include: - strategies for coaching and mentoring trainee teachers - teacher training in schools - links between teacher education and recent research - how to develop your own identity as a teacher educator Packed with case studies of good practice, models of successful teaching and activities to try, this practical book leads you through a professional development process that will enable you to be confident and secure in your practice. An essential guide for tutors, mentors and all those involved in staff development in schools, the book is also useful for experienced teachers in schools who are taking on training roles and supporting and mentoring newly qualified teachers (NQTs). Elizabeth White and Joy Jarvis both

Media Review Digest

This investigation of the fundamental character of organizational identity and identification with an organization is arranged in the form of a provocative discussion between key scholars. The book focuses on

three different paradigmatic views of identity: functionalist, interpretive and postmodern. Similarities and distinctions among these ways of understanding are explored, and numerous theoretical and practical insights are gained. The book concludes with a discussion of the relevance of identity as a construct in organizational study, and observations on conversation and theory building.
