Newly available with an updated bibliographic essay, this highly acclaimed work explores the Huk rebellion, a momentous peasant revolt in the Philippines. Unlike prevailing top-down analysis, Kerkvliet seeks to understand the movement from the point of view of its participants and sympathizers. He argues that seeing a peasant revolt through the eyes of those who rebelled explains and clarifies the actions of people who otherwise might appear irrational. Drawing on a rich array of documents and in-depth interviews with peasants and rebel leaders, the author provides definitive answers to the causes of the rebellion, the goals of the rebels, and the process of resistance.

served in bureaucracies but mislead in learning organizations. At the foot of the Elwha River, the muddy outpost of Port Bonita is about to boom, fueled by a ragtag band of dizzyingly disparate men and women unified only in their visions of a more prosperous future. A failed accountant by the name of Ethan Thornburgh has just arrived in Port Bonita to reclaim the woman he loves and start a family. Ethan ' s obsession with a brighter future impels the damming of the mighty Elwha to harness its power and put Port Bonita on the map. More than a century later, his great-great grandson, a middle manager at a failing fish- packing plant, is destined to oversee the undoing of that vision, as the great Thornburgh dam is marked for demolition, having blocked the very lifeline that could have sustained the town. fermentation, whether it's a bright hit of vinegar, a deeply savory miso, an electrifying drop of garum, or the sweet intensity of black garlic. Fermentation is one of the foundations behind Noma's extraordinary flavor profiles. Now René Redzepi, chef and co-owner of Noma, and David Zilber, the chef who runs the restaurant's acclaimed fermentation lab, share never-before-revealed techniques to creating Noma's extensive pantry of ferments. And they do so with a book conceived specifically to share their knowledge and techniques with home cooks. With more than 500 step-by-step photographs and illustrations, and with every recipe approachably written and meticulously tested, The Noma Guide to Fermentation takes readers far beyond the typical kimchi and sauerkraut to include koji, kombuchas, shoyus,

Elephant tourism is a growing activity in many countries across Asia and Africa and is popular with tourists from all parts of the world. Elephant tourism has grown rapidly, providing the only viable way for elephants and their owners to survive since the banning of logging. Old logging camps have been developed into sanctuaries for some elephants, but many other camps were established as entertainment centres, resulting in serious welfare issues for the elephants and their mahouts. The profits from elephant tourism in Asia have encouraged African operators to follow a similar

This book is an important investigation of the roles that a university plays in sustainable rural development. In doing so, the book takes an interesting approach and engages in a comparative study of two universities, located in China and Australia. The book examines that in spite of being in different locations their work and roles are no less significant in terms of national development. The book poses the question, 'What is the role of universities in bringing about knowledge

Founded in 1930, the Partido Komunista ng Pilipinas (now called the PKP-1930 to distinguish it from the Communist Party of the Philippines, formed in 1969) was soon declared illegal by the U.S. colonial authorities. Regaining its legality later in the decade, by 1942 it was at the helm of the Hukbalahap, the most effective guerrilla organization during the Japanese occupation. With the reconquest of the Philippines by the returning American forces, the PKP and the Huks found themselves under attack by their

presumed wartime allies. As congressmen elected as part of the postwar Democratic Alliance were prevented from taking their seats by President Roxas and Huk areas were bombarded by government forces, the PKP returned to guerrilla warfare. While at first adopting a defensive posture, in 1950 the party adopted a strategy for the seizure of power. By the mid-1950s, however, the "Huk rebellion" had been defeated by the Philippine government, guided and assisted by the U.S. Forcing the Pace analyzes the factors responsible for the PKP's

many teething problems and the defeat of the Huk rebellion, taking issue with some previous accounts. Detailed consideration is given to PKP documents, many of which have not previously appeared in the literature on the subject.
