'The actual facts are so simple. I love you. You love me. You love Otto. I love Otto. Otto loves you. Otto loves me. There now! Start to unravel from there.' Design for Living is a wickedly witty dark romantic comedy by Noel Coward. Initially banned in the UK, this provocative play portrays three amoral, glib and stylish characters and their hopelessly inescapable, if also unconventional, emotional entanglement. From 1930s bohemian Paris to the dizzying heights of Manhattan society, a tempestuous love triangle unravels between a vivacious interior designer, Gilda, playwright Leo and artist Otto - three people unashamedly and passionately in love with each other. They are trapped in what Coward called 'a three-sided erotic hodge podge.' With Coward's trademark piquant style, this lively, funny but also atypical play looks at dazzling, egotistical creatures and their self-destructive dependence on each other. Exploring themes of bisexuality, celebrity, success and self-obsession, Design for Living is a stylish and scandalous comedy.

Western medicine has not traditionally respected or accepted alternatives such as acupuncture and homeopathic remedies. Many cultures around the globe, however, champion what we call alternative medicine. Why are some so quick to dismiss alternative options while others believe they can almost work miracles? Is it simply a matter of educating doctors and patients? Are such therapies rigorously tested and regulated? The viewpoints in this resource explore the potential benefits and dangers of alternative therapies, providing readers with provocative questions to consider.

Girl Meets Boy

As in the bestselling The Alphabet Versus the Goddess, Leonard Shlain's provocative new book promises to change the way readers view themselves and where they came from. Sex, Time, and Power offers a tantalizing answer to an age-old question: Why did big-brained Homo sapiens suddenly emerge some 150,000 years ago? The key, according to Shlain, is female sexuality. Drawing on an awesome breadth of research, he shows how, long ago, the narrowness of the newly bipedal human female's pelvis and the increasing size of infants' heads precipitated a crisis for the species. Natural selection allowed for the adaptation of the human female to this environmental stress by reconfiguring her hormonal cycles, entraining them with the periodicity of the moon. The results, however, did much more than ensure our existence; they imbued women with the concept of time, and gave them control over sex—a power that males sought to reclaim. And the possibility of achieving immortality through heirs drove men to construct patriarchal cultures that went on to dominate so much of human history. From the nature of courtship to the evolution of language, Shlain's brilliant and wide-ranging exploration stimulates new thinking about very old matters.

This is one of the most stirring tales from the folklore of East and Central Africa. Mugasha is a deity-king who harness natural elements and uses them to recapture the usurped kingdom of his father. He is in many ways a symbol of the indefatigable human zeal in the search for liberty and justice.
