Paper Cutting Book Contemporary Artists, Timeless Craft Chronicle Books

This book has Paper Panda's very distinctive stamp on it and begins with a design section which takes the reader through a very personal account of what inspires her, how she works, and how Paper Panda came about. The techniques involved in papercutting are fairly simple and easy to explain, and this is covered through step-by-step demos. There is a design section, taking readers through the design process itself and including numerous examples of Louise's

papercut designs. Starting with the themes and subjects that inspire her, it explains how she creates finished artwork suitable for papercutting, followed by how to make the template itself, and how to use the papercut to make cards, framed pictures, and so on. The aim of this section will be not only to provide readers with an insight into Paper Panda's creative world, but also to inform and inspire people to design papercuts for themselves. There are 20 papercut projects in the book; five from Paper Panda herself and five each from three of Paper Panda's design colleagues (Sarah Trumbauer, Louise Dyer and Suzy Taylor - all accomplished papercutters with online

presences). Each project will consist of a template, which will be reproduced full-size at the back of the book, and a finished paper cut, together with some step-by-step instructions. The designs will be simple enough for beginners, though attractive and interesting enough to inspire more advanced paper cutters. The projects themselves will include cards, decorations, and mounted and framed pictures to hang on the wall, all using a variety of colored and patterned papers to show off Paper Panda and friends' distinctive and beautiful designs to their best advantage.

design. For over 20 years, Kit Kemp has been at the forefront of the international design community, developing a signature style which mixes contemporary works of art by both well-known artists and unknowns -- all of whom paint with soul as much as skill -- with Kit's own furniture designs, antiques, and junk shop finds. All of this is set against a layered backdrop of luxurious fabrics, bespoke wallpapers and hand-finished detailing which creates instant impact. In Design Thread, Kit shares the inspiration behind her creative process: whether it's a house in the country or a city pied-à-terre, a hotel suite or beach bar, her unique eye for design shines through. Kit considers

Henri Matisse is one of the leading figures of modern art. His unparalleled cut-outs are among the most significant of any artist's late works. When ill health first prevented Matisse from painting, he began to cut into painted paper with scissors as his primary technique to make maquettes for a number of commissions, from books and stained glass window designs to tapestries and ceramics. Taking the form of a 'studio diary', the catalogue re-examines the cut-outs in terms of the methods and materials that Matisse
