

## **Paper Zoo**

A hands-on monster collage studio that will delight and inspire

This interim report assesses issues related to animal management, husbandry, health, and care at the Smithsonian Institution's National Zoological Park. The report finds that there are shortcomings in care and management that are threatening the well-being of the animal collection and identifies the "most pressing" issues that should be addressed.

Want to fly? Keith Zoo's Show-How Guides: Paper Airplanes gives you the know-how. Through illustrated, step-by-step tutorials on eleven essential models (plus key tips and tricks), you'll quickly and easily master folding and flying skills. What are you waiting for? Get off to a flying start! Show-How Guides are joyful primers for curious minds—collectible, visual, step-by-step handbooks that teach the skills every kid should know! This pocket-sized 101 series introduces kids of all ages to the perennial talents, hobbies, skills, and hands-on activities they'll treasure for a lifetime. Each book includes a curated collection of essential skills and every step is illustrated, allowing kids to truly and easily master the basics, regardless of how they learn. Finally, fun and friendly tutorials you can understand at a glance! Show-How Guides are an affordable stocking stuffer, birthday gift, or impulse buy.

Zoos, aquaria, and wildlife parks are vital centers of animal conservation and management. For nearly fifteen years, these institutions have relied on *Wild Mammals in Captivity* as the essential reference for their work. Now the book reemerges in a completely updated second edition. *Wild Mammals in Captivity* presents the most current thinking and practice in the care and management of wild mammals in zoos and other institutions. In one comprehensive volume, the editors have gathered the most current information from studies of animal behavior; advances in captive breeding; research in physiology, genetics, and nutrition; and new thinking in animal management and welfare. In this edition, more than three-quarters of the text is new, and information from more than seventy-five contributors is thoroughly updated. The standard text for all courses in zoo biology, *Wild Mammals in Captivity* will, in its new incarnation, continue to be used by zoo managers, animal caretakers, researchers, and anyone with an interest in how to manage animals in captive conditions.

Roll up to the zoo and meet a colourful menagerie of charming cardboard animals, a great way to make good use of all the cardboard and egg boxes you have in your recycling! First, take yourself on Safari and make a whole pride of lions from cardboard tubes, a pretty zebra, a giraffe, a rhino, and a delightfully jaunty flamingo. Move on to the Jungle, where there is a grinning crocodile, and a chimpanzee and an orangutan swinging through the trees. In the Arctic there is a delightful family of penguins made of egg cartons, a seal, a walrus, and a smiling polar bear, all enjoying the snow. You can hear the Aviary a long way away, with chattering parrots, lovebirds, and even a bald eagle perching on a rock. Finally, spot the elusive manta and stingrays in the Aquarium, where they are joined by a jolly dolphin, a jellyfish, an octopus, and many other interesting sea creatures. In the last chapter, you will learn how to make all the enclosures and scenery so your cardboard critters have a home. There are also instructions for making trees, rocks, icebergs, grass, and flowers, so you can really set the scene. Using materials that you might otherwise discard, clear step-by-step instructions, and a handy hints and tips section, you will soon have your very own cardboard zoo!

By simply punching out a card, folding a few flaps, and adding a dab of glue, you can create some of the cutest critters ever seen! The absolutely adorable Paper Zoo kit features 15 cards with one animal each and an instruction booklet with bios on each one--including a doe-eyed fawn, a goldfish named Pinky, a spotted dog, a fire-breathing dinosaur, and more!

Kids can learn the art of paper folding with Origami Zoo Animals. They will start by practicing basic origami folds. Then they can make a striped tiger, a silly seal, and more. The crafts in this book are easy and super fun! Each project includes colorful photos and step-by-step instructions. Aligned to Common Core Standards and correlated to state standards. Super Sandcastle is an imprint of Abdo Publishing, a division of ABDO.

Pathology of Wildlife and Zoo Animals is a comprehensive resource that covers the pathology of wildlife and zoo species, including a wide scope of animals, disease types and geographic regions. It is the definitive book for students, biologists, scientists, physicians, veterinary clinicians and pathologists working with non-domestic species in a variety of settings. General chapters include information on performing necropsies, proper techniques to meet the specialized needs of forensic cases, laboratory diagnostics, and an introduction into basic principles of comparative clinical pathology. The taxon-based chapters provide information about disease in related groups of animals and include descriptions of gross and histologic lesions, pathogenesis and diagnostics. For each group of animals, notable, unique gross and microscopic anatomical features are provided to further assist the reader in deciding whether differences from the domestic animal paradigm are "normal." Additional online content, which includes text, images, and whole scanned glass slides of selected conditions, expands the published material resulting in a comprehensive approach to the topic. Presents a single resource for performing necropsies on a variety of taxa, including terrestrial and aquatic vertebrates and invertebrates Describes notable, unique gross and microscopic anatomical variations among species/taxa to assist in understanding normal features, in particular those that can be mistaken as being abnormal Provides consistent organization of chapters with descriptions of unique anatomic features, common non-infectious and infectious diseases following brief overviews of the taxonomic group Contains full-color, high quality illustrations of diseases Links to a large online library of scanned slides related to topics in the book that illustrate important histologic findings

4 inside patterns: Dot-Grid, Graph, Lined, Blank No Lined, total 100 Pages - Perfect size at 6"x 9" -Perfect Size for notebook, to-do list, and summarized what you have realized each day. Easy writing and smooth paper is perfected for pen and pencil noted. - Good choice for personal used and great gift for all

This ingenious and charming activity book makes it possible for anybody, ages three and up, to create colorful animal collages. Young artists tear apart decorated sheets of patterned paper, either their own or those found in the back of the book, paste them onto blank cards, also provided, and then slip them into the book's cleverly designed paper pockets with eight different animal-shaped windows, including a roaring lion, a splashing hippo, a colorful toucan, a trumpeting elephant, a snapping crocodile, a naughty monkey, a dashing bear, and a group portrait!

Greedy Steve

A Collection of Animal Poems by Modern American Poets

***For many, their first experience of the natural world is in the pages of books and in library collections--a Paper Zoo. This stunning book gathers together a wide range of beautiful nature illustrations from the British Library's collections, including manuscripts, prints and drawings, and rare printed books, and featuring items from all around the world. With striking images of butterflies, beetles, spiders, animals, shells, fish and birds, the pages bring readers into contact with some of the world's most renowned natural history illustrators, such as Audubon and Catesby, and on expeditions to discover the lesser known rare finds as well. The text traces the story of the art of natural history from the Renaissance through the great age of exploration to the 19th century, to demonstrate how the collaboration between the fields of art and science has rendered such exquisite forms. The plates, all taken from books, are organized into several themed sections, though not on strict taxonomic grounds, but rather on broader themes of exotic, native, domestic, and paradoxical (with reference to what the species were at that time--for what is native now may well once have been exotic).***

Presents instructions for creating a variety of origami animals.

120 pages of blank handwriting practice paper. Wide lines and a dotted center to help students practice the shapes and sizes of their letters and numbers. A little practice each day can go a long way in helping children develop beautiful penmanship.

Color over 50 species from regions and habitats around the globe. Detailed, accurate drawings of bison, grizzly bear, alligator, tapir, howler monkey, lion, giraffe, hippopotamus, ringtailed lemur, giant panda, tiger, dingo, emu, polar bear, wild boar, many more, depicted in modern, ecologically correct zoo environments. Introduction and captions.

Rome, too, wants the sound of roaring as evening falls ... The Rome Zoo: a place born of fantasy and driven by a nation's aspirations. It has witnessed – and reflected in its tarnished mirror – the great follies of the twentieth century. Now, in an ongoing battle that has seen it survive world wars and epidemics, the zoo must once again reinvent itself, and assert its relevance in the Eternal City. Caught up in these machinations is a cast of characters worthy of this baroque backdrop: a man desperate to find meaning in his own life, a woman tasked with halting the zoo's decline and a rare animal, the last of its species, who bewitches the world. Drifting

between past and present, *The Rome Zoo* weaves together these and many other stories, forming a colourful and evocative tapestry of life at this strange place. It is both a love story and a poignant juxtaposition of the human need to classify, to subdue, with the untameable nature of our dramas and anxieties. Spellbinding and disturbing, precise and dreamy, this award-winning novel, translated by Stephanie Smees, is unlike any other. Winner of the Swiss Literature Award, the Prix Michel-Dentant and the Prix du public de la RTS "Like all truly great literary allegories, *The Rome Zoo* is both innocent and wise, filled equally with tenderness and darkness. A gorgeous, dream-like fable of Italy's past and present." —Ceridwen Dovey
