From the author of *Argo* comes an unforgettable behind-the-scenes story of espionage in action. In the first ever memoir by a top-level operative to be authorized by the CIA, Antonio J. Mander reveals the cunning tricks and insights that helped save hundreds from deadly situations. Adept at creating new identities for anyone, anywhere, Mander was involved in operations all over the world. From "Wild West" adventures in East Asia to Cold War intrigue in Moscow. In 1980, he orchestrated the escape of six Americans from a hostage situation in revolutionary Tehran, Iran. This extraordinary operation inspired the movie *Argo*, directed by and starring Ben Affleck. The Master of Disguise gives us a privileged look at what really happens at the highest levels of international espionage: in the field, undercover, and behind closed doors.

In this book, John Nunn, a top-class grandmaster who is also one of the world's finest solvers, explains the methods by which chess problems and studies are solved. The logical and creative methods advocated, while targeted at the solving of composed positions, may also help players find startling tactical solutions in their games. Solving in Style also constitutes an entertaining and insightful introduction to the world of problems and studies. There are chapters on series problems and other unorthodox stipulations, and also a discussion of specific themes such as the Novotny interference. This classic text is one of few on this important subject, and is now available again, having been difficult to obtain for a decade. Chess positions for solving are as old as the game itself, and

provide stimulating and beneficial exercise for chess-players. However, while there is an abundance of books on chess puzzles, and much specialist literature on studies and problems, there is an astonishing dearth of guidance for solvers.

Enna is a girl who doesn't believe in herself and often utters the phrase "I can't do that!" One night in a dream she sees all the possible future versions of herself, discovering that she can be any of those versions with time, knowledge and dedication. She develops a growth mindset throughout her journey and instead of saying "I can't do that," she learns to say "I can't do that YET!".
