*Every Assistance and Protection is the first book presenting an in-depth history of the Australian passport. In charting the development of the passport from its early beginnings to its present form, the book traverses changes in government policy and social history from the early 19th century to the modern era. It shows how the Australian passport evolved from a signifier of British nationality into a badge of membership of one of the most multicultural countries in the world. The book explores the landmark events in this history: the great 19th century diasporas, resulting from relaxation of official controls on the movement of people; the early passport regime regulating the movement of "ticket-of-leave" convicts; the establishment of the centralised passport system during World War I; the enactment of the first passport legislation for the Commonwealth, The Passports Act 1920, and the reaction of some Australians who felt the new law infringed the liberties of the British subject; changes to the laws in 1938 such that possession of a passport was no longer mandatory for an Australian to travel, though still a practical necessity; the use of the government's discretionary power to cancel or withhold passports to inhibit the movement of individual communists; the establishment of Australian citizenship in 1948 - the basis for possession of an Australian passport; the removal of the word "British" from the cover in 1967; the effects of globalisation and heightened security in the late 20th and early 21st century. It also touches on the lives of individuals: boxer Les Darcy, journalist Wilfred Burchett, and General Sir Thomas Blamey, are among the many Australians featuring in these pages. The book is based on an exhaustive examination of hitherto unexamined primary sources of many government departments, including the Departments of External Affairs, the Prime Minister's, the Attorney-General's, Defence, Home and Territories, Immigration and Foreign Affairs. Sponsored by Department of Foreign Affairs and Trade This book examines the impact of Partition on refugees in East and Northeast India and their struggle for identity, space and political rights. In the wake of the legalisation of the Citizenship Amendment Act in 2019, this region remains a hotbed of identity and refugee politics. Drawing on extensive research and in-depth fieldwork, this book discusses themes of displacement, rehabilitation, discrimination and politicisation of refugees that preceded and followed the Partition of India in 1947. It portrays the crises experienced by refugees in recreating the socio-cultural milieu of the lost motherland and the consequent loss of their linguistic, cultural, economic and ethnic identities. The author also studies how the presence of the refugees shaped the conduct of politics in West Bengal, Assam and Tripura in the decades following Partition. Refugees, Borders and Identities will be indispensable for scholars and researchers of refugee studies, border studies, South Asian history, migration studies, Partition studies, sociology, anthropology, political studies, international relations and refugee studies, and for general readers of modern Indian history.*

Six months in dreary and cold Brussels – and no headway with her handsome colleague Luc – has convinced systems analyst Seetha, brought up in ' steamy ' Madras, that she must move on. The British Government ' s immigration laws allow writers and artists to be granted a visa even if they have no job, so Seetha decides that she is a writer – and her first creative assignment is her visa application form. Harish, escaping the slums of India, has slogged hard in Belgium for the last fourteen years, and finally has saved enough to fulfil a lifelong dream: watch a cricket match at Lords in London. Amit seems to have everything – except his strict father ' s approval, which he may win if he finds a way to launder the \$2 million his father moved out of India ' during the restrictive years of Nehruvian socialism ' . To Ratnesh, who hates the Indian caste system, and as a Dalit, plans to seek asylum in the UK, all ' s fair in love, war, and getting a visa. Even using the naïve Harish for his own ends. And across the desk from them all, holding their fate in his hands, is British visa officer Doug Evans... who himself does not know what is going to happen at the end of the two days in which these characters' lives, dreams – and visa applications – cross paths.

As public accountability has increased and resources have become scarcer, public health, like clinical medicine, has been forced to re-examine the benefits and costs of its activities. Decision and economic analysis are basic tools in carrying out that mission. These methods have become standard practice in clinical medicine and health services research. This book , now in its second edition, was written in an effort to apply and adapt that experience with public health situations. The book was originally written to introduce Centers for Disease Control and Prevention staff to the concepts of decision and economic analysis, to provide guidance on methods to maximize comparability of studios, and to provide access to frequently used reference information. It has been adapted to meet the needs of scientists and managers in state and local health departments

and managed care organizations as well as students in schools of public health and clinicians for an introductory text --a text that shows how these methods can be applied in population-based practice, to facilitate better comparability of studies, and to solidify understanding of the scientific basis for use of these tools in decision making. Decision makers will learn how these studies are conducted so they can be critical consumers-- understanding the strengths and limitations- and apply findings to policy and practice. The second edition updates and expands upon the standard methodology for conducting prevention effectiveness analyses. Each chapter has been revised or re-written. The chapters on measuring effectiveness, decision analysis, and making information useful for decision makers as well as several appendices are entirely new.

The passport is one of the most widespread documents in worldwide use and yet, paradoxically, it has no basis in law: one state cannot demand another to do something - give access - simply by issuing a document. Yet, by insisting on the requirement of holding a passport the state has provided itself with a neat self-financing, data collection and surveillance system. This well illustrated book tells, for the first time, the story of the passport, from earliest times to the present day. Only do so with the authority of the king or emperor. The passport's power to facilitate passage was, then, embodied in it from the beginning. But the passport is also connected with territorial and population control by the State. Today, the machine readable passport enables swift checks against lists of names, enabling customs control to sift out undesirables, and the question of identity cards (used throughout continental Europe) is again an issue in British politics. And revealing the mechanism of the passport system, including the secrets of the machine-readable passport, as well as looking at special diplomatic and royal passports, this book provides an accessible and engaging history of this most widespread of documents

**Passport Photos, a self-conscious act of artistic and intellectual forgery, is a report on the immigrant condition. A multigenre book combining theory, poetry, cultural criticism, and photography, it explores the complexities of the immigration experience, intervening in the impersonal language of the state. Passport Photos joins books by writers like Edward Said and Trinh T. Minh-ha in the search for a new poetics and politics of diaspora. Organized as a passport, Passport Photos is a unique work, taking as its object of analysis and engagement the lived experience of post-coloniality--especially in the United States and India. The book is a collage, moving back and forth between places, historical moments, voices, and levels of analysis. Seeking to link cultural, political, and aesthetic critiques, it weaves together issues as diverse as Indian fiction written in English, signs put up by the border patrol at the U.S.-Tijuana border, ethnic restaurants in New York City, the history of Indian indenture in Trinidad, Native Americans at the Superbowl, and much more. The borders this book crosses again and again are those where critical theory meets popular journalism, and where political poetry encounters the work of documentary photography. The argument for such border crossings lies in the reality of people's lives. This thought-provoking book explores that reality, as it brings postcolonial theory to a personal level and investigates global influences on local lives of immigrants.**
