This is a book on Rumi 's life, his poetry, his thought, and his influence. Rumi 's work forms one of the pillars of the Sufi orders, particularly the Mevlevi order, better known in the West as the Whirling Dervishes. In this book Rumi emerges not only as a spiritual master, but also as a fully human being grounded firmly in the Koran and in classical Islamic mysticism. The light of the Divine Sun, in its Beauty and Majesty, manifested itself for Rumi through the person of Shams of Tabriz. Transformed by this light, consumed by this fire, Mowlana Rumi saw the world in a new light. Everywhere he perceived God 's Grandeur and his Grace. The book also discusses the theological premises upon which Rumi 's work rests, his attitude to the problems of free will and predestination, and his analysis of the mystical stages and stations. The book not only gives a very rich analysis of Rumi 's language and poetical art, but also a picture of medieval Konya, whose features the mystical poet transforms and transfigures. Annemarie Schimmel is Professor in the Department of Near Eastern Languages at Harvard University. She is the author of several books including Islam: An Introduction, also published by SUNY Press, and the editor of the SUNY Press series, Muslim Spirituality in South Asia.

"Birds are my passion," says Joanna Burger, "but parrots are my weakness." Fifteen years ago, when she adopted a neglected, orphaned thirty-six year old parrot named Tiko, she entered on one of the most complex relationships of her life. Sullen and hostile when he entered Dr. Burger's home, Tiko gradually warmed as she carefully persuaded him of her good intentions. Eventually he courted her, building nests inside household furniture during mating season and trying to coax her into them. He nursed her vigilantly through a bout with Lyme disease, regularly preening each strand of hair on the pillow as she slept. For a while he even fought her husband for her attentions, but eventually theirs became a relationship of deep mutual trust. The Parrot Who Owns Me is also the story of the science of birds, and of parrots in particular (America's third most commonly owned pet, after cats and dogs). Woven into the narrative are insights and fascinating revelations from Joanna Burger's work – not only about parrots, but about what it means to be human. By turns delightful, hilarious, touching, and enlightening, The Parrot Who Owns Me introduces us to an unforgettable bird and his human companion, whose friendships tell us much about ourselves.

The Wild Parrots of Telegraph Hill is the inspiring story of how one man found his life's work—and true love—among a gang of wild parrots roosting in one of America's most picturesque urban settings. Mark Bittner was down on his luck. He'd gone to San Francisco at the age of twenty-one to take a stab at a music career, but he hadn't had much success. After many years as an odd-jobber in the area, he accepted work as a housekeeper for an elderly woman. The gig came with a rent-free studio apartment on the city's famed Telegraph Hill, which had somehow become home to a flock of brilliantly colored wild parrots. In this unforgettable story, Bittner recounts how he became fascinated by the birds and made up his mind to get to know them and gain their trust. He succeeds to such a degree that he becomes the local wild parrot expert and a tourist attraction. People can't help gawking at the man who, during daily feedings, stands with parrots perched along both arms and atop his head. When a documentary filmmaker comes along to capture the phenomenon on film, the story takes a surprising turn, and Bittner's life truly takes flight.
