The story of the creation of  
Britain's national game has  
often been told. According  
to the accepted wisdom, the

refined football games  
created by English public  
schools in the 1860s

Football, The First Hundred  
Years, provides a  
revisionist history of the

game, challenging previously widely-accepted beliefs.

Harvey argues that established football history does not correspond with the facts. Football, as played by the 'masses' prior to the adoption of the public

Football's First One Hundred Years provides a very

# Download File PDF Paper 2 June 2013 Shoreham Academy File Type

He does not pretend to have written anything new, but to have attempted to put what he has to say in as readable a form as possible.

Everything in the way of the history and habits of fish has been studiously avoided,

Download File PDF Paper 2

and technicalities have been used as sparingly as possible. The writing of this book has afforded him pleasure in his leisure moments, and that pleasure would be much increased if he knew that the perusal of

it would create any bond of sympathy between himself and the angling community in general. This section is interleaved with blank sheets for the readers notes. The Author need hardly say that any

the art of fishing but loch-fishing has been rather looked upon as a second-rate performance, and to dispel this idea is one of the objects for which this present treatise has been written. Far be it from us

Download File PDF Paper 2  
June 2013 Shoreham Academy

to say anything against fishing, lawfully practised in any form but many pent up in our large towns will bear us out when we say that, on the whole, a days loch-fishing is the most convenient. One great matter

## File Type

is, that the loch-fisher is depend-ent on nothing but enough wind to curl the water, -and on a large loch it is very seldom that a dead calm prevails all day, -and can make his arrangements for a day,

another matter to arrange for a days river-fishing, if one is looking forward to a holiday at a date some weeks ahead. Providence may favour the expectant angler with a good day, and the water in order but experience has

taught most of us that the good days are in the minority, and that, as is the case with our rapid running streams, -such as many of our northern streams are, -the water is either too large or too small,

where the fish are not abundant, and a beginner may come across as many as an older fisher but we speak of lochs where there are fish to be caught, and where each has a fair chance. Again, it is said that the boatman has

as much to do with catching trout in a loch as the angler. Well, we dont deny that. In an untried loch it is necessary to have the guidance of a good boatman but the same argument holds good as to stream-fishing...
