#1 Amazon Best Seller: Proven Strategies For Profitable Penny Stock Investing Short-Term & Long TermWithout a strategy achieving success in anything is extremely difficult. Strategies win games, strategies make companies #1 in their industry and strategies make people rich in the stock market. The role that strategies play is visible from the chess board to the Executive Board Room, from the Super Bowl winning NFL team to the full-time day trader. Strategies act as a blueprint and are the foundational piece from which success is built on. Without a developed strategy, a team, company or individual will not know exactly what steps to take when certain events occur, instead their decisions will be impulsive and derived from emotions and immediate satisfaction. Recognizing the importance of strategies is crucial to achieving success in investing, especially in penny stock investing. What is even more critical is the implementation and disciplined execution of a strategy. A different beast than the traditional blue chip stocks, penny stocks contain an element of intrigue and mystery. Often relating to companies who have very little to be judged upon, penny stocks require a disciplined and strategic approach that differs from their more known counterparts. A developed strategy for an investor should be holistic and take all applicable information into consideration. In this book I'll teach you EVERYTHING you need to know in order to develop a strategy that will provide profitable capital gains and be unique to your specific situation and goals. I'll show you how to understand, analyze and predict the different factors that drive penny stock prices and what they mean to your portfolio. Starting from square one, we will go step-by-step through the process of determining which stocks to invest in to when exactly is perfect time to cash in on your winnings and sell your shares. We will build a strategy that contains all of the elements and is flexible and scalable to your changing income, time and goals. Here is A Preview Of What You'll Learn... You know that you need to start investing, because you won't be able to work your whole life. You don't want to be the old employee working as a door greeter at your big chain department store. It will also be frustrating and very depressing if you are not financially aware of your future. Time seems to go faster the older you get and it's never too late to get started. But getting started might be one of your problems. There is too much information available and too many scammers are trying to get you to invest in shady companies. You also don't have the time to figure everything out by yourself, because it might seem too hard and complicated. However, getting the investing part of your life handled will improve your life tremendously. You will have peace of mind when you think about your future and you will have the confidence to make sound investing decisions. You'll also have the knowledge to talk intelligently with your peers and financial advisors, making it easy to spot when someone is giving you wrong information. I begin with the basics, like what are stocks and how the stock market works. I then transition into how you can make money in the stock market, give you some stocks you should have on your watch list and some of the lies and mistakes you will have to deal with as an investor. So, don't wait and get this book now. It's on sale at this moment, but the price will go up!

Success as a day trader will only come to 10 percent of those who try. It's important to understand why most traders fail so that you can avoid those mistakes. The day traders who lose money in the market are losing because of a failure to either choose the right stocks, manage risk, and find proper entries or follow the rules of a proven strategy. In this book, I will teach you trading techniques that I personally use to profit from the market. Before diving into the trading strategies, we will first build your foundation for success as a trader by discussing the two most important skills you can possess. I like to say that a day trader is two things: a hunter of volatility and a manager of risk. I'll explain how to find predictable volatility and how to manage your risk so you can make money and be right only 50 percent of the time. We turn the tables by putting the odds for success in your favor. By picking up this book, you show dedication to improve your trading. This by itself sets you apart from the majority of beginner traders. Want to be in the elite 1% of traders who make 99% of the money in the penny stock market? Read on...It is a fact that 99% of traders who play the penny stock market will lose money. But why does this happen?Because they look at penny stocks like a casino. They aimlessly throw money at the market on the small chance they get that elusive big win. The mythical 1000% rise in stock price overnight which turns their \$300 into \$30,000.But those in the know understand that this simply doesn't happen. And they're all too ready to take money from poorly educated traders.The winners in the penny stock market are the traders who trade on numbers, not grandiose claims made by microcap companies. If you can grasp this concept, then the sky is the limit.Penny Stocks: Behind The Scenes, will give you the necessary tools and foundations to develop a profitable trading strategy.The tools you need to become part of the exclusive group of top traders who make long-term profits trading penny stocks. The tools that will give you a statistical advantage over the vast majority of traders and allow you to consistently win trades.To be a successful trader you must employ 3 basic concepts: Learn a trading systemAdopt a trading planUtilize strict money managementUtilize strict money management,so simple, yet so many people neglect t or more of these elements. They are the people whose entire trading "knowledge" comes from a \$2.99 basic trading handbook or a 1 hour long YouTube video from a so-called "guru". They are the masses who don't make money then cry that the penny stock market is rigged. They are the traders who will be fueling your profits. This book is the culmination of 1.4 years of full-time profitable trading experience, thousands of hours of technical trading research and over \$25,000 spent on a continued trading education.These methods haven't just worked for me. I have personally trained hundreds of successful traders using the techniques in this book.
