Does your learner need help with writing paragraphs? The How to Write an Awesome Paragraph Step-by-Step workbook teaches your students how to write a strong paragraph using a foolproof step-by-step process. Each incremental lesson teaches one step and contains practice examples to build skill and confidence. Students learn: The parts of a paragraph How to write a strong topic sentence How to write relevant details that connect to the topic sentence How to write a meaningful closing sentence For each step, students learn the basic process and then are taught how to "upgrade" the element to be even stronger. For topic sentences, students learn to upgrade by: Adding a question Introducing a comparison Stating an interesting fact Setting the scene with a description Grabbing attention with shock/excitement Similar clearly explained upgrades are taught for relevant details and closing sentences. Being able to write a strong paragraph is important for all students. Students without strong paragraph skills will especially struggle when it comes to essays or other longer writing tasks. This book is designed to help all late-elementary to high school students, but it is particularly useful for struggling or special needs students who will welcome the explicit steps which they can re-use each time they need to write a paragraph. The visual supports and incremental practice also build confidence in a wide range of students. Grab this book and help your learner become a confident writer!

George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary

that is fundamental to understanding totalitarianism. While 1984 and Animal Farm are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In Why I Write, the first in the Orwell's Essays series, Orwell describes his journey to becoming a writer, and his movement from writing poems to short stories to the essays, fiction and non-fiction we remember him for. He also discusses what he sees as the 'four great motives for writing' – 'sheer egoism', 'aesthetic enthusiasm', 'historical impulse' and 'political purpose' – and considers the importance of keeping these in balance. Why I Write is a unique opportunity to look into Orwell's mind, and it grants the reader an entirely different vantage point from which to consider the rest of the great writer's oeuvre. 'A writer who can – and must – be rediscovered with every age.' — Irish Times

short, practical solutions to their writing challenges. This concise writing guide will help you: Understand the types of audiences every writer faces; Establish an engaging sense of purpose in everything you write; Grasp the main genres of academic and professional writing; Get a main idea across more clearly and persuasively; Support main ideas with compelling evidence and clear structure; Link ideas to each other, creating "flow;" Edit sentences for greater clarity; and Use simple strategies for improving your writing process. Learning about these topics would usually require enrolling in a 16-week course and paying hundreds, if not thousands, of dollars in tuition. You're frugal and busy, though, so I save you all of that money, time, and effort. "How to Write an Essay like an Equation offers writers of all levels an engaging read and an innovative step-by-step approach to writing. From the acclaimed New York Times bestselling author: An essential volume for generations of writers young and old. The twenty-fifth anniversary edition of this modern classic will continue to spark creative minds for years to come. For a quarter century, more than a million readers—scribes and scribblers of all ages and abilities—have been inspired by Anne Lamott's hilarious, big-hearted, homespun advice. Advice that begins with the simple words of wisdom passed down from Anne's father—also a writer—in the iconic passage that gives the book its title: "Thirty years ago my older brother, who was ten years old at the time, was trying to get a report on birds written that he'd had three months to write. It was due the next day. We were out at our family cabin in Bolinas, and he

Written by Joy Reid, the foremost authority on teaching composition to ESL students, this series takes students from beginning-level instruction on basic sentence structure through the development and production of advanced academic papers. Writing examples, opportunities to learn about and produce academic prose, and sequenced assignments that increase in complexity help students build their ability to fulfill academic assignments as high as the university and graduate school levels. Examples of good (and poor) student compositions, written by native and non-native speakers of English, enrich all three books. The Reid hallmark of peer interaction with partners, small groups, and entire classes is an important feature of the books. This book takes students step-by-step through all the processes of academic writing, including audience analysis, choosing and focusing on a topic, generating ideas through pre-writing, and organizing information.-- Helps students build skills with writing examples, opportunities to learn and practice writing academic prose, and sequenced assignments.-- De-emphasizes the importance of discrete grammar points while still covering the necessary basics.-- Encourages classroom interaction through collaborative and group work assignments.-- Employs a writing-reading approach to build student background knowledge.
