Presents watercolors of hundreds of species of flowers, and describes the characteristics and background of each plant

Pierre-Joseph Redouté (1759-1840) is the undisputed master of botanical art. His illustrations of flowers occupy the intersection of art and science, and they represent a unique fusion of botanical precision with artistic elegance. This richly illustrated publication presents a wide selection of Redouté's books, drawings and watercolours. Several short essays by Dutch and French specialists deal with different aspects of his art. As court artist to Queen Marie-Antoinette and Empress Joséphine, Redouté drew extraordinary flowers and plants from the Jardin des plantes and the gardens of Malmaison, which made him the darling of Parisian society. Napoleon Bonaparte presented his books as gifts to the crowned heads of Europe, and his pictures illustrated the works of the most eminent scientists of his day. His most famous books, 'Les Liliacées' and 'Les Roses', are among the milestones of botanical literature. Exhibition: Teylers Museum, Haarlem, the Netherlands (19.1.-5.5.2013).

Pierre-Joseph Redouté (1759–1840) ranks among the most highly regarded botanical illustrators in history. Known as the "Raphael of Flowers" for his meticulously accurate watercolors of roses, lilies, and other flowers, Redouté dominated botanical art from 1790 to 1830. The official court artist for Louis XVI and art tutor to Marie Antoinette, he survived the Terror and received the patronage of Napoleon's wife, Empress Josephine. Today the appreciation of Redouté's masterworks is no longer limited to aristocratic circles. Hailed by botanists for their scientific accuracy and by lovers of fine art for their peerless beauty, the artist's floral illustrations appear in reproductions in millions of homes around the world. This original compilation presents 80 exquisite renderings of his finest works, with each image accompanied by a brief caption. In addition to its value as a reference for artists, this lushly illustrated volume is a wonderful companion for nature lovers.
