***An exploration of why we
play video games despite***

Page 1/78

the fact that we are almost certain to feel unhappy when we fail at them. We may think of video games as being "fun," but in The Art of Failure, Jesper Juul claims that this is almost

entirely mistaken. When we play video games, our facial expressions are rarely those of happiness or bliss. Instead, we frown, grimace, and shout in frustration as we lose, or die, or fail to

***advance to the next level.
Humans may have a
fundamental desire to
succeed and feel
competent, but game
players choose to engage in
an activity in which they***

are nearly certain to fail and feel incompetent. So why do we play video games even though they make us unhappy? Juul examines this paradox. In video games, as in tragic

***works of art, literature,
theater, and cinema, it
seems that we want to
experience unpleasantness
even if we also dislike it.
Reader or audience
reaction to tragedy is often***

explained as catharsis, as a purging of negative emotions. But, Juul points out, this doesn't seem to be the case for video game players. Games do not purge us of unpleasant

emotions; they produce them in the first place. What, then, does failure in video game playing do? Juul argues that failure in a game is unique in that when you fail in a game,

you (not a character) are in some way inadequate. Yet games also motivate us to play more, in order to escape that inadequacy, and the feeling of escaping failure (often by improving

***skills) is a central
enjoyment of games.
Games, writes Juul, are the
art of failure: the singular
art form that sets us up for
failure and allows us to
experience it and***

***experiment with it. The Art of Failure is essential reading for anyone interested in video games, whether as entertainment, art, or education.
Grade level: 7-12.***
