Opito Rigging Assessment Test Questions

This course should be taken by every prospective seafarer. It covers training

Read PDF Opito Rigging Assessment Test Questions

in personal survival techniques and is based on the provisions of table A-VI/1-1 of the STCW Code.

Approximately 3 million gallons of oil or refined petroleum products are spilled into U.S. waters every year. Oil dispersants (chemical agents such as

Read PDF Opito Rigging Assessment Test Questions

surfactants, solvents, and other compounds) are used to reduce the effect of oil spills by changing the chemical and physical properties of the oil. By enhancing the amount of oil that physically mixes into the water, dispersants can reduce the

Read PDF Opito Rigging Assessment Test Questions

potential that a surface slick will contaminate shoreline habitats. Although called for in the Oil Pollution Act of 1990 as a tool for minimizing the impact of oil spills, the use of chemical dispersants has long been controversial. This book reviews

Read PDF Opito Rigging Assessment Test Questions

the adequacy of existing information and ongoing research regarding the effectiveness of dispersants as an oil spill response technique, as well as the effect of dispersed oil on marine and coastal ecosystems. Oil Spill Dispersants also includes
