

Oxford Gcse Maths For Ocr Higher Student Book

An OCR endorsed textbook Build strong knowledge and skills with this market-leading Student Book from OCR's Publishing Partner for GCSE Business, fully updated by subject experts for the 2017 specification, it provides comprehensive content coverage, engaging case studies and assessment activities. - Develops understanding of business concepts and theories through clear explanations, illustrated by diagrams and cartoons that help all learners access the content - Cements and extends subject knowledge with case studies that encourage students to think commercially about contemporary issues and contexts - Enables students to apply their learning and strengthen their investigative, analytical and evaluation skills as they progress through a range of activities - Prepares students for assessment with a variety of practice questions and handy tips for successfully answering different question types - Supports revision by summarising the learning outcomes, key terms and facts for each unit

These new resources have been written to match the 2016 OCR GCSE Gateway Science (9-1) specifications. Built-in assessment and differentiation supports students of all abilities and makes progress tracking easy. Maths skills and practical skills are developed throughout with ramped practice questions and differentiated learning outcomes.

A new series of bespoke, full-coverage resources developed for the 2015 GCSE Mathematics qualifications. Endorsed for the OCR J560 GCSE Mathematics Higher tier specification for first teaching from 2015, this Student Book provides full coverage of the new GCSE Mathematics qualification. With a strong focus on developing problem-solving skills, reasoning and fluency, it helps students understand concepts, apply techniques, solve problems, reason, interpret and communicate mathematically. Written by experienced teachers, it also includes a solid breadth and depth of quality questions set in a variety of contexts. GCSE Mathematics Online - an enhanced digital resource incorporating progression tracking - is also available, as well as Problem-solving Books, Homework Books and a free Teacher's Resource.

Oxford GCSE Maths for OCR Higher Teacher's Guide

OCR Gateway GCSE Chemistry Teacher Handbook

GCSE Maths for OCR Foundation Revision Guide

This textbook for students of A2 Law for OCR provides an accessible approach to the challenge of A2. Building on the knowledge of Law gained at AS, the book gives students all they need to know for their exams. The book covers the OCR options Criminal Law and the Law of Contract. All the information for the Special Study option is covered providing students with the right skills development needed for students to be successful in their work. Exam questions and key revision points are provided at the end of each unit, so students can face their exams with confidence.

Handbook to accompany the students' anthology of prose and verse extracts with questions, glossaries and end vocabulary to provide motivation and well-supported resource for the Prose and Literature OCR examinations.

Oxford A Level Religious Studies for OCR is a brand new course developed by renowned authors Libby Ahluwalia and Robert Bowie for the 2016 OCR specification. This textbook has been endorsed by OCR and supports a deep engagement with philosophy, ethics and the study of Christianity using language and an approach accessible to all students. Key terms are clearly defined, and case studies and scenarios are used to give students a practical understanding of key theories and how they might be applied to the big ethical and philosophical questions of the day. The book includes a section on 'Developments in Christian Thought' to support the new requirement for a systematic study of a religious tradition. There is also dedicated support for developing students' essay-writing skills, as well as revision summaries and practice questions to ensure students feel prepared for their exam.
