Robotic automation has become ubiquitous in the modern manufacturing landscape, spanning an overwhelming range of processes and applications-- from small scale force-controlled grinding operations for orthopedic joints to large scale composite manufacturing of aircraft fuselages. Smart factories, seamlessly linked via industrial networks and sensing, have revolutionized mass production, allowing for intelligent, adaptive manufacturing processes across a broad spectrum of industries. Against this background, an emerging group of researchers, designers, and fabricators have begun to apply robotic technology in the pursuit of architecture, art, and design, implementing them in a range of processes and scales. Coupled with computational design tools the technology is no longer relegated to the repetitive production of the assembly line, and is instead being employed for the mass-customization of non-standard components. This radical shift in protocol has been enabled by the development of new design to production workflows and the recognition of robotic manipulators as "multi-functional" fabrication platforms, capable of being reconfigured to suit the specific needs of a process. The emerging discourse surrounding robotic fabrication seeks to question the existing norms of manufacturing and has far reaching implications for the future of how architects, artists, and designers engage with materialization processes. This book presents the proceedings of RobJArch2014, the second international conference on robotic fabrication in architecture, art, and design. It includes a Foreword by Sigrid Brell-Cokcan and Johannes Braumann, Association for Robots in Architecture. The work contained traverses a wide range of contemporary topics, from methodologies for incorporating dynamic material feedback into existing fabrication processes, to novel interfaces for robotic programming, to new processes for large-scale automated construction. The latent argument behind this research is that the term "file-to-factory" must not be a reductive celebration of expediency but instead a perpetual challenge to increase the quality of feedback between design, matter, and making.

Aquaponics is the integration of aquaculture and soilless culture in a closed production system. This manual details aquaponics for small-scale production--predominantly for home use. It is divided into nine chapters and seven annexes, with each chapter dedicated to an individual module of aquaponics. The target audience for this manual is agriculture extension agents, regional fisheries officers, non-governmental organizations, community organizers, government ministers, companies and singles worldwide. The intention is to bring a general understanding of aquaponics to people who previously may have only known about one aspect.

Papermaking is a fascinating art and technology. The second edition of this successful 2 volume handbook provides a comprehensive view on the technical, economic, ecologic and social background of paper and board. It has been updated, revised and largely extended in depth and width including the further use of paper and board in converting and printing. A wide knowledge basis is a prerequisite in evaluating and optimizing the whole process chain to ensure efficient paper and board production. The same is true in their application and end use. The book covers a wide range of topics: * Raw materials required for paper and board manufacturing such as fibers, chemical additives and fillers * Processes and machinery applied to prepare the stock and to produce the various paper and board grades including automation and trouble shooting * Paper converting and printing processes, book preservation * The different paper and board grades as well as testing and analysing fiber suspensions, paper and board products, and converted or printed matters * Environmental and energy factors as well as safety aspects. The handbook will provide professionals in the field, e. g. papermakers as well as converters and printers, laymen, students, politicians and other interested people with the most up-to-date and comprehensive information on the state-of- the-art techniques and aspects involved in paper making, converting and printing.

This beautifully illustrated book, packed with clear step-by-step instructions, will show you how. Polymer clay is the material of choice and you will learn how to use free-form techniques and bead-rolling tools to create several styles. Unusual shapes, sculpted effects, simulations of semi-precious stones, photo-image transfers, and use of glitter and organic material mean the beads you make will be unique. And with practice, they will look professionally hand-crafted. All the tools you will need are listed, and finishing techniques, such as sanding, buffing, and sealing, are described. You will also find detailed instructions on how to use your own work to create stylish and individual pieces of jewelry, including necklaces, bracelets, and earrings. Basic jewelry-making techniques, such as stringing and fixing clasps, lead on to assembling all the components in designs and styles ranging from contemporary and elegant, to simple and just plain fun. The finished pieces incorporate a whole variety of mixed media to enhance the look of your beads. Technique based, this book is also full of useful information--including a list of suppliers--and will be invaluable to anyone taking up this rewarding and affordable craft. Beginners and more advanced practitioners alike will find both practical advice and inspiration. Explores the library, police station, park, post office, and other parts of a neighborhood through craft activities such as making a butterfly book bag, paper airplane, puppy puppet, and more.

American Indian Myths and Legends

"On a remote island in the Pacific, Corpus scientists have taken test tube embryos and given them life. These beings--the Vitros--have knowledge and abilities most humans can only dream of. But they also have one enormous flaw"--

The autobiography-of-sorts of André Gregory, an iconic figure in American theater and the star of My Dinner with André This is Not My Memoir tells the life story of André Gregory, iconic theatre director, writer, and actor. For the first time, Gregory shares memories from a life lived for art, including stories from the making of My Dinner with André. Taking on the dizzying, wondrous nature of a fever dream, This is Not My Memoir includes fantastic and fantastical stories that take the reader from wartime Paris to golden-age Hollywood, from avant-garde theaters to monasteries in India. Along the way we meet Jerzy Grotowski, Helene Weigel, Gregory Peck, Gurumayi Chidvilasananda, Wallace Shawn, and many other larger-than-life personalities. This is Not My Memoir is a collaboration between Gregory and Todd London who create a portrait of an artist confronting his later years. Here, too, are the reflections of a man who only recently learned how to love. What does it mean to create art in a world that often places little value on the process of creating it? And what does it mean to confront the process of aging when your greatest work of art may well be your own life?

Welcome back to Gansett Island! Series favorite Tiffany Sturgil steals the spotlight in Longing for Love as her new boutique Naughty & Nice opens in downtown Gansett, right in time for the annual spring Race Week festivities. Finally divorced and ready for a new beginning, Tiffany wonders if sexy Police Chief Blaine Taylor thinks of her as often as she thinks of him since their explosive encounter last fall. Back then he directed her to call him the second she was officially divorced, but the opening of her store and her unconventional advertising "campaign" have put the island's lingerie queen at odds with the town's top cop. Despite their clashes, when these two finally get together after months of steamy build up, readers will need to keep a fire extinguisher close at hand! Blaine has been burned in the past by love affairs gone wrong, and he's wary about risking too much too soon. But he quickly discovers that Tiffany's sarcastic rejoinders and bitter outer shell hide a badly wounded heart of gold. He also discovers she's a "sex-toy fraud" and convinces her she can't possibly sell the merchandise without trying it out first... While he finds himself thinking of her all the time, the mayor is after him to curb her sexy advertising and his mother worries that Blaine has taken on another "project" who will break his heart. As Blaine and Tiffany fight for their happily ever after, readers' favorite characters from past books are back for more island adventures. Joe and Janey return to Gansett for the summer and discover the big secret his mother has been keeping. Evan learns that Grace hasn't told her parents about him. Stephanie's restaurant is ready to open in the renovated Sand & Surf Hotel. Dan keeps showing up to "visit" Kara at work, Mac is worried about Maddie's upcoming meeting with her deadbeat dad and a Race Week catastrophe reminds everyone what's really important. The McCarthys of Gansett Island takes a decidedly erotic turn in this seventh book! If hot, sexy men in uniform cavorting with hot, sexy women who sell sex toys for a living aren't your thing, this book might not be for you!

Professional Sheet Metal Fabrication is the number-one resource for sheet metal workers old and new. Join veteran metalworker Ed Barr as he walks you through the ins and outs of planning a sheet metal project, acquiring the necessary tools and resources, doing the work, and adding the perfect finishing touches for a seamless final product. From his workshop at McPherson College--home of the only genuine sheet metal fabrication education program in the country--Barr not only demonstrates how the latest tools and products work, but also explains why sheet metal reacts the way it does to a wide variety of processes. He includes clear directions for using power and pneumatic hammers and the English wheel, as well as describing specific skills like hand-forming techniques, buck building, louver punching, edge finishing, and more. Readers will learn how to form door seams and to make fenders, hoods, and other body parts; they'll also learn how to put various finishes on metal through engine turning, metal chasing, and laser processing. This is truly the most detailed enthusiast-focused sheet metal how-to book on the market: whether you're a metal hobbyist or experienced professional, you're sure to find something new in Professional Sheet Metal Fabrication.

Longing for Love

You can pay a terrible price for keeping a promise... Evelyn Taylor-Clarke sits in her chair at Forest Lawns Care Home in the heart of the English countryside, surrounded by residents with minds not as sharp as hers. It would be easy to dismiss Evelyn as a muddled old woman, but her lipstick is applied perfectly, and her buttons done up correctly. Because Evelyn is a woman with secrets and Evelyn remembers everything. She can never forget the promise she made to the love of her life, to discover the truth about the mission that led to his death, no matter what it cost her... When Evelyn's niece Pat opens an old biscuit tin to find a photo of a small girl with a red ball entitled 'Liese, 1951' and a passport in another name, she has some questions for her aunt. And Evelyn is transported back to a place in Germany known as 'The Forbidden Village,' where a woman who called herself Eva went where no one else dared, amongst shivering prisoners, to find the man who gambled with her husband's life... A gripping, haunting and compelling read about love, courage and betrayal set in the war-battered landscape of Germany. Fans of The Letter, The Alice Network and The Nightingale will be hooked. Readers are hooked on My Name is Eva: 'Could not put this book down, and heaven help anyone that tried to disturb my reading !!!...I absolutely loved this book !!!I laughed, I cried, I cheered , I sympathized all because of Evelyn...I could so picture the setting and as Evelyn sets out to fool everyone, I thought you go girl !!!...I don't want to say anything else but what a fantastic read... I can't recommend this book enough !!' Goodreads Reviewer, 5 stars 'What a magnificent read! Eva is amazing. One of the best characters in a book EVER! What a fantastic, beautiful, heart-wrenching tale, incredibly told. I absolutely loved every single page. I sat for the last 20% of the book in tears, sad but happy tears. An absolutely beautiful book.' Kim the Bookworm, 5 stars 'A poignant and evocative story of love, betrayal and bravery that kept me page turning and completely engrossed from start to finish. Loved it and would definitely recommend.' NetGalley Reviewer, 5 stars 'A phenomenal story of courage, love, murder and all the atrocities that go with war. Eva is an extraordinary character, strong, loyal, smart, funny, loving, and brave.A phenomenal read!!' Goodreads Reviewer, 5 stars 'This may be my new favorite book!!!! I absolutely love the premise of the heroine faking dementia in her retirement home to cover up her knowledge of (and possible involvement in) questionable activities centering around WWII events. The tempo of this novel was perfect--kept me wondering until the very last page!' Goodreads Reviewer, 5 stars 'Absolutely loved this book and its riveting plot!... The author has successfully penned a debut novel that I would highly recommend without any hesitation. An excellent debut novel from Suzanne Goldring and I look forward to reading more of her work. Historical fiction is my favourite genre to read and this book was every bit as good as some of the well-known WW2-themed titles published in recent years.' Goodreads Reviewer, 5 stars 'This book was excellent! Totally kept my attention and I wanted to find out what would become of the main characters. Highly recommended.' Goodreads Reviewer, 5 stars 'Everything about this book is amazing. I love the main character Eva, the way the author integrates the past with the present, and the emotional plot that kept me hooked from the beginning to the end. I've read over 30 historical fiction novels in the past year and this one is definitely in my top 10.' Netgalley Reviewer, 5 stars 'My Name is Eva is laugh out loud funny, sad in parts and had me glued to the pages... Wham!... I did not see "that" coming. Oh, the secrets Evelyn has!!!' Goodreads Reviewer, 5 stars 'This book is haunting and moving and told in a way that had me engaged in the story from the start. Recommended!' The Princess and the Pen, 5 stars 'This book had me hooked from the start...and because my grandparents are currently in assisted-living facilities, Evelyn's time in her assisted-living resonated with my heart. I loved her sassy, snarky personality and being privileged to see the inner workings of her mind. And I loved the love letters between she and her husband during WWII. I am excited to read all of Goldring's works! This is the first book of hers I've read, and it won't be the last!' The Book Distiller, 5 stars 'This novel had me hooked from the very first page! I always enjoy delving into historical fiction novels and My Name is Eva is the perfect example of why! This riveting book time hops between the 1940's, 1980's and present day (2016) to tell the tale of Evelyn Taylor-Clarke's life. Suzanne Goldring does a fantastic job with the pacing of this novel, I sometimes find historical fictions can get a little dry, but there wasn't any parts that I felt lagged--love that! The storyline was incredibly moving and depth filled! Evelyn is a character that will definitely stay with me!' Steph and Chris's Book Review, 5 stars

Resin jewellery first started in the US around 6 years ago and has now become one of the fastest-growing trends in jewellery making. The technique is very simple - you simply mix the two-part resin together and pour into a bezel or pendant. Rings, pendants, brooches, cufflinks, hairpins and bracelets are all easy to make and look incredibly professional when done.In this inspiring book, well-known crafter Sara Naumann shows you just how easy and quick resin jewellery is to make, using minimal equipment and readily available products, and provides over 50 fabulous projects for you to try. You can add numerous items to the resin to achieve different effects. You can place paper in the bezels to act as a background to the resin - such as old book paper, map paper, scrapbook paper and photographs. Paper can also be painted, stencilled, or layered with washi tape before being coated with resin. Try sheet music for a vintage vibe, or origami papers for a fresh, contemporary look.In addition, you can also immerse various items in the resin before it cures, such as dried flowers and leaves, feathers, shells, beads and charms, or try adding glitter, coloured inks, nail polish and virtually anything else you can think of.The versatility of resin jewellery is awe-inspiring, providing papercrafters as well as jewellery-makers with all the skills and inspiration they need to design and make their own stunning pieces.

Beatrix Potter is one of the world’s bestselling, most cherished authors, whose books have enchanted generations of children for over a hundred years. Yet how she achieved this legendary status is just one of several stories of Beatrix Potter’s remarkable and unexpected life. Inspired by the twenty-three ‘tales’, Matthew Dennison takes a selection of quotations from Potter’s stories and uses them to explore her multi-faceted life and character: repressed Victorian daughter;thwarted lover;artistic genius;formidable countrywoman. They chart her transformation from a young girl with a love of animals and fairy tales into a bestselling author and canny businesswoman, so deeply unusual for the Victorian era in which she grew up. Embellished with photographs of Potter’s life and her own illustrations, this short biography will delight anyone who has been touched by Beatrix Potter’s work.

“An inventive plot and incisive character studies elevate MWA Grand Master Grafton’s twenty-fourth Kinsey Millhone novel…This superior outing will remind readers why this much-loved series will be missed as the end of the alphabet approaches.”—Publishers Weekly (starred review) X: The number ten. An unknown quantity. A mistake. A cross. A kiss… Perhaps Sue Grafton’s darkest and most chilling novel, X features a remorseless serial killer who leaves no trace of his crimes. Once again breaking the rules and establishing new paths, Grafton wastes little time identifying this deadly sociopath.

The test is whether private investigator Kinsey Millhone can prove her case against him—before she becomes his next victim.

“I loved it.”—Stephen King From Jason Rekulak, Edgar-nominated author of The Impossible Fortress, comes a wildly inventive spin on the classic horror story in Hidden Pictures, a supernatural thriller about a woman working as a nanny for a young boy with strange and disturbing secrets. Fresh out of rehab, Mallory Quinn takes a job as a babysitter for Ted and Caroline Maxwell. She is to look after their five-year-old son, Teddy. Mallory immediately loves it. She has her own living space, goes out for nightly runs, and has the stability she craves. And she sincerely bonds with Teddy, a sweet, shy boy who is never without his sketchbook and pencil. His drawings are the usual fare: trees, rabbits, balloons. But one day, he draws something different: a man in a forest, dragging a woman’s lifeless body. Then, Teddy’s artwork becomes increasingly sinister, and his stick figures quickly evolve into lifelike sketches well beyond the ability of any five-year-old. Mallory begins to wonder if these are glimpses of a long-unsolved murder, perhaps relayed by a supernatural force. Knowing just how crazy it all sounds, Mallory nevertheless sets out to decipher the images and save Teddy before it’s too late.

NEW YORK TIMES BESTSELLER • “ The plot provided by the universe was filled with starvation, war and rape. I would not—could not—live in that tale. ” Clemantine Wamariya was six years old when her mother and father began to speak in whispers, when neighbors began to disappear, and when she heard the loud, ugly sounds her brother said were thunder. In 1994, she and her fifteen-year-old sister, Claire, fled the Rwandan massacre and spent the next six years migrating through seven African countries, searching for safety—perpetually hungry, imprisoned and abused, enduring and escaping refugee camps, finding unexpected kindness, witnessing inhuman cruelty. They did not know whether their parents were dead or alive. When Clemantine was twelve, she and her sister were granted refugee status in the United States; there, in Chicago, their lives diverged. Though their bond remained unbreakable, Claire, who had for so long protected and provided for Clemantine, was a single mother struggling to make ends meet, while Clemantine was taken in by a family who raised her as their own. She seemed to live the American dream: attending private school, taking up cheerleading, and, ultimately, graduating from Yale. Yet the years of being treated as less than human, of going hungry and seeing death, could not be erased. She felt at the same time six years old and one hundred years old. In The Girl Who Smiled Beads, Clemantine provokes us to look beyond the label of “ victim ” and recognize the power of the imagination to transcend even the most profound injuries and aftershocks. Devastating yet beautiful, and bracingly original, it is a powerful testament to her commitment to constructing a life on her own terms.

Anyone wanting to learn Loom Beading can pick up this book, buy supplies with confidence, build a simple frame loom and complete a project. All aspects of beginning bead looming are covered and once the first small pattern is complete, it is a simple matter to enlarge on the mini-loom, or to move up to a commercial beading loom. The results can be left on the loom, turning the mini-frame loom into a miniature frame for the loomed picture. This framed picture can be trimmed (or not) and used as a suncatcher, other decorative ornament or to spruce up the car’s rear view mirror. It can also be mounted on a base. The base may be embellished to create a mini sculpture. By constructing a slightly larger mini-frame loom, it is possible to remove the finished work from the loom. These loomed strips can be stitched onto garments or accessories such as barrettes or bags and pouches. Several projects are specifically designed for barrettes and/or strips. The patterns are beautiful, ranging broadly from Navajo rug designs, Kokopelli and geometric Indian designs to Orcas, Eagles, Wolves, fanciful Polar Bears, an Old Fashioned Sampler and Snowmen. They will charm bead workers of all skill levels. All the patterns can be used on larger looms or as part of a larger picture. There are step-by-step instructions and every pattern has a color code, bead count, and color photo. Plus, there is information on bead sizes, number of beads per hank or gram, and advice on how to compare prices. In addition there is a variety of beading graph paper for seed beads, 2-cut, and delica beads. This book answers every crafter’s questions. 116 fun-filled pages. A book you won’t want to miss!

Over 100 projects demonstrate composition of objects, how substances are affected by various forms of energy — heat, light, sound, electricity, etc. Over 100 illustrations.

Results from national and international assessments indicate that school children in the United States are not learning mathematics well enough. Many students cannot correctly apply computational algorithms to solve problems. Their understanding and use of decimals and fractions are especially weak. Indeed, helping all children succeed in mathematics is an imperative national goal. However, for our youth to succeed, we need to change how we â€™re teaching this discipline. Helping Children Learn Mathematics provides comprehensive and reliable information that will guide efforts to improve school mathematics from pre--kindergarten through eighth grade. The authors explain the five strands of mathematical proficiency and discuss the major changes that need to be made in mathematics instruction, instructional materials, assessments, teacher education, and the broader educational system and answers some of the frequently asked questions when it comes to mathematics instruction. The book concludes by providing recommended actions for parents and caregivers, teachers, administrators, and policy makers, stressing the importance that everyone work together to ensure a mathematically literate society.

A heartfelt account of poverty in Ireland and emigration to America. -- back cover.

Journalist Walls grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children’s imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn’t stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description.

Becky Meverden’s Beginner’s Guide to Creating with Clay

35 step-by-step projects for beautiful beads and jewellery

Bring your digital adventures to life with real-world craft projects inspired by the world of Minecraft® and other pixelated games. Kids and families can use this imaginative book to create instantly recognizable toys, jewelry, wearables, and accessories, based on one of the most popular video games of all time. The blocky pixelated graphics of video games are perfect for so many different kinds of crafts. This book helps children to expand their imaginations and develop their creativity as they acquire creative hobbies that will last a lifetime. Choly Knight shows how to make quick and easy versions of popular characters and game elements, using only a few basic craft supplies. Inside this book she offers 15 fun step-by-step projects for perler beads, duct tape, paper crafting, painting, sewing, and crocheting.

Shape your world with sparkling jewelry and home accents you won’t find anywhere else! Becky Meverden uses step-by-step photos and clear instructions to show beginners how easy it is to craft with polymer clay. Techniques include Enhancing Clay, Skinner Blend, Mokume Gane, Mica Shift, Faux Materials, Texturing, Canework, Transferring Images onto Polymer Clay, Making Clay Beads, Beads Using a Bead Roller, and Covering with Clay. 16 projects: Heart Pendant, Crystal Votive Cover, Sparkling Star Switchplate, Coasters, Bookmark, Faux Jade Bracelet, Turquoise Pendant, Flower Earrings, Copper Napkin Rings, Photo Pendant, Photo Tile Bracelet, Strawberry Box, Wild & Wacky Bracelet, Thimble Bear, Sock Monkey, and Desk Supply Organizer.
