

Overflow Carpino 1

More than just a dimpled smile and chiseled jaw, Theo Amato's quick-thinking and bold confidence made him successful. Heavy responsibilities left time for close friends and family, but nothing more. It wasn't until he looked into a pair of big green eyes that his focus changed. Full lips, a gorgeous face, and an endearing personality had him hooked from the start. There was nothing Dahlia Kincaid enjoyed more than a good book, a funny movie, and a full night's sleep. Long workdays meant she rarely had time for any of them, but the sacrifice was worth it to live in the city. It wasn't until she met a man with model good looks and sexy veined hands that her life changed in ways she'd never even known to dream of. Wickedly sweet, Theo gently and strategically pulled Dahlia from her rut, handing her the world in the process. But shadows play tricks on the eyes, and life wasn't always what it seemed. With them... It was better.

Gabrielle Carpino has forced herself to move through the motions of life over the past few years since tragedy touched her family. Closing herself off from living her life and refusing to look in the future has become her norm...that is until one day at a clients home where she's thrown into a tailspin of craziness.Gabby's awakening begins as she is cuffed and patted down by Special Agent Jude Ortiz, with his dark chocolate eyes and a commanding bossy way that Gabby just can't resist. When Jude's protective instincts kick in, he finds himself wrestling feelings he hasn't allowed in years and he moves in to watch over Gabrielle. Between battling criminals, flooded basements, fantasy football drafts and Gabby's crazy family, Jude finds himself unable to resist her beauty and quirkiness. What begins to look like a chance at happiness for Gabby and sexy Jude Ortiz, it could all be ripped away when past demons are forced into the light. Jude fights off the demons around them creating a safe place for Gabby to allow herself to overflow and live again.

This volume consists of 15 chapters and focuses on hazardous chemicals, how they are associated with plastics, and their environmental risks. It includes background information on plastics and additives chemistry, and their observed or potential effects on living organisms as well as the oceanographic aspects of marine debris dispersion. The respective chapters provide insights into the sorption/desorption of chemicals in and out of plastics, the mechanisms and kinetics, but also the scale of the concentrations of chemicals found in marine debris, particularly in microplastics. The occurrence of the various chemicals is analyzed, as well as the distribution profiles of the chemicals in microplastics throughout the world's oceans. The implications of the fact that plastics carry within them several chemicals are discussed in detail. In closing, new research topics that warrant further attention are identified. The book will appeal to all scientists who are already working or interested in starting to work on the topic of marine debris, as well as policymakers, NGOs and the broader informed public.

In a sizzling MMA romance from Sidney Halston (“An author to watch!”–Cherry Adair), a former title contender turns the tables on his knockout trainer with a lesson in seduction. Once one of the most sought-after names on the mixed martial arts circuit, Antonio “Scarface” Marino watched his career go down for the count as he chased skirts and made tabloid headlines. Now he’s finally making a comeback, and it’s all thanks to Francesca Silva, a Brazilian bombshell as tough as any of her fighters. But who’s the real Francesca: the trash-talking trainer who rides him hard, or the vulnerable woman who blushes at his touch? Francesca went to the mat to sign Tony because she believes he still has the potential to bring big success to her gym—if she can keep his head in the cage and out of her personal life. After a short-lived marriage soured her on love, a one-night stand is all she can handle. Now Tony’s kisses are stirring up complicated feelings—especially when he agrees to face her ex in the ring. Francesca’s used to freezing guys out. But Tony’s tempting her to give in to the heat. Don’t miss Sidney Halston’s Panic series: PULL ME CLOSE | MAKE ME STAY | KISS ME BACK | WHAT ABOUT US And look for all of her hard-hitting MMA romances: AGAINST THE CAGE | FULL CONTACT | BELOW THE BELT | LAID OUT | FIGHTING DIRTY | STACKED UP Praise for Sidney Halston’s Against the Cage “Against the Cage is funny, steamy, scorching—and holy hot MMA fighter, I wanted more! Five stars all the way!”–New York Times and USA Today bestselling author Toni Aleo “A steamy and fun romance that will leave readers begging for more!”–New York Times bestselling author Cherry Adair “Halston’s new series opener creates an organic and sensual dynamic between Jack and Chrissy that makes an easy buy-in for readers. And if the story isn’t endearing enough, Jack’s feisty Chihuahua/pit bull mix will have readers instantly hooked and eagerly awaiting the second series installment.”–Library Journal Includes a special message from the editor, as well as an excerpt from another Loveswept title.

In the last 20 years, researchers in the field of celestial mechanics have achieved spectacular results in their effort to understand the structure and evolution of our solar system. Modern Celestial Mechanics uses a solid theoretical basis to describe recent results on solar system dynamics, and it emphasizes the dynamics of planets and of small bodies. To grasp celestial mechanics, one must comprehend the fundamental concepts of Hamiltonian systems theory, so this volume begins with an explanation of those concepts. Celestial mechanics itself is then considered, including the secular motion of planets and small bodies and mean motion resonances. Graduate students and researchers of astronomy and astrophysics will find Modern Celestial Mechanics an essential addition to their bookshelves. This book analyses a cultural phenomenon that goes to the very roots of Western civilization: the centrality of death in our sense of human existence. It does so through a close reading of seminal works by the most creative authors of modern French thought, such as Maurice Blanchot, Jacques Lacan, and Jacques Derrida. These works encode an entire ethics of postmodernism. Betty Rojzman offers the reader a prism through which to see anew the key issues of the twentieth century: tragedy, finitude, nothingness—but also contestation, liberty, and sovereignty. Little by little we understand that this fascination with death may be just the other side of humankind’s great protest, its thirst for the infinite and its desire to be. Finally, Rojzman tries to offer another view on these fundamental questions by shifting to a parallel cultural reference: Kabbalah.

Maya Augustine needed to disappear-her life depended on it. When her path led her to the middle-of-nowhere Virginia, she found the perfect place to hide. A woman on the run, Maya had no business befriending anyone, let alone allowing herself to become involved with a man ... especially after her last experience. Even so, she couldn't help but become obsessed with the bruised, battered, and beautiful killer who walked into her life. Grady Cain reached rock bottom. His past finally caught up with him, causing him to lose his edge at work and in life. Spiraling down a desperate path of remorse and guilt, Grady wasn't expecting his refuge to come in the form of a woman. Day in-day out, she was the only thing he'd allowed himself to think about. To focus on. To consume him. One was running. The other had nothing to run to. Until these troubled souls crossed paths... And two paths became one. Warning: This author is a mom who runs a PG-13 home. This book is not PG-13. She would literally keel over and die if anyone under the age of 18 read this book. If you're not of age, save this author from her untimely death, and go read about teenage wizards. They're awesome.

This book provides a multi-disciplinary coverage of the broad fields of species, community and landscape conservation. The panel of contributors consider a range of topics in vegetation and biodiversity assessment, planning and management of conservation zones and protected areas, together with historical and social/legal issues of the environment and nature conservation. The book celebrates the life's work of Professor Franco Pedrotti.

Bringing together an international team of historians, classicists, and scholars of religion, this volume provides the first comprehensive overview of the extant Greek and Latin letter collections of late antiquity (ca. 300-600 c.e.). Each chapter addresses a major collection of Greek or Latin literary letters, introducing the social and textual histories of each collection and examining its assembly, publication, and transmission. Contributions also reveal how collections operated as discrete literary genres, with their own conventions and self-presentational agendas. This book will fundamentally change how people both read these texts and use letters to reconstruct the social history of the fourth, fifth, and sixth centuries.

Dreams.I never had one. Never even knew what a dream was until a certain unassuming Carpino waltzed into my life. That day my world tilted.It became unhinged. I might not have been a dreamer, but she was. She wrote the words missing from my life. Her notes ignited my heart. Her flame lit up my darkness.Her dreams became mine and I'd move heaven and earth to give them life. Especially when my past surfaced and threatened to kill every dream we had.Until Avery, I had nothing. But I'm Link Forester. I'd fight for her, for us, because right now, I have everything to lose. Warning: The author will have a dramatic fit-Scarlett O'Hara style-if anyone under the age of eighteen touches this book.

Piper Skye is rock 'n' roll. She's party all night, sleep all day. She's get wild and be free. Or she would be if she had the time. And the energy. And not being so awkward would probably help, too. As the owner of a thriving dessert business, Piper spends her days at school and her nights elbow deep in batter and frosting. She's confident her hard work and sacrifice will pay off as long as she stays focused and sticks to the plan. Jake Hyde is a workaholic with a jaded outlook on life. Surrounding himself with employees he considers his brothers, he long ago made the decision that his custom garage would be his focus. Fate, as it often does, has other ideas. Plus, a killer sense of humor. Thrown together by coincidence, the gruff mechanic and the sweet as sin baker have instant sparks. Suddenly, all of their carefully made plans have taken a giant freakin' left turn. And they do it on the back of a Harley.

Phytoremediation with wetland plants is an eco-friendly, aesthetically pleasing, cost-effective, solar-driven, passive technique that is useful for cleaning up environmental pollutants with low to moderate levels of contamination.

Not all heroes are good guys. With a body count on his soul and blood on his hands, Killian Nox lived in the gray. Ruthlessly single-minded, if he wanted something, it was his. And when it came to the gorgeous lass with a fiery attitude, he didn't just want her. He needed her. With southern-bred manners and a snark all her own, Augusta 'Gus' Allan was a connoisseur of cheap wine, delicious Mexican food, and good TV. Unfortunately, her taste in men wasn't as well-developed. When her knight in shining armor turned out to be a douche in tinfoil, Gus never expected her real hero to be a sexy-accented, tattooed beast of a man. But he was exactly who she needed. Gus had no clue how comforting a monster in the dark could be... Until Nox.

You don't fall for your brother's high school sweetheart, your boss's daughter, or your ex-wife's best friend. Especially when they're all the same woman. Under Brick Callan's mile-wide chest beats a loyal heart with a few cracks in it. He's the steadfast, overprotective type. Especially when it comes to the one woman he can never have. It's a long, complicated history punctuated by fights, friendship, family, and an attraction that strains his iron willpower. When Remi Ford returns to Mackinac Island in the dead of winter with a secret, Brick makes it his mission to find out what put the shadows in those green eyes. Even if it means breaking down the walls he's built between them. Even if it means falling for the one girl he'll never get over. The free-spirited artist just needs to lay low for a few weeks so she can figure a way out of this nightmare. She's definitely not staying. Not when the man who broke her teenage heart into splinters keeps showing up at her parents' dinner table. Remi doesn't need broody, bearded Brick riding to her rescue...again. Not when it will put them both in danger, costing them much more than their hearts. Author's Note: Frenemies-to-lovers. Opposites attract. Slow burn. Girl in danger. Glorious, glorious banter. Fighting as foreplay. Small-town shenanigans. Big, grumpy, pining, overprotective hero. Wild-child, trouble-finding heroine who keeps on pushing the hero's buttons. Steam Level: Lava. Suspense: Nail-biting. Feels: Big time.

Contradictions... Tall and short. Inked and unmarked. Golden and porcelain. Soft dreads and wild red. Dark and.... darker. Keeping more secrets than a teenage girl's diary, Harlow Cooper hides a lot behind her bubbly personality. College student and intern. Loyal friend and loving daughter. Fangirl and girly girl. Lover of strong coffee and even stronger margaritas. Former bartender and current... Well, let's just say she's suddenly in need of pasties and an industrial sized drum of glitter. Quick with a smile and joke, people assume Kase Teo is all ego with a slacker follow-through. But lurking behind his hauntingly beautiful blue eyes is an ocean. Knowledge, quick wit, experience, pain... There are depths to Kase that most don't see. If there's one thing he's learned, it's that life's all about appreciating the beauty. For Kase, that means going after the redhead that's set up residence in his mind. And his fantasies. Now he needs her to see life's more than just a best case scenario.

"Give me a memory, Noah."That's what she said ... the woman who rendered me stupid in the shadows at a wedding reception. I did everything I could to figure her out. She wore more veils of armor than I've seen in a lifetime. On the outside, she was strong and self-assured. But within those beautiful, guarded blues? She was laced with vulnerability and grief.We had one night. The best night. She got the memory she wanted, but in the process, I was left branded.Then she thought she could strut out my front door and my life, right after announcing she was my boss's baby sister. I had no choice but to follow. Not only did I go after her, I chased her halfway around the world. Because when it comes to her, one memory isn't enough. It doesn't matter that there couldn't be a more opposite pair than us. Gracie Cain is a healer. I'm Noah Jarvis, a cold-hearted killer. But when my job came back to bite me in the ass, I wasn't the only one caught in the crossfire. It bought us memories no one was counting on.That's when all the veils were ripped off.

Understanding the complex factors contributing to the growing childhood obesity epidemic is vital not only for the improved health of the world's future generations, but for the healthcare system. The impact of childhood obesity reaches beyond the individual family and into the public arenas of social systems and government policy and programs. Global Perspectives on Childhood Obesity explores these with an approach that considers the current state of childhood obesity around the world as well as future projections, the most highly cited factors contributing to childhood obesity, what it means for the future both for children and society, and suggestions for steps to address and potentially prevent childhood obesity. This book will cover the multi-faceted factors contributing to the rapidly growing childhood obesity epidemic The underlying causes and current status of rapidly growing obesity epidemic in children in the global scenario will be discussed The strategies for childhood obesity prevention and treatment such as physical activity and exercise, personalized nutrition plans and school and community involvement will be presented

Webster's defines to heal as "to make healthy, whole or sound; restore to health, free from ailment." But Webster's also defines to heal as "to free from evil; cleanse; purify: to heal the soul." My soul is shattered. I'm one hell of a mess because I need both and I don't know how both can possibly happen. Sure, I know my body will heal. I understand the science of healing, it's my profession. But I sense the ache in my heart and fear in my head will never heal. Can I ever recover from losing an unborn child at the hands of my abusive husband? Will I ever learn to think for myself again? No, I've been trained to fear those who are supposed to love me, conditioned to watch my every move and word so as to not suffer the consequences. I don't think being healed will ever be a possibility for me. Or I didn't until Tony Carpino fixated himself in my life. Tony is patient. Determined. He knows exactly what I need even before I do. He's wants to give me everything, make my life beautiful when my life has always been ugly. But as perfectly determined and patient as he is, I don't know if I can ever be whole again. It doesn't matter how long I've wanted him...and I've wanted Tony Carpino for a long time. This is a story of heartache and broken souls. A story of being exactly what the one you love needs when they need it, even if it goes against every being of your nature. Because love isn't love unless it's selfless. Can Tony love Leigh enough to heal the demons that haunt her broken soul and have the woman he missed out on years ago? This is a love story. This is the story of Tony and Leigh.

During the Inaugural Meeting of the European Association of Acarol ogists (EURAAC), held in Amsterdam in 1987, it was decided that the holding of a Symposium at regular intervals should be a major objective. With this in view, it was agreed that Professor Reinhart Schuster, the senior editor, be invited to accept the Presidency of the Association and, arising from that Office, to organize the first Symposium in Austria in 1988. There was strong support for a main theme focused on a particular aspect of acarology. From these discussions there emerged the proposal that emphasis be placed on aspects of reproduction, development and life-history strategies of the Acari. These were topics in the forefront of the discipline with exciting developments of interest not only to acarologists but to a wider audience because of the light they cast on fundamental processes in physiology, ecology and evolutionary biology. The object then was to invite a small number of key workers to present extended papers related to the main theme. There were seven of these all of which appear in the book. The remaining 51 contributions were offered papers a number of which fit within the framework of the Symposium theme.

"... brilliantly original ... brings cultural and post-colonial theory to bear on a wide range of authors with great skill and sensitivity." Terry Eagleton

Declan just can't help himself some days. Getting into some sort of trouble just seems like second nature most days. It's no surprise when Declan makes a reckless move during a SWAT call and ends up in the hospital with a stab wound. What is surprising is that he finds the woman of his dreams...and future fantasies. Too bad instead of being smooth, the pain medication made him a slurring fool. Aimee doesn't really have much faith in humanity these days, especially when it comes to the opposite sex. It definitely comes as no surprise that her latest patient is probably problematic. Why else would all of those big police officers be standing near him? What she doesn't expect is for the man on the gurney to be the most spectacular male specimen that she's ever seen. Declan decides to take it upon himself to make sure that his hot nurse accepts his invitation for a date. Too bad she doesn't agree. In fact, the more Aimee tries to ignore the sexy cop, the more places he seems to "accidentally" pop up. It almost seems like Declan is stalking her, which is crazy. He's a police officer. They don't stalk people...they arrest stalkers.....right?

Zero three zero nine.Four little numbers ... four little words. They might be random and insignificant to anyone else, but they meant something to us. No, they meant everything to us. Until they were ripped away.That was the day our lives took a different course. One we had no control over. One that others puppeteered and mangled into a cluster so big, it left us with emotional scars lined with resentment and venom toward each other.All because I'm a Montgomery and he's a Barrett.Now, Trig's back and he hates me with more hostility and rage than ever ... and I've learned to do the same. But when the world comes crashing down and the stakes couldn't be higher, I can't run and I can't hide. I need the help of the one person whose loathing for me runs deeper than blood and colder than his icy-blue stare. I need Trig.I need him more than I know.

"Life imitates art far more than art imitates Life." Oscar Wilde Author Nicola Royse dreamed of Scottish Highlanders as a teen then wrote about them as an adult. Always looking but never finding her own White Knight, she still held out hope that he would one day ride up on his trusty steed. He rode up all right, on a silver Harley with heat in his eyes and a detective's badge on his hip while she and her friends plotted her first contemporary romantic suspense. Of course,

life couldn't imitate art without a killer on the loose, one that had Nicola and her friends in his sights. Detective Dallas Vaughn dedicated his life to catching killers. Then one day he bumped into the girl-next-door, and all that changed. Now he's her White Knight fighting against a Dark Prince . . . one who would love to see her dead. Rated R for language, violence, and sexual content.

This is volume 3 of Planets, Stars and Stellar Systems, a six-volume compendium of modern astronomical research covering subjects of key interest to the main fields of contemporary astronomy. This volume on "Solar and Stellar Planetary Systems" edited by Linda French and Paul Kalas presents accessible review chapters on The Terrestrial Planets, Atmospheres of Jovian Planets, Dynamical Evolution of Planetary Systems, Exoplanet Detection Methods, An Overview of the Asteroids and Meteorites, Planetary Rings, Planetary Magnetospheres, Gas and Ice Giant Interiors, Astronomical Spectrographs, Dusty Planetary Systems, and From Disks to Planets. All chapters of the handbook were written by practicing professionals. They include sufficient background material and references to the current literature to allow readers to learn enough about a specialty within astronomy, astrophysics and cosmology to get started on their own practical research projects. In the spirit of the series Stars and Stellar Systems published by Chicago University Press in the 1960s and 1970s, each chapter of Planets, Stars and Stellar Systems can stand on its own as a fundamental review of its respective sub-discipline, and each volume can be used as a textbook or recommended reference work for advanced undergraduate or postgraduate courses. Advanced students and professional astronomers in their roles as both lecturers and researchers will welcome Planets, Stars and Stellar Systems as a comprehensive and pedagogical reference work on astronomy, astrophysics and cosmology.

Introduction to Medieval Europe 300-1500 provides a comprehensive survey of this complex and varied formative period of European history. Covering themes as diverse as barbarian migrations, the impact of Christianization, the formation of nations and states, the emergence of an expansionist commercial economy, the growth of cities, the Crusades, the effects of plague, and the intellectual and cultural life of the Middle Ages, the book explores the driving forces behind the formation of medieval society and the directions in which it developed and changed. In doing this, the authors cover a wide geographic expanse, including Western interactions with the Byzantine Empire and the Islamic World. Now in full colour, this second edition contains a wealth of new features that help to bring this fascinating era to life, including: A detailed timeline of the period, putting key events into context Primary source case boxes Full colour illustrations throughout New improved maps A glossary of terms Annotated suggestions for further reading The book is supported by a free companion website with resources including, for instructors, assignable discussion questions and all of the images and maps in the book available to download, and for students, a comparative interactive timeline of the period and links to useful websites. The website can be found at www.routledge.com/cw/blockmans. Clear and stimulating, the second edition of Introduction to Medieval Europe is the ideal companion to studying Europe in the Middle Ages at undergraduate level.

This book reviews the evidence relating to the mechanisms, clinical efficacy, safety/toxicity, and clinical application of tooth whitening techniques and materials. All clinical techniques are profusely illustrated step by step. The book is divided into four parts, the first of which explains how tooth whitening with peroxides works and examines the overall safety of peroxides and potential complications. The findings of clinical trials with peroxide-based materials for clinical practice are then examined, with discussion of a wide range of issues in at-home whitening and in-office whitening. The third part focuses on the techniques of enamel microabrasion and resin infiltration, which entail removal of a microscopic layer of enamel and may be used to improve tooth color either alone or in combination with peroxides. The concluding part includes a variety of informative clinical cases using combined bleaching and restorative techniques for discolored teeth. Tooth Whitening – An Evidence-Based Perspective will be of interest for dentists, dental hygienists, dental assistants, and others with an interest in the subject

Will this growly protector break her book-loving heart . . . or become her second chance at love? Savanna Vasquez lost her Navy SEAL husband years ago to terrorists, and she doesn't think she's capable of falling in love again. So, she busies herself by running her café and buries her face in the pages of fiction for a romantic escape. But when her late husband's brother finds his way into her life, bringing a world of danger with him, Savanna is protected by a group of tough former Army guys. She feels like she's inside one of her favorite novels, but she's not so sure if her happily-ever-after will be guaranteed, especially when she finds herself alone with one of the dangerously handsome Delta operators. After twenty years of serving his country in the Army, Griffin Andrews now works for an elite security team. When he's sent on a mission to protect a friend of the firm, he never expects to meet a woman who will bring his dead heart back to life. In Griffin's eyes, Savanna's still married, even if only in her heart--which means she's off-limits. Forget the fact she's also his assignment. With her being hunted by an unknown number of threats, he needs to focus on her safety and not the way she feels in his arms. Griffin's resolve begins to slip the more time they spend together and his self-control snaps. The unexplainable connection between them has them both wondering if maybe they were brought together for another reason. And as Griffin does everything in his power to save Savanna, he discovers there's a chance she just might save him too. From Wall Street Journal bestselling author, Brittney Sahin, comes a thrilling new series, full of sizzle and suspense. The Falcon Falls Security team will take you on exciting adventures around the globe as the heroes fall in love in these standalone romance military novels.
