He Seemed So Normal . . . By day, Robert Lee Yates, Jr., was a respected father of five, a skilled helicopter pilot who served in Desert Storm and the National Guard, and a man no one suspected of a deadly hidden life. By night he prowled the streets where prostitutes gathered, gaining their trust before betraying them with a bullet to the head. On August 26, 1997, the decomposed bodies of two young women were discovered in Spokane, Washington. Within months four more women were added to the mounting death toll. In 2000, Yates pleaded guilty to thirteen murders to avoid the death penalty. But in 2001 he was convicted of two more murders and is now on death row in Washington State, waiting for the day when he will die by lethal injection. Updated with the latest disturbing developments, awardwinning author Burl Barer's reallife thriller is a shocking portrait of one man's depravity. "Brilliant investigative journalism. . . a nonstop chilling thrill ride into the mind of an evil and savage killer." Dan Zupansky, author of Trophy Kill Includes 16 pages of photos "A must read." Detective Jack Caffery hunts a twisted carjacker in this Edgar Award-winning thriller from the "maestro of the sinister" and author of Birdman (New York Daily News). Jack Caffery's new case seems like a routine carjacking until he realizes the sickening truth: The thief wasn't after the car, but the eleven-year-old girl in the back seat. And she's not the only young girl who's been taken. Meanwhile, police diver Sgt. Flea Marley is pursuing her own theory of the case, and what she finds in an abandoned, half-submerged tunnel could put her in grave danger. The carjacker is always one step ahead of the Major Crime Investigation Unit, and as the chances for the victims' survival grow slimmer, Caffery and Marley race to fit the pieces together. With this award-winning entry in her acclaimed series set first in London, and now in Bristol, England, "Hayder, again, proves expert at ratcheting up the tension" (The Independent). "It's a tribute to Hayder's powers as a suspense writer that she completely turns the over-familiar premise of this novel inside out and upside down." —The Washington Post "Compelling . . . First-rate mystery that takes full advantage of the wintry, moonlit West Country and the unusual skills of its lady diver." —Kirkus Reviews

Perfect Kill (A DI Callanach Thriller, Book 6)

When someone hacks into the systems of eight self-drive cars, their passengers are set on a fatal collision course. The passengers are: a TV star, a pregnant young woman, a disabled war hero, an abused wife fleeing her husband, an illegal immigrant, a husband and wife - and parents of two - who are travelling in separate vehicles and a suicidal man. Art history professor Sweeney St. George is in the middle of putting together an exhibit on her specialty, "the art of death," for the university museum when she makes an unusual discovery: A valuable piece of Egyptian funerary jewelry that should be in the museum's collection seems to be missing. Searching for answers, Sweeney learns that a student intern at the museum was the last person to check out the piece, a young woman who died of an apparent suicide soon after she handled the piece, more than twenty-five years ago. Going on with the exhibition without the intricately beaded Egyptian collar, Sweeney can't let it drop altogether. Nor can she forget the student, Karen Philips, who died just a few months after working with the piece. A little digging shows that Karen was working at the museum the night it was robbed, that same year, and Sweeney becomes even more curious. But her interest in mysteries past pales when a present-day murder brings Sweeney and her colleagues at the museum under the Cambridge Police Department spotlight in the person of Detective Tim Quinn, whom Sweeney has worked with before. In the latest installment in this rich and fascinating series, Sweeney and Tim go after a killer, trying to resolve questions both immediate and decades-old before it's too late. Vakov Fukasawa is a Reaper. An elite soldier injected with a dangerous drug called stormtech: the DNA of a genocidal alien race, the Shenoi. It makes him stronger, faster, more aggressive. At a price. A price that, if the House of Suns cult isn't stopped, all of humanity will have to pay. Vakov saved his estranged brother from the cult and killed their leader. Now they want his head on a spike, and they're hunting him and his friends down to get it, while continuing their mission to awaken the Shenoi and plunge the galaxy into mindless violence and chaos. There's a dangerous journey ahead, but Vakov and his misfit crew of eccentric aliens, troubled bounty hunters and rogue hackers will take any risk to stop the alien awakening. Only there's one risk Vakov hasn't shared: the one he himself poses. He got a terrifying glimpse of the Shenoi in the depths of interstellar space, and the violent nightmares he's suffered since suggest their DNA isn't just inside his body - he might already

be fighting them for his mind . . . Praise for Stormblood: 'Stormblood is a high stakes adrenaline filled adventure featuring two estranged brothers suddenly on opposite ends of an addict's war. Stormblood tells a splendid story about two brothers divided by war that is full of comradeship, actions, and conflict' Novel Notions 'A magnificent and explosive adrenaline-fest . . . Szal's debut is an absolute must read for fans of gritty, action-packed, detective and military SF' Grimdark Magazine 'This frenetic, grisly sucker-punch of a book manages to be everything you could want from sci-fi, while also carving out its own niche with a rusty slingshiv.' Fantasy Book Review 'Vakov Fukasawa is a former soldier, addicted to the biotech inside his own body that makes him constantly crave for action.
