examination with welcome practice in answering Extended Matching Questions (EMQs). Updated throughout to map onto the MRCOG syllabus from September 2016, the book is designed to test the candidate's theoretical and practical knowledge of obstetrics and gynaecology. An introductory section on exam techniques is followed by a collection of 41 EMQ themes, split into obstetrics and gynaecology. The questions are based on common clinical scenarios and cover a variety of topics. Answers are included after

each topic, and these include explanatory material and useful references.

Ear, Nose and Throat (ENT) surgery has traditionally been a difficult and specialised topic in undergraduate medicine and for junior doctors. Many textbooks are too detailed for undergraduate use, or lack self assessment questions to help those wishing to underpin their learning. This concise and easy-to-read self-assessment guide aims to clarify the topic, and find and fill gaps in understanding. The multiple choice questions (MCQs)

contained cover all levels of knowledge and the learning objectives of most of the UK medical school curricula, aiding preparation for end of unit, module and final exams for ENT. This book will be a valuable companion for clinics and teaching sessions and an indispensable revision primer for graduate entry medical curricula. 'An excellent means of preparation for medical undergraduate examinations as gaps in core knowledge are quickly revealed.
