*Coin Collector's Handbook*

From creative minds worldwide have come fantasy coin issues never listed in any other comprehensive reference. Unusual Coins includes thousands of issues spawned from the non-circulating legal tender boom, but not fitting into the realm of legitimate coinage. Here you'll find coins used by the inhabitants of Middle Earth in The Lord of the Rings. These are real coins, created by Tom Maringer of Scottsdale, Ark., based on reference to coins in the trilogy. Unusual World Coins features: • Expanded Page Count: to accommodate over 7,000 photos • Clear images of coins • Detailed descriptive listings • Over 12,000 accurate market values About the Author George Cuhaj is an experienced and accomplished numismatist and researcher. An avid collector with a passion for this hobby, he is closely aligned with leaders in the field. A past president of the

American Medallic Sculpture Association, he is a frequent instructor at the American Numismatic Association's Summer Seminars. George is also editor for The Standard Catalog of World Paper Money series. Thomas Michael holds a Bachelor of Arts degree in history and a Master of Arts degree in economics. He has more than 20 years of experience researching and reporting on world coin prices and market trends.

All known varieties of the Morgan and Peace silver dollars are covered in this guide. Their availability and price have made them one of the most widely collected silver dollars in contemporary collecting and investing.

The updated sixth edition of A Guide Book of United States Paper Money includes an engaging history of the paper currency of the United States. Every federal note"€"from the ultra rare Demand Notes of 1861 to the lunch money in our wallets today"€"is described and cataloged in detail. Fascinating narrative captures the romance and history of American paper money, and also explores recent developments in the hobby and market, including the newest \$100 bill and proposed redesigns of our currency with the portraits of famous American women. The book combines the hobby-standard Friedberg numbering system with retail values and hundreds of high-resolution, full-color photos. With updated and revised content, the sixth edition joins the critically acclaimed first through fifth editions, which have solidly established this book's reputation as a popular and best-selling hobby reference. Features include: More than 20,000 market values; quantities printed; all federal series, plus Fractional Cur

Subtitle from cover: A complete history and price guide.

This ninth edition of one of the most comprehensive references for modern world paper money includes current market values for more than 10,600 notes in three grades of condition and over 7,200 photos and illustrations. 8-page color insert.

In the third edition of the best-selling and award-winning 100 Greatest U.S. Coins, numismatic author Jeff Garrett takes the reader on a personal guided tour of the nation's greatest coinage. "Each of the 100 Greatest was voted into place by leading coin dealers, researchers, and historians," says Whitman publisher Dennis Tucker. Inside the reader will find prized and seldom-seen rarities - the unique and high-valued pieces that collectors dream about, like the 1913 Liberty Head nickel and the 1804 dollar (the "King of American Coins"). The book also explores more readily available and widely popular coins: pieces so beautiful or with such strange and fascinating stories that everybody wants one. By Jeff Garrett. Hardcover, 144 Full Color Pages, Metallic-Foil Cover.

A volume of almost 35,000 words, with upwards of 100 illustrations, consisting of three papers that complement each other beautifully and give a sound introduction to the beginnings of the study of Chinese numismatics, focusing on the 19th century. A Short History of Chinese Numismatics in Western Languages - Helen Wang A run-through of publications on Chinese numismatics to 1900 - giving information about the authors, their occupations, motivations and areas of interest. A good background to the subject, and includes information on where to find bibliographies etc. 15,200 words. Currencies of Ancient China from their Origins to the Late Empire - Francois Thierry, translated from the French by Helen Wang and Lyce Jankowski Also the title of Francois Thierry's award-winning book, published in 2017 - the result of having worked for decades as the curator of Asian coins in Paris. The author notes how Europeans sometimes understood Chinese money and sometimes got it completely wrong. 8,460 words. Numismatic

Friendship: Social Networks of Numismatists and Coin Collectors During the Late Qing Dynasty - Lyce Jankowski, translated from the French by Lyce Jankowski and Helen Wang Also the title of the author's book published in 2018, and a very important piece of work. It shows the world of Chinese collectors of Chinese coins, their networks and motivations. 11,200 + words.

*The standard reference on American currency, internationally acknowledged as the most comprehensive and universally recognized guide on the subject, illustrating and valuating all types of United States paper money. The fronts and backs of all classes and types of currency, from 3 cents to 10,000 dollars are illustrated in color, with text listing, describing and giving market values in up to seven states of preservation for every variety of paper money ever issued. Also contains sections on Colonial and Continental currency and a listing by type of the issues of the Confederate States of America (1861-1864). Also chapters on error notes, enclosed postage stamps and postage envelopes. Paper Money of the United States has been an invaluable asset to currency collectors and numismatists since its first edition in 1953. It also possesses an appeal and value of its own, not just to lovers of Americana and of the fine art of engraving, but to students of American history, finance and economics. Banks in America and throughout the world will find this book especially useful in that it makes possible the immediate identification of all obsolete but still legal tender paper money, while simultaneously giving a market valuation. It is a book which belongs in every library, public and private.*
