Every production is built on the backbone of the pipeline. While a functional and flexible pipeline can't assure a successful project, a weak pipeline can guarantee its demise. A solid pipeline produces a superior product in less time and with happier artists who can remain creative throughout the grueling production schedule. Walk through the foundational layers of the production pipeline, including IT infrastructure, software development practices and deployment policies, asset management, shot management, and rendering management. Production Pipeline Fundamentals for Film and Games will teach you how to direct limited resources to the right technological initiatives, getting the most for every dollar spent. Learn how to prepare for and manage all aspects of the pipeline with this entirely unique, one-of-a-kind guide. Expand your knowledge with real-world pipeline secrets handed to you by a stellar group of professionals from across the globe. Visit the companion website for even further resources on the pipeline.
Profiling six phases of the mythic hero's journey from unconscious innocence to ultimate self-awareness, argues that shared vision, purpose, and inquiry, combined with the use of the collective wisdom of myth, legend, and metaphor, can transform a school.
Shakespeare's plays about the reign of Henry VI, written at the beginning of his career, were for a long time undervalued. This was because of doubts about their authorship and because of the difficulties of determining their theatrical provenance. However, a series of outstanding productions by the Royal Shakespeare Company and other companies has demonstrated their theatrical vitality, their conventions have been better understood in the light of new critical methods, and their innovative and sceptical questioning of Elizabethan orthodoxies has been viewed in the light of revisionist readings of the history of Shakespeare's own times. This 1991 edition of The Second Part of King Henry VI takes account of discoveries concerning Shakespeare's early career, and pays particular attention to recent theatrical history, relating readings generated by modern performances to ideologically positioned accounts of the history and politics of Shakespeare's age.

Writing on the Wall

Oda Akira's life in a new world has had a rocky start. He has been framed for the murder of his mentor, forced to flee into the depths of a deadly labyrinth, and caught up in dangerous elf politics. After so many battles, his precious katana is in bad shape, so he heads to the beastfolk continent to find a skilled blacksmith and enough odd jobs at the Adventurers' Guild to pay for a repair job. But when the city is raided by demons, his elf companion Amelia is kidnapped! With some help from a beastfolk princess and his feline familiar Night, can Akira bring Amelia back where she belongs?
Raoul Wallenberg is remembered for his humanitarian activity on behalf of the Hungarian Jews at the end of World War II, and as the Swedish diplomat who disappeared into the Soviet Gulag in 1945. This book examines how thirty-one Wallenberg monuments, in twelve countries on five continents commemorate the man.

Heroic figures, all with the human desire for idealization in common, are the focus of this study — from Oedipus and King Arthur to heroes of the Trojan War and Robin Hood.
This is the business book we have been waiting for. Whilst we watch in horror as the consultants, the gurus and the management experts interfere with our jobs and lives with no apparent benefit, along comes this latest book from Geoff Burch that confirms that all our fears were true.This waspish, funny and often downright vicious expose of everything from marketing to HRM and even change management leaves no stone unturned and no taboo untrampled.But this is no mere hatchet job. Writing on the Wall exposes the stupidity of fashionable management fads, but by stripping the subject to the bone, the true secrets are uncovered. By facing the stark truth of poor products, difficult customers and mutinous staff, Burch is able to show, with bizarre examples such as the child with the squashed head, and hard hitting advice such as "smile or sling your hook", just how we can make success inevitable.
Cosplayers rejoice! The Hero's Closet is the ultimate DIY guide to creating unique and fantastical homemade costumes This essential handbook offers detailed, step-by-step instructions that cover the basics of sewing costumes (which often require skills not found in standard sewing guides) to help even the most novice sewists create the costumes of their dreams. A skilled crafter and avid cosplayer, Gillian Conahan walks readers through finding inspiration online and through their fandom; shares insight into translating character art into real-world garments; and offers advice on pattern selection, alterations, fabrics, and embellishment techniques. The Hero's Closet is the first how-to handbook on the art of sewing for cosplay. A must-have guide for Comic Con and Halloween, it's essential for all ambitious fans with a DIY spirit who love the idea of cosplay, but need the inspiration and technical tips to make an awesome costume.

In recent years, the topic of ancient Greek hero cult has been the focus of considerable discussion among classicists. Little attention, however, has been paid to female heroized figures. Here Deborah Lyons argues for the heroine as a distinct category in ancient Greek religious ideology and daily practice. The heroine, she believes, must be located within a network of relations between male and female, mortal and immortal. Using evidence ranging from Homeric epic to Attic vase painting to ancient travel writing, she attempts to re-integrate the feminine into our picture of Gree
According to Lyons, heroines differ from male heroes in several crucial ways, among which is the ability to cross the boundaries between mortal and immortal. She further shows that attention to heroines clarifies fundamental Greek ideas of mortal/immortal relationships. The book first discusses heroines both in relation to heroes and as a separate religious and mythic phenomenon. It examines the cultural meanings of heroines in ritual and representation, their use as examples for mortals, and their typical "biographies." The model of "ritual antagonism," in which two mythic fi
hostile share a cult, is ultimately modified through an exploration of the mythic correspondences between the god Dionysos and the heroines surrounding him, and through a rethinking of the relationship between Iphigeneia and Artemis. An appendix, which identifies more than five hundred heroines, rounds out this lively work. Originally published in 1997. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the origin
books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.
PARAGRAPHS AND ESSAYS WITH INTEGRATED READINGS is the higher-level companion to SENTENCES, PARAGRAPHS, AND BEYOND in the two-book Brandon series. Instruction in this text -- comprehensive, flexible, and relevant -- is predicated on the idea that reading and writing are linked and that good writing is the product of revision and rigorous editing. The hallmarks of the Brandons' books are tell-show-engage instruction, ample demonstrations of good professional and student writing, and an abundance of reading-based, high-interest general, cross-curricu
topics and prompts. The reading-based writing presented in this book provides experience in critical thinking that enables students to write competently across the disciplines and transition smoothly to the next level of the English program. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.
Emperor Elend Venture, having survived only to become a Mistborn himself, struggles to find clues by the Lord Ruler that will save his world, while a guilt-consumed Vin takes on a task of ending the cosmic power of the Ruin mystic force.

Troy linked Greece and Rome. It was once the subject of the greatest of Greek poems and the mother city of the Romans. It gave the Romans a place in the mythical past of the Greeks, it gave Greeks a way of approaching Rome, and it gave the emperor Augustus, descendant of Aeneas, a suitably elevated ancestry. In this book Andrew Erskine examines the role and meaning of Troy in the changing relationship between Greeks and Romans, as Rome is transformed from a minor Italian city into a Mediterranean superpower. In contrast to earlier studies the emphasis is on the Greek rather than the Roman perspective. The book seeks to understand the significance of Rome's Trojan origins for the Greeks by considering the place of Troy and Trojans in Greek culture. It moves beyond the more familiar spheres of art and literature to explore the countless, overlapping, local traditions, the stories that cities told about themselves, a world often neglected by scholars.
In Quest of the Hero makes available for a new generation of readers two key works on hero myths: Otto Rank's Myth of the Birth of the Hero and the central section of Lord Raglan's The Hero. Amplifying these is Alan Dundes's fascinating contemporary inquiry, "The Hero Pattern and the Life of Jesus." Examined here are the patterns found in the lore surrounding historical or legendary figures like Gilgamesh, Moses, David, Oedipus, Odysseus, Perseus, Heracles, Aeneas, Romulus, Siegfried, Lohengrin, Arthur, and Buddha. Rank's monograph remains the classic application of Freudian theory to hero myths. In The Hero the noted English ethnologist Raglan singles out the myth-ritualist pattern in James Frazer's many-sided Golden Bough and applies that pattern to hero myths. Dundes, the eminent folklorist at the University of California at Berkeley, applies the theories of Rank, Raglan, and others to the case of Jesus. In his introduction to this selection from Rank, Raglan, and Dundes, Robert Segal, author of the major study of Joseph Campbell, charts the history of theorizing about hero myths and compares the approaches of Rank, Raglan, Dundes, and Campbell.
Premiering in September of 2006, the weekly NBC television series Heroes was an immediate commercial and critical hit, lasting four successful seasons. Heroes follows a group of interrelated characters who discover they have superhuman powers, with each successive episode exploring how these people react to and utilize their powers for good or for evil. This collection of essays explores a variety of issues surrounding Heroes, examining the series' content, marketing and reception. Also investigated is the show's fusion of "cult" and mainstream elements of television, analyzing its ability to combine so-called lowbrow elements (comic books and superheroes) with a high-quality television form prizing such factors as moral ambiguity and depth of characterization—and what this blending process suggests about the current hybrid state of genre television, and about the medium as a whole.

The trickster and the hero, found in so many of the world's oral traditions, are seemingly opposed but often united in one character. Trickster and Hero provides a comparative look at a rich array of world oral traditions, folktales, mythologies, and literatures—from The Odyssey, The Epic of Gilgamesh, and Beowulf to Native American and African tales. Award-winning folklorist Harold Scheub explores the "Trickster moment," the moment in the story when the tale, the teller, and the listener are transformed: we are both man and woman, god and human, hero and villain. Scheub delves into the importance of trickster mythologies and the shifting relationships between tricksters and heroes. He examines protagonists that figure centrally in a wide range of oral narrative traditions, showing that the true hero is always to some extent a trickster as well. The trickster and hero, Scheub contends, are at the core of storytelling, and all the possibilities of life are there: we are taken apart and rebuilt, dismembered and reborn, defeated and renewed.
Byronic Heroes in Nineteenth-Century Women's Writing and Screen Adaptation charts a new chapter in the changing fortunes of a unique cultural phenomenon. This book examines the afterlives of the Byronic hero through the work of nineteenth-century women writers and screen adaptations of their fiction. It is a timely reassessment of Byron's enduring legacy during the nineteenth century and beyond, focusing on the charged and unstable literary dialogues between Jane Austen, Elizabeth Gaskell, George Eliot and a Romantic icon whose presence takes centre stage in recent screen adaptations of their most celebrated novels. The broad interdisciplinary lens employed in this book concentrates on the conflicted rewritings of Byron's poetry, his 'heroic' protagonists, and the cult of Byronism in nineteenth-century novels from Pride and Prejudice to Middlemarch, and extends outwards to the reappearance of Byronic heroes on film and in television series over the last two decades.
Imagine taking your gifted and talented students to a mysterious old graveyard in town and teaching them to conduct history research using the information they gather, teaching gifted children the concepts behind great literature using modern science fiction, allowing your students to conduct independent research in their mathematics classroom, or encouraging your students to plan and participate in exotic travel around the world--without ever leaving your classroom. In this book, you will receive the best ideas and lessons for teachers of secondary gifted kids developed by master teachers across the nation. This exciting book features ideas for starting a mentorship program, teaching history using scientific surveys, using simulations to teach content, organizing historical debates, producing documentaries, and much more. 20 Ideas features exciting activities and lessons such as: Be a Capitalist in Jolly Old England (an exciting activity for the world history classroom), Creative Thinking Skills in Mathematics (producing innovative ways to solve problems), Creating Simulations for the History Classroom (tips for using simulations with gifted students), Another Fine Mess . . . (building creative problem-solving activities that help teach subject area content), and many more creative ideas and lessons. Bring some of the most innovative and inspirational lessons being offered today into your classroom with 20 Ideas.
