England's controversial #1 best-seller. What brings a child to kill another child? In 1968, at age eleven, Mary Bell was tried and convicted of murdering two small boys in Newcastle upon Tyne, England. Gitta Sereny, who covered the sensational trial, never believed the characterization of Bell as the incarnation of evil, the bad seed personified. If we are ever to understand the pressures that lead children to commit serious crimes, Sereny felt, only those children, as adults, can enlighten us. Twenty-seven years after her conviction, Mary Bell agreed to talk to Sereny about her harrowing childhood, her terrible acts, her public trial, and her years of imprisonment-to talk about what was done to her and what she did, who she was and who she became. Nothing Bell says is intended as an excuse for her crimes. But her devastating story forces us to ponder society's responsibility for children at the breaking point, whether in Newcastle, Arkansas, or Oregon. A masterpiece of wisdom and sympathy, Gitta Sereny's wrenching portrait of a girl's damaged childhood and a woman's fight for moral regeneration urgently calls on us to hear the cries of all children at risk.

About the series...Shibari is the Japanese-inspired art of tying a subject to not only immobilize them, but to do so elegantly and beautifully - creating an intimate and erotic experience for both the subject and the person tying. Adopted by rope enthusiasts all over the world, shibari (literally "to tie" or "to bind") is a cornerstone of erotic rope art and the subject of captivating performances and photographs. However, in-depth resources for learning the art are difficult to obtain, making shibari intimidating, obscure and difficult to master...Until now. The Complete Shibari series is the most complete and accessible English-language guide to shibari ever published. Author Douglas Kent strips away shibari's mystery and reveals how to create visually stunning compositions with rope and the human form... in your own home or play space. About Complete Shibari: Land Complete Shibari Volume 1: Land explores the essential ground-based ties and forms of shibari. With short, clear explanations and over 450 lavish, step-by-step illustrations and photographs, Douglas Kent introduces the basic "building blocks", then guides you in applying those basics to create a full range of beautiful and exciting ground-based shibari ties. This is not a "knot book" - if you can tie an overhand knot, you already know half the knots you'll ever need. This practical, hands-on guide to doing shibari covers everything from choosing and preparing rope, to scene safety, to the techniques... and the reasoning behind the techniques. Why Children Kill: The Story of Mary Bell

Just like A Girlfriend's Guide to Pregnancy is the must-have book for any pregnant woman, The Mommy Psychologist is the must-have book for any new mother. If you are a mother, a mother-to-be, or thinking about becoming a mother then you must read this book. Grab a cup of coffee or a glass of wine and get ready to learn the real deal on motherhood. The stuff none of the other parenting books tell you. You might be surprised to learn that after natural childbirth, your vagina will look like Mike Tyson went nine rounds on it or that breastfeeding on the toilet cures constipation. The Mommy Psychologist is not another prescriptive, how-to guide on parenting. The last thing we need is another parenting book lining the shelves promising parental success if we apply the correct mathematical formula to our babies. It's narrated by a Child Psychologist who thought she had all the answers to parenting until she became one herself. She exposes her faults unapologetically in an account that is both hilarious and heartbreaking. She makes sense of the emotional extremes of motherhood and shows how seemingly contradictory emotions about motherhood can co-exist. Each chapter tackles a specific parenting topic ranging from dealing with infant sleep problems to dispelling some of the common myths associated with autism. The Mommy Psychologist doesn't give mothers the illusion that if they apply certain steps to a problem they will get a specific result. Instead, mothers are encouraged to view parenting through the lens of self empowerment and suggestions are provided to help them use the information they have at their disposal, but mostly, to feel better about themselves. Mothers are urged to do what feels right for them in any given parenting situation. It is written with a voice that marries education with the practical experience only gained through the act of being a mother.
