Association Research & Education Association (REA) is an organization of educators, scientists, and
engineers specializing in various academic fields. Founded in 1959 with the purpose of disseminating the
most recently developed scientific information to groups in industry, government, high schools, and
universities, REA has since become a successful and highly respected publisher of study aids, test
preps, handbooks, and reference works. REA's Test Preparation series includes study guides for all
academic levels in almost all disciplines. Research & Education Association publishes test preps for
students who have not yet completed high school, as well as high school students preparing to enter
college. Students from countries around the world seeking to attend college in the United States will
find the assistance they need in REA's publications. For college students seeking advanced degrees, REA
publishes test preps for many major graduate school admission examinations in a wide variety of
disciplines, including engineering, law, and medicine. Students at every level, in every field, with
every ambition can find what they are looking for among REA's publications. While most test preparation
books present practice tests that bear little resemblance to the actual exams, REA's series presents
tests that accurately depict the official exams in both degree of difficulty and types of questions.
REA's practice tests are always based upon the most recently administered exams, and include every type
of question that can be expected on the actual exams. REA's publications and educational materials are
highly regarded and continually receive an unprecedented amount of praise from professionals,
instructors, librarians, parents, and students. Our authors are as diverse as the fields represented
