The past few decades have brought to light increasing evidence of systemic and repeated institutional abuse of children and young people in many western nations.

Government

Page 8/154

enquiries, research studies and media reports have begun to highlight the widespread nature of sexual, physical and emotional abuse of vulnerable children and young people. However, while public attention has focused on 'episodic-dramatic'

Get Free Patrol In The Dreamtime

representations of institutional abuse, comparatively little emphasis has been given to the more mundane, routinized and systemic nature of abuse that has occurred. This book documents comprehensively a full range of abuse occurring in 'caring'

Get Free Patrol In The Dreamtime

and 'protective' institutions, with particular reference to the Australian case. The dominant theme is 'betrayal' and in particular the ways in which agencies charged with the care and protection of children and young people become the

Get Free Patrol In The Dreamtime

sites of abusive practices. The authors draw on a range of theoretical frameworks to explore issues of trust and betrayal in the context of the professional and ethical obligations which workers have to those in their charge. The

authors argue that it is not sufficient merely to report on accounts of institutional abuse or the consequences of particular practices; rather it is necessary to locate the prevalence of institutional abuse in the wider

Given the catastrophic history of the 'short 20th century' (Hobsbawm), the crucial question facing the new millennium - all over the world - is that of

Get Free Patrol In The Dreamtime

the future social as well as political development. At the centre of our engagement with this question should lie reflections on participatory forms of democratisation in as many societies around the globe as possible, so as to make globalisation more than simply an

Get Free Patrol In The Dreamtime

economic theme.

Such reflections - as the contributions in this book show - from this perspective would also examine the possible ways in which relations might be constituted within political socialisation, participation and education. These concepts are in turn to be explored in the

Get Free Patrol In The Dreamtime

substantive
discussions of
'democracy' and
'democratisation' in
relation to individuals
as well as political
systems. If
educational policy is
social policy, if a
democratic society
demands citizens who
are educated and
thus capable of
political action, the

Get Free Patrol In The Dreamtime

themes 'Political Education' and 'Political Socialisation' need to be addressed anew, and this is equally important for a rethinking of the future of the 'political' more generally. The contributions to the book contribute to a challenging debate. Scholars from eight countries describe in

Get Free Patrol In The Dreamtime

this interdisciplinary and internationally oriented book trends in Democratization, Europeanization, and Globalization. The subjects covered include authoritarianism, political socialization and education as well as communications, youth, and social policy matters.

Get Free Patrol In The Dreamtime

Political system level development are described in Poland, Russia, Germany, Israel, and Palestine. Childhood and youth policies issues include cultural genocide in Australia, democratic childrearing, and children's rights. Tolerance building, multiple identity formation, and

Get Free Patrol In The Dreamtime

electronic media are aspects of political socialization and education.

Authoritarianism impacts education, voting patterns, and the new anti-Semitism. Topics under Europeanization include website use, press reporting, national versus

Get Free Patrol In The Dreamtime

European identity, US-EU relations, and framing the Euro.

of how the Aborigines were mistreated and an exposure of the ignorance of those who want to deny that history.

We are a moral people and the very notion that Australians could have anything to do with genocide is unthinkable so claimed parliamentarians when Australia was

Genocide: Essays

Accounts addresses
examples of
genocides
perpetrated in the
nineteenth, twentieth,
and twenty-first
centuries. Each
chapter of the book is
written by a
recognized expert in
the field, collectively
demonstrating a wide

range of disciplinary perspectives. The book is framed by an introductory essay that spells out definitional issues, as well as the promises, complexities, and barriers to the prevention and intervention of genocide. To help the reader learn about the similarities and

Get Free Patrol In The Dreamtime

differences among the various cases, each case is structured around specific leading questions. In every chapter authors address: Who committed the genocide? How was the genocide committed? Why was the genocide committed? Who were the victims?

Get Free Patrol In The Dreamtime

What were the outstanding historical forces? What was the long-range impact? What were the responses? How do scholars interpret this genocide? How does learning about this genocide contribute to the field of study? While the material in each chapter is based on sterling

Get Free Patrol In The Dreamtime

scholarship and wide-ranging expertise of the authors, eyewitness accounts give voice to the victims. This book is an attempt to provoke the reader into understanding that learning about genocide is important and that we all have a responsibility not to become immune to

acts of genocide, especially in the interdependent world in which we live today. Revision highlights include: New chapters on genocide of Native Americans in the nineteenth century, genocide in Australia, and genocide in the Nuba Mountains New chapter authors on

An estimated 350 to
600 million indigenous
people reside across
the globe. Numerous
governments fail to
recognize its

Get Free Patrol In The Dreamtime

indigenous peoples living within their borders. It was not until the latter part of the twentieth century that the genocide of indigenous peoples became a major focus of human rights activists, non-governmental organizations, international development and

Get Free Patrol In The Dreamtime

finance institutions such as the United Nations and the World Bank, and indigenous and other community-based organizations. Scholars and activists began paying greater attention to the struggles between Fourth World peoples and First, Second, and Third World states because of

Get Free Patrol In The Dreamtime

illegal actions of nation-states against indigenous peoples, indigenous groups' passive and active resistance to top-down development, and concerns about the impacts of transnational forces including what is now known as globalization. This volume offers a clear

Get Free Patrol In The Dreamtime

message for genocide scholars and others concerned with crimes against humanity and genocide: much greater attention must be paid to the plight of all peoples, indigenous and otherwise, no matter how small in scale, how little-known, how "invisible" or hidden

Get Free Patrol In The Dreamtime

from view.

This major work reveals the dark heart of the history of the Stolen Generations in Australia. It shows that, from the earliest times of European colonization, Aboriginal Australians experienced the trauma of loss and separation, as their children were

Get Free Patrol In The Dreamtime

abducted, enslaved, institutionalized, and culturally remodeled. Providing a moving and comprehensive account of this tragic history, this study covers all Australian colonies, states, and territories. The analysis spans 200 years of white occupation and intervention, from the

Get Free Patrol In The Dreamtime

earliest seizure of
Aboriginal children,
through their
systematic state
removal and
incarceration, and on
to the harsh treatment
of families under the
assimilation policies
of the 1950s and
1960s. The resistance
struggle and
achievements of
Aboriginal people in

Get Free Patrol In The Dreamtime

defending their communities, regaining their rights and mending the broken circles of family life provides a compelling parallel story of determination and courage.
