A dense black cloud boiled up in the southeastern sky. It rose high and fast, like a time-lapse movie of the birth of a thunderhead. But it was no rain cloud. Wholly black, it reached up and up until it loomed over her, blocking out the sun. Somehow, she knew, it was Death coming for her.Pre-med student Coral is on vacation in Idaho when something terrible happens. The black cloud is followed by a wildfire and searing heat that lasts for days. She survives deep in a cave but emerges days later to find the world transformed, with blackened trees, an ash-filled sky, and no living creatures stirring—except for her.So begins her desperate journey: to find water, and food, and other survivors...and the answer to what happened.Gray is the first novel in a series.

**There has been much opinion and little fact written on the subject of lock picking. It is the purpose of this book to clarify the facts about this delicate process, and at the same time to train you in proper procedure. Reading this book is certainly enough to get you started picking simple locks, but remember: a great deal of time and patience are needed to become a truly proficient locksmith. In this volume, you will learn the fundamental theories of lock picking in addition to proper terminology, the importance of tool design (i.e. how to select and use the right tool for a given job), the effects of tolerances, and finally the techniques most commonly used by locksmiths to successfully pick the vast majority of standard pin and wafer tumbler locks. Lock picking is a useful, engaging, and satisfying skill; with this book and a little determination, you'll be off to a great start.**

No matter what anyone tells you, boat cooking IS different from cooking ashore. The space is smaller, there ' s no grocery store 5 minutes away, you have fewer prepared foods and electric appliances, and food storage is much different. Despite cruising different oceans, we—Jan and Carolyn—both faced the same challenges: eating well while having time to enjoy all the other great aspects of cruising. We love to snorkel, swim, kayak, explore—and just sit and admire the view. We learned with the cookbooks we both had aboard, and wished for information that wasn't available—like when Jan ended up with a frozen chicken complete with head and feet and no instructions on how to cut it up. When we couldn't get foods such as sour cream, English muffins, spaghetti sauce or yogurt, we adapted recipes to make our own. Other times, we experimented with substituting ingredients—maybe the result wasn ' t identical, but it was still tasty. We ended up with over 150 substitutions and dozens of " make it yourself " options. As we traded recipes and knowledge with each other, we realized we were compiling information that became The Boat Galley Cookbook: 800+ recipes made from readily-obtainable ingredients with hand utensils, including numerous choices to suit every taste: not just one cake but 20, 16 ways to prepare fish, 10 regional barbeque sauces, and so on. Step-by-step directions to give even " non-cooks " the confidence they can turn out tasty meals without prepared foods. Detailed instructions on unfamiliar things like making yogurt and bread, grilling virtually every food imaginable, preparing and cooking freshly-caught fish and seafood, cutting up and boning meat, cooking in a Thermos and baking on the stove top, as well as lots of tips on how to do things more easily in a tiny, moving kitchen. All this in an easy-to-navigate format including side tabs on the Contents to help you find your way and extensive cross reference lists at the end of each chapter. Quick Reference Lists provide idea starters: suggestions of included recipes for such categories as Mexican, Asian, and Potluck. The Boat Galley Cookbook is designed to help you every step of the way. We hope it becomes a trusted reference on your boat, and a source of many enjoyable meals.

Did you ever have someone leave their handprint on your soul? Did you ever have a friend that changed your life forever? This is a story about a friendship that changed my life forever. If you have or had a dear friend in your life that you cherished, I hope you can share my need to share what this dear friend did for me. I am not the same person since I met her. She took a frightened woman lacking self-confidence and transformed me into a self-confident, daring woman. I want this book to be a thank you to a strong, enduring woman who faced so many challenges and trails in her life but still found time to be a devoted friend. She always had time to listen, laugh, cry, and shout when I needed her to. I would like this book to encourage those who have a dear friend to always make sure you take time to spend with your dear one. Time is precious, and before we know it, we are longing for moments that we so casually took advantage of. If you are one of the lucky ones who have someone who has left their handprint on your soul, I hope you feel this book in the depths of your soul. If not, I pray that the future may lead this special friend to you. I have been blessed to have this friend's handprint on my soul. Every, day she continues to press her hand on my soul.
