Picture stories can play a vital role in helping parents negotiate challenging scenarios with kids with ASD. Yet no matter how many books and flashcards you have, they can't cover every eventuality. So, suppose you could draw the stories yourself... Brian Attwood took up pen and paper when his son John’s meltdowns became harder to deal with. The effect was immediate and time and time again picture stories have bailed the family out of trouble and saved John from unhappiness and confusion. In this book, Brian describes step-by-step how to create simple yet effective picture stories using basic drawings and short lines of text, and provides examples based on real-life situations for you to adapt for your child. This book will give parents and carers the tools and confidence they need to create individualised picture stories to help their child with ASD cope with social situations, difficult emotions, transitions and other challenging situations.

Several years ago, I was a young librarian with a love of stories: one day I wrote a picture book. It was original, funny, and fun. I had spent several years reading kids stories and knew what they wanted in a good picture book. I went to workshops and conferences, and learned the publishing business. And then I tried to sell it and was in for a rude awakening: picture books are a ridiculously hard sell. I sent it to every picture book publisher I could find, and each one sent the impersonal rejection that writers dread. And so I filed it away, and didn't think that much of it. Then publishing changed. Suddenly, authors could become publishers, and I began to feel hopeful about the book again. There were still two problems with the book that I faced: 1. Finding a good, professional artist on a budget. 2. Designing the book in a way that was non-technical and did not require me to learn new software This book will cover how to find illustrators, design both a print and digital version of your book, and as an added bonus, how to find translators as well—so you can sell your book in as many languages as possible. I'll also show you a few strategies for marketing your book. If illustrations and book design are the only things that are holding you back from publishing a kid's book, then let me show you how easy it is to be a published kid's author!

Describes a variety of opportunities for youngsters to participate in successful community service.

It's an invitation to explore the stories of Jesus in their cultural context, bringing new life to familiar biblical events. This beautifully illustrated book will be a family favorite that kids and adults will come back to over and over again The World Jesus Knew is a Junior Library Guild Selection. Soon after his popular A Travel Guide to Heaven was published, bestselling author Anthony DeStefano recognized that children also have many questions about heaven. In celebration of the tenth anniversary of that book, Anthony wrote this fun-filled, action story about a little boy named Joey who gets to take a whirlwind tour of heaven with his guardian angel, Gabby. Artist Erwin Madrid’s stunning illustrations bring the story to life, showing heaven to be a place where everyone is happy, the animals all get along, and God’s glory is more amazing than anything Joey had ever seen in his whole life. This long-awaited children’s edition will quickly become a favorite for the reader and the child alike. Imagine the comfort and peace children will experience when they hear about this incredible place God has prepared for them.

NEW YORK TIMES BESTSELLER The complete, uncensored history of the award-winning The Daily Show with Jon Stewart, as told by its correspondents, writers, and host. For almost seventeen years, The Daily Show with Jon Stewart brilliantly redefined the borders between television comedy, political satire, and opinionated news coverage. It launched the careers of some of today's most significant comedians, highlighted the hypocrisies of the powerful, and garnered 23 Emmys. Now the show's behind-the-scenes gags, controversies, and camaraderie will be chronicled by the players themselves, from legendary host Jon Stewart to the star cast members and writers-including Samantha Bee, Stephen Colbert, John Oliver, and Steve Carell - plus some of The Daily Show's most prominent guests and adversaries: John and Cindy McCain, Glenn Beck, Tucker Carlson, and many more. This oral history takes the reader behind the curtain for all the show's highlights, from its origins as Comedy Central's underdog late-night program to Trevor Noah's succession, rising from a scrappy jester in the 24-hour political news cycle to become part of the beating heart of politics-a trusted source for not only comedy but also commentary, with a reputation for calling bullshit and an ability to effect real change in the world. Through years of incisive election coverage, passionate debates with President Obama and Hillary Clinton, feuds with Bill O'Reilly and Fox, and provocative takes on Wall Street and racism, The Daily Show has been a cultural touchstone. Now, for the first time, the people behind the show's seminal moments come together to share their memories of the last-minute rewrites, improvisations, pranks, romances, blow-ups, and moments of Zen both on and off the set of one of America's most groundbreaking shows.

The rules of physical contact can be tricky to grasp. A new, interactive approach to storytime, The Whole Book Approach was developed in conjunction with the Eric Carle Museum of Picture Book Art and expert author Megan Dowd Lambert's graduate work in children's literature at Simmons College, offering a practical guide for reshaping storytime and getting kids to think with their eyes. Traditional storytime often offers a passive experience for kids, but the Whole Book approach asks the youngest of readers to ponder all aspects of a picture book and to use their critical thinking skills. Using classic examples, Megan asks kids to think about why the trim size of Ludwig Bemelman's Madeline is so generous, or why the typeset in David Wiesner's Caldecott winner, The Three Pigs, appears to twist around the page, or why books like Chris Van Allsburg's The Polar Express and Eric Carle's The Very Hungry Caterpillar are printed landscape instead of portrait. The dynamic discussions that result from this shared reading style range from the profound to the hilarious and will inspire adults to make children's responses to text, art, and design an essential part of storytime.
