State of India ' s Livelihoods Report (SOIL Report) is an annual publication that addresses contemporary issues in the livelihoods sector. It is the only document that aggregates the experiences and challenges of this sector, analyses case studies and reports progress of both government-run and the privately run programmes. This report is released each year during the Livelihoods Asia Summit, which is a pan-Asia platform that presents opportunities for cross-learning and sharing of unique experiences within the countries in this region. While some core chapters are continued from the previous years ' reports in order to provide stability to the structure of the report, the authors have covered some interesting new themes. An overview of the economic situation in the past years and a concluding chapter on dealing with equity and inclusion in growth are part of this year ' s report. In addition to this, two chapters on agricultural livelihoods and tribal livelihoods are new areas of in-depth focus. The report also covers policies, legal and fiscal framework for livelihoods, and key government programmes and schemes. Further, the authors have re-evaluated the employment and skills landscape, CSR and FPOs after a year ' s gap.

A new venture or business always stands on the precarious ground of unpredictable challenges wherein it is constantly subjected to pressures from competition and the ever changing dynamics of the market. In this scenario, a venture can only be successful, if it is guided by an entrepreneur who measures situations insightfully and calculates the risks before taking a plunge. Entrepreneurship: Creating and Leading an Entrepreneurial Organization is about creating, managing, and leading an entrepreneurial organization. The contents would help in inculcating an entrepreneurial mindset, developing entrepreneurial skills, and equipping the reader with the basic knowledge and skills for launching and managing the growth of a venture. The teaching/learning of entrepreneurship require greater focus on experiential learning. Therefore, the book extensively emphasizes on experiential learning and a hands-on approach - 'learning by doing'. Book has cited a number of examples and given cases and exercises from Indian as also global contexts to make entrepreneurship learning an enjoyable experience.

This publication examines the need to expand social protection coverage of the informal sector to support working age productivity, reduce vulnerability, and improve economic opportunity. Case studies from Bangladesh, the People's Republic of China, India, Indonesia, Pakistan, the Philippines, and Thailand offer suggestions to close social protection gaps and recommend policy solutions to create equitable and inclusive social protection programs for informal workers.

With a unique focus on the most effective interventional techniques, Withrow & MacEwen's Small Animal Clinical Oncology, 5th Edition tells the full story of cancer in dogs and cats — what it is, how to diagnose it, and how to treat many of the most common cancers encountered in clinical practice. Nearly 500 color photographs, diagrams, x-rays, and gross views depict the clinical manifestations of various cancers. This edition covers the latest advances in clinical oncology, including chemotherapy, surgical oncology, and diagnostic techniques. With contributions from 65 veterinary oncology experts, this authoritative reference is a must-have for current, evidence-based therapeutic strategies on canine and feline oncology. "I really love this book. If you are interested in veterinary oncology, have a flick through this book online or at a conference when you get the chance. I hope that you agree with me that this is the definitive oncology reference source for the early 21st century and that you feel compelled to buy it. Your patients will thank you for it." Reviewed by: Gerry Polton MA VetMB MSc(Clin Onc) DipECVIM-CA(Onc) MRCVS, UK Date: July 2014 Cutting-edge information on the complications of cancer, pain management, and the latest treatment modalities prepares you to diagnose and treat pets with cancer rather than refer cases to a specialist. A consistent format for chapters on body system tumors includes coverage of incidence and risk factors, pathology, natural behavior of tumors, history and clinical signs, diagnostic techniques and workup, treatment options, and prognosis for specific malignancies. A systems approach to the diagnosis and management of cancer facilitates access to information about the many malignancies affecting small animal patients. Nearly 500 color images provide accurate depictions of specific diseases and procedures. Helpful drug formularies provide quick access to information on indications, toxicities, and recommended dosages for chemotherapeutic and analgesic drugs used in cancer treatment. Expert contributors provide in-depth coverage of the most current information in his or her respective specialty in veterinary oncology. Chemotherapy protocols are included when case studies prove clinical

efficacy. Discussion of compassion and supportive care for the management of pain, nutritional needs, and grief includes methods for handling the pet's pain and nutritional complications as well as the pet owner's grief when treatment is not successful. Thoroughly UPDATED chapters cover the most recent changes in the clinical management of melanoma, mast cell tumors, tumors of the skeletal system, tumors of the endocrine system, tumors of the mammary gland, urinary cancers, nervous system cancers, lymphoma, and histiocytic diseases. NEW Clinical Trials and Developmental Therapeutics chapter discusses the various phases of clinical trials as well as current challenges and opportunities in oncology drug development. NEW! A focus on the best recommended treatment options highlights therapeutic strategies that have been vetted by veterinary oncology experts. NEW co-author Dr. Rodney L. Page adds his valuable perspective, expertise, and research experience.

Industrial policy has long been regarded as a strategy to encourage sector-, industry-, or economy-wide development by the state. It has been central to competitiveness, catching up, and structural change in both advanced and developing countries. It has also been one of the most contested perspectives, reflecting ideologically inflected debates and shifts in prevailing ideas. There has lately been a renewed interest in industrial policy in academic circles and international policy dialogues, prompted by the weak outcomes of policies pursued by many developing countries under the direction of the Washington Consensus (and its descendants), the slow economic recovery of many advanced economies after the 2008 global financial crisis, and mounting anxieties about the national consequences

of globalization. The Oxford Handbook of Industrial Policy presents a comprehensive review of and a novel approach to the conceptual and theoretical foundations of industrial policy. The Handbook also presents analytical perspectives on how industrial policy connects to broader issues of development strategy, macro-economic policies, infrastructure development, human capital, and political economy. By combining historical and theoretical perspectives, and integrating conceptual issues with empirical evidence drawn from advanced, emerging, and developing countries, The Handbook offers valuable lessons and policy insights to policymakers, practitioners and researchers on developing productive transformation, technological capabilities, and international competitiveness. It addresses pressing issues including climate change, the gendered dimensions of industrial policy, global governance, and technical change. Written by leading international thinkers on the subject, the volume pulls together different perspectives and schools of thought from neo-classical to structuralist development economists to discuss and highlight the adaptation of industrial policy in an ever-changing socio-economic and political landscape.

The Asia Small and Medium-Sized Enterprise Monitor provides data and analysis as a resource for evidence-based policy design. This year's edition focuses on South Asia. This first volume reviews micro, small, and medium-sized enterprises (MSMEs) at the country and regional levels. It covers Bangladesh, India, Nepal, Pakistan, and Sri Lanka, and examines MSME development, access to finance, and policies and regulations. It notes that revitalizing MSMEs by channeling more growth capital to them will be key to a resilient economic recovery from the pandemic. It highlights opportunities in formalizing MSMEs and connecting them to international markets, expanding digital skills, fostering technology-based start-ups, and supporting youth and women entrepreneurs.

A solid understanding of how banks operate is crucial to grasp the functioning of modern society. Banks are an intrinsic part of business, finance, and everyday life. Modern banking is regulated by a sophisticated set of laws and regulations that are constantly evolving. Banking Law and

Practice from the Hong Kong Institute of Bankers outlines and explains these laws and regulations clearly and in detail. This regulatory framework has a deep impact on banks, bankers, and anyone that deals with them, which is the overwhelming majority of society. This high level of impact makes Banking Law and Practice an important book as well as a necessary and authoritative reference for industry professionals, students, and the public at large. Banking Law and Practice discusses a range of topics that have a direct bearing on the day-to-day operations of banks, from contracts to how to ensure safe and secure lending. It examines the development and current state of banking legislation and regulation and facilitates bankers and their institutions to shape their practice to meet all the necessary legal and regulatory requirements. Students, industry professionals, and the public at large will welcome the thorough and clear explanations of the legal and regulatory framework in which banks operate. This book is essential reading for candidates studying for the HKIB Associateship Examination and anyone else seeking expert knowledge of the legal and regulatory structure affecting banks in Hong Kong. Topics covered in this book include: Contractual Relationships Code of Banking Practice Money Laundering Negotiable Instruments Law Related to Securities Bankruptcy and Insolvency

This study evaluates the effectiveness of IFC's strategic priority of private sector development in frontier countries (high-risk and/or low-income) by supporting micro, small, and medium enterprises (MSMEs) during fiscal years (FY)1994-2006. IFC has channeled its support to MSME's by: i) indirect financing through financial intermediaries, and ii) by indirect institution-building support via specialized regional small and medium enterprise (SME) development facilities. This evaluation analyzes IFC's development results and provides recommendations on how IFC's performance can be improved in this area going forward.

Beginning in the 1920s, audiences around the globe were seduced not only by Hollywood films but also by lavish movie theaters that were owned and operated by the major American film companies. These theaters aimed to provide a quintessentially “American” experience. Outfitted with American technology and accoutrements, they allowed local audiences to watch American films in an American-owned cinema in a distinctly American way. In a history that stretches from Buenos Aires and Tokyo to Johannesburg and Cairo, Ross Melnick considers these movie houses as cultural embassies. He examines how the exhibition of Hollywood films became a constant flow of political and consumerist messaging, selling American ideas, products, and power, especially during fractious eras. Melnick demonstrates that while Hollywood’s marketing of luxury and consumption often struck a chord with local audiences, it was also frequently tone-deaf to new social, cultural, racial, and political movements. He argues that the story of Hollywood’s global cinemas is not a simple narrative of cultural and industrial indoctrination and colonization. Instead, it is one of negotiation, booms and busts, successes and failures, adoptions and rejections, and a precursor to later conflicts over the spread of American consumer culture. A truly global account, Hollywood’s Embassies shows how the entanglement of worldwide movie theaters with American empire offers a new way of understanding film history and the history of U.S. soft power.

'In times like these, truth is perhaps the only justice we can have, the only vengeance we can wreak.' Blood drips from the pellet-stricken eyes of young Kashmiri men as Oubaid watches insurgency and violence rip through the streets of his homeland. A voice in his head tells him he knows who brought this plague upon them. But acknowledging it would mean that he must relive the horrors that have been inflicted on those he loves... Yet the voice will not leave Oubaid alone, and as he reluctantly confronts his past, there emerge four echoes of a story, narrated by four childhood friends - a youth caught in conflict, the daughter of a social climber, the son of a moneyed landlord and a militant. As their tales diverge and coalesce, they unravel a truth that is not always the sum of its parts - one that reveals the full tragedy of a people buffeted by circumstance and desperately seeking salvation. A taut, searing reflection of our times, *The Plague upon Us* announces the arrival of an arresting new voice in contemporary fiction.

This book is a tribute to the symbiotic relation between Gandhi and Bombay, a relation that spanned and strengthened over decades. The city had welcomed him warmly on his return from South Africa in 1915 and this warmth never receded. Bombay has earned a special place in the history of India's freedom struggle under Gandhi's leadership. In 1919, it was Gandhi's first nationwide protest, the Satyagraha against the unjust Rowlatt Act in Bombay that propelled him to the position of an undisputed leader. Bombay was also the site for the launch of the Non-cooperation movement in 1920. The response of the city to Gandhi's Salt March in 1930 and his call for the Quit India movement in 1942 was unprecedented. It was in Bombay that Gandhi gave the historic mantra of 'Do or Die'. Protests, processions, meetings, picketing, and strikes organized under his name drew people from all sections of the society. Gandhi's important movements were intertwined with the life of this city and its people. Gandhi was full of determination and the city with vibrancy; this amalgam resulted in the powerful synergy that made history. Bombay became the nerve centre of Gandhi's political activities and agitations.
