An ancient mystery becomes an all-too-real modern threat for Dirk Pitt and his colleagues, in an extraordinary adventure novel in one of suspense fiction's most beloved series. The murder of a team of U.N. scientists while investigating mysterious deaths in El Salvador. A deadly collision in the waterways off Detroit. An attack from tomb raiders on an archeological site along the Nile. Is there a link between these violent events? The answer may lie with the tale of an Egyptian princess forced to flee the armies of her father three thousand years ago. From the desert sands of Egypt to the rocky isles of Ireland to the deepwater lochs of Scotland, only Dirk Pitt can unravel the secrets of an ancient enigma that could change the very future of mankind.

Clive Cussler's New York Times bestselling Blue Gold, now available in ebook, is a heart-pounding thriller in the NUMA adventure series. Kurt Austin navigates the Amazon jungle in search of a legend that could change the path of science—but secretive powers will do anything to stop him. From deep within the Venezuelan rain forest emanates the legend of a white goddess and a mysterious tribe with startling technical accomplishments. Few believe the tribe exists—and even fewer suspect its deity may hold knowledge that can change the course of history. For National Underwater & Marine Agency crew leader Kurt Austin, an investigation into the sudden deaths of rare whales leads him to the Mexican coast, where someone tries to put him and his mini-sub permanently out of commission. Meanwhile, in South America's lush hills, a specially assigned NUMA crew turns up the white-goddess legend—and a murderous cadre of bio-pirates intent on stealing medicinal secrets worth millions. Soon Austin and his crew realize they're working the opposite ends of the same grand scheme. A billionaire California tycoon is poised to rise to power by monopolizing the earth's vastly depleted freshwater reserves and ultimately dominate the world. Austin has a hunch Venezuela's mythical tribal goddess has some real roots in science, and may be the key to locating a secret formula that could turn vast amounts of seawater into fresh. But with each step into the bush, he and his NUMA team feel like fish out of water—and must fight a deadly, twisting trail of enemies through a dense jungle of treachery, blackmail, and murder. Enlisted by an archaeologist friend to help excavate a top-secret historical site, husband-and-wife team Sam and Remi Fargo discover clues alluding to the hidden tomb and treasure of Attila the Hun and embark on a high-stakes chase through numerous countries, where they are pitted against dangerous adversaries.
