to Alexa.com, Pinterest is currently 15th in the United States and 34th in the world for traffic volume. The site gets a tremendous amount of

traffic, and those users are known to visit the site regularly and to purchase products and visit websites they see there. In fact, MediaBistro.com compiled a report about social networking tools and discovered that almost as many people use Pinterest as use Twitter! In this guide, you're going to learn how to make the most of this social media powerhouse, and how to use it effectively as a marketing tool. So let's get started.

*Have you created a great website for your business, but it is not pulling in any customers? Creating a website is not easy, but even more challenging is driving traffic to a seemingly functional website. You may think you have designed the most aesthetically pleasing site, but risks are that someone among your competitors has created a layout inspired by the same colors and an appreciation for the same patterns. However, that does not mean you forgo the idea of an e-commerce venture and hope to drive sales at a time when competition is less brutal. Let's face it; there will never be such a time; instead, what that means is that if you have to drive traffic, now is the time to begin optimizing your website. The Author, Hunny George, is a professional in the fields of SEO and business writing and has thereby penned several notable books on the subjects. "Traffic Secrets" is a book designed to uncover the secrets underlying the world of e-commerce marketing. As a rule, in the world of e-commerce, the number of businesses having*

*the same underlying idea for their website as you do not matter because, truth be told, there will be many. What matters is how you differentiate the optimization and content creation on your website to provide more value to the customer. Customers now control and direct a much larger proportion of your sales than ever before, and businesses now need to be much warier of their needs than they realize. How will your website draw in customers and convince them to stay? Start with allowing your customers to find you through optimizing your inbound marketing strategy, achieving a strategic edge over your competitors. You are well on the way to success if you can attract, engage, and delight your customers from the moment they land on your page to when they decide to exit it. In this book, the author has discussed a plethora of aspects that are otherwise considered insignificant in traffic driving and has proven with examples of how successful entrepreneurs worldwide are utilizing those elements in their websites. If you believe the world of e-commerce is your forte, if you want to start a business based on an idea that you think is truly great, but your fears of failure hold you back; we suggest that now is the time to read this book and draw from it unending inspiration and motivation that will lead your business to its true potential.*
