This is the full Mueller Report, as released on April 18, 2019, by the U.S. Department of Justice. A reprint of the report exactly as it was issued by the government, it is without analysis or commentary from any other source and with nothing subtracted except for the material redacted by the Department of Justice. The mission of the Mueller investigation was to examine Russian interference in the 2016 Presidential election, consisting of possible links, or "collusion," between the Donald Trump campaign and the Russian government of Vladimir Putin as well as any allegations of obstruction of justice in this regard. It was also intended to detect and prosecute, where warranted, any other crimes that surfaced during the course of the investigation. The report consists of a detailed summary of the various investigations and inquiries that the Special Counsel and colleagues carried out in these areas. The investigation was initiated in the aftermath of the firing of FBI Director James Comey by Donald Trump on May 9, 2017. The FBI, under Director Comey, had already been investigating links between Russia and the Trump campaign. Mueller submitted his report to Attorney General William Barr on March 22, 2019, and the Department of Justice released the redacted report one month later.

Victor Frankenstein leads a charmed life. He and his twin brother, Konrad, and their beautiful cousin Elizabeth take lessons at home and spend their spare time fencing and horseback riding. Along with their friend Henry, they have explored all the hidden passageways and secret rooms of the palatial Frankenstein chateau. Except one. The Dark Library contains ancient tomes written in strange languages, and filled with forbidden knowledge. Their father makes them promise never to visit the library again, but when Konrad becomes deathly ill, Victor knows he must find the book that contains the recipe for the legendary Elixir of Life. The elixir needs only three ingredients. But impossible odds, dangerous alchemy and a bitter love triangle threaten their quest at every turn. Victor knows he must not fail. But his success depends on how far he is willing to push the boundaries of nature, science and love—and how much he is willing to sacrifice.

A Stellar Compendium

A field manual to the technologies that are transforming our lives Everywhere we turn, a startling new device promises to transfigure our lives. But at what cost? In this urgent and revelatory excavation of our Information Age, leading technology thinker Adam Greenfield forces us to reconsider our relationship with the networked objects, services and spaces that define us. It is time to re-evaluate the Silicon Valley consensus determining the future. We already depend on the smartphone to navigate every aspect of our existence. We ' re told that innovations—from augmented-reality interfaces and virtual assistants to autonomous delivery drones and self-driving cars—will make life easier, more convenient and more productive. 3D printing promises unprecedented control over the form and distribution of matter, while the blockchain stands to revolutionize everything from the recording and exchange of value to the way we organize the mundane realities of the day to day. And, all the while, fiendishly complex algorithms are operating quietly in the background, reshaping the economy, transforming the fundamental terms of our politics and even redefining what it means to be human. Having successfully colonized everyday life, these radical technologies are now conditioning the choices available to us in the years to come. How do they work? What challenges do they present to us, as individuals and societies? Who benefits from their adoption? In answering these questions, Greenfield ' s timely guide clarifies the scale and nature of the crisis we now confront —and offers ways to reclaim our stake in the future.

The winners of the Nobel Prize show how economics, when done right, can help us solve the thorniest social and political problems of our day. Figuring out how to deal with today's critical economic problems is perhaps the great challenge of our time. Much greater than space travel or perhaps even the next revolutionary medical breakthrough, what is at stake is the whole idea of the good life as we have known it. Immigration and inequality, globalization and technological disruption, slowing growth and accelerating climate change--these are sources of great anxiety across the world, from New Delhi and Dakar to Paris and Washington, DC. The resources to address these challenges are there--what we lack are ideas that will help us jump the wall of disagreement and distrust that divides us. If we succeed, history will remember our era with gratitude; if we fail, the potential losses are incalculable. In this revolutionary book, renowned MIT economists Abhijit V. Banerjee and Esther Duflo take on this challenge, building on cutting-edge research in economics explained with lucidity and grace. Original, provocative, and urgent, Good Economics for Hard Times makes a persuasive case for an intelligent interventionism and a society built on compassion and respect. It is an extraordinary achievement, one that shines a light to help us appreciate and understand our precariously balanced world.

Star Trek: The Original Series (1966-1969) was the first installment of one of the most successful and longest-running television franchises of all time. Today, Trek fans champion its writing, progressive social consciousness, and aesthetic.

*NEW YORK TIMES BESTSELLER • Pierce Brown's relentlessly entertaining debut channels the excitement of The Hunger Games by Suzanne Collins and Ender's Game by Orson Scott Card. "Red Rising ascends above a crowded dystopian field."—USA Today ONE OF THE BEST BOOKS OF THE YEAR—Entertainment Weekly, BuzzFeed, Shelf Awareness "I live for the dream that my children will be born free," she says. "That they will be what they like. That they will own the land their father gave them." "I live for you," I say sadly. Eo kisses my cheek. "Then you must live for more." Darrow is a Red, a member of the lowest caste in the color-coded society of the future. Like his fellow Reds, he works all day, believing that he and his people are making the surface of Mars livable for future generations. Yet he toils willingly, trusting that his blood and sweat will one day result in a better world for his children. But Darrow and his kind have been betrayed. Soon he discovers that humanity reached the surface generations ago. Vast cities and lush wilds spread across the planet. Darrow—and Reds like him—are nothing more than slaves to a decadent ruling class. Inspired by a longing for justice, and driven by the memory of lost love, Darrow sacrifices everything to infiltrate the legendary Institute, a proving ground for the dominant Gold caste, where the next generation of humanity's overlords struggle for power. He will be forced to compete for his life and the very future of civilization against the best and most brutal of Society's ruling class. There, he will stop at nothing to bring down his enemies . . . even if it means he has to become one of them to do so. Evil tree. Bad Apple? Twenty years ago, all the evil villains were banished from the kingdom of Auradon to the Isle of the Lost--a dark and dreary place protected by a force field that makes it impossible for them to leave. Stripped of their magical powers, the villains now live in total isolation, forgotten by the world. Mal learns from her mother, Maleficent, that the key to true darkness, the Dragon's Eye, is located inside her scepter in the forbidden fortress on the far side of the island. The eye is cursed, and whoever retrieves it will be knocked into a deep sleep for a thousand years. But Mal has a plan to capture it. She'll just need a little help from her "friends." In their quest for the Dragon's Eye, these four kids begin to realize that just because you come from an evil family tree, being good ain't so bad.

Cyberterrorism and the misuse of Internet for terrorist purposes represents a serious threat, since many essential aspects of today's society are completely dependent upon the functioning of computer systems and the Internet. Further to the adoption by the Council of Europe of the Cybercrime Convention (2001) and the Convention on the Prevention of Terrorism (2005), its Committee of Experts on Terrorism (CODEXTER) has been studying this matter and surveying the situation in member states to evaluate whether existing legal instruments are sufficient to combat this emerging form of crime. This publication contains an expert report prepared by the Max Planck Institute, which evaluates the main problems that arise in the context of cyberterrorism and provides recommendations, together with reports on the situation in the member and observer states of the Council of Europe and the relevant Council of Europe conventions

The Enterprise and her crew finally make it back to Federation space, but the Federation they find isn't quite the same as the one they had left behind. Meanwhile, Aegis and Gary Seven's grand design continues to take shape—and the consequences will be staggering. The final voyages of the original Enterprise crew continue in this episode from showrunners Jackson Lanzing & Collin Kelly (GREEN ARROW, NIGHTWING)!

I had to accept that I wasn't just Arthur Leywin anymore, and that I could no longer be limited by the circumstances of my birth. If I was going to escape, if I was going to go toe-to-toe with the most powerful beings in this world, I needed to push myself to my utmost limit...and then I needed to push even further. After nearly dying as a victim of his own strength, Arthur Leywin wakes to find himself far from the continent where he was born for the second time. Alone, broken, and with no way to tell his family he's alive, Arthur must rebuild his strength to survive. As he ascends through an ancient dungeon filled with hostile beasts and devious trials, he discovers an ancient, absolute power - a power that will either ruin him or take him to new heights. But the dungeon won't give up its knowledge easily. Before he can plunder its depths, Arthur must learn to untangle the threads of fate. He must band together with the unlikeliest of allies if he hopes to escape with his life.

How Midcentury Modernism Shaped Our View of the Future

Toussaint L'Ouverture and the San Domingo Revolution

From the acclaimed author of How to Love comes another stunning contemporary novel, perfect for fans of Sarah Dessen. Molly Barlow is facing one long, hot summer—99 days—with the boy whose heart she broke and the boy she broke it for . . . his brother. Day 1: Julia Donnelly eggs my house my first night back in Star Lake, and that's how I know everyone still remembers everything. She has every right to hate me, of course: I broke Patrick Donnelly's heart the night everything happened with his brother, Gabe. Now I'm serving out my summer like a jail sentence: Just ninety-nine days till I can leave for college and be done. Day 4: A nasty note on my windshield makes it clear Julia isn't finished. I'm expecting a fight when someone taps me on the shoulder, but it's just Gabe, home from college and actually happy to see me. "For what it's worth, Molly Barlow," he says, "I'm really glad you're back." Day 12: Gabe wouldn't quit till he got me to come to this party, and I'm surprised to find I'm actually having fun. I think he's about to kiss me—and that's when I see Patrick. My Patrick, who's supposed to be clear across the country. My Patrick, who's never going to forgive me.

ordinary.”—Kirkus A Kirkus Best Book of the Year! A Chicago Public Library Best Book of the Year! A Bustle Best Young Adult Book of the Year! 3 starred reviews! Joanna meets the perfect girl for her and must decide whether to break a promise that could change everything for her and her family or lose out on love in this charming young adult romance that’s perfect for fans of Julie Murphy’s *Dumplin’* and Becky Albertalli’s *Simon vs. the Homo Sapiens Agenda*. Joanna Gordon has been out and proud for years, but when her popular radio evangelist father remarries and decides to move all three of them from Atlanta to the more conservative Rome, Georgia, he asks Jo to do the impossible: to lie low for the rest of her senior year. And Jo reluctantly agrees. Although it is (mostly) much easier for Jo to fit in as a straight girl, things get complicated when she meets Mary Carlson, the oh-so-tempting sister of her new friend at school. But Jo couldn’t possibly think of breaking her promise to her dad. Even if she’s starting to fall for the girl. Even if there’s a chance Mary Carlson might be interested in her, too. Right?

The New York Times Bestseller! “Absolutely riveting.” —Alexandra Bracken, #1 New York Times bestselling author of *The Darkest Minds* This vividly rendered novel reads like HBO’s *Game of Thrones* . . . if it were set in the Ottoman Empire. Ambitious in scope and intimate in execution, the story’s atmospheric setting is rife with political intrigue, with a deftly plotted narrative driven by fiercely passionate characters and a fearsome heroine. Fans of Victoria Aveyard’s *THE RED QUEEN* and Sabaa Tahir’s *AN EMBER IN THE ASHES* won’t want to miss this visceral, immersive, and mesmerizing novel, the first in the *And I Darken* series. *NO ONE EXPECTS A PRINCESS TO BE BRUTAL*. And Lada Dragwlya likes it that way. Ever since she and her gentle younger brother, Radu, were wrenched from their homeland of Wallachia and abandoned by their father to be raised in the Ottoman courts, Lada has known that being ruthless is the key to survival. She and Radu are doomed to act as pawns in a vicious game, an unseen sword hovering over their every move. For the lineage that makes them special also makes them targets. Lada despises the Ottomans and bides her time, planning her vengeance for the day when she can return to Wallachia and claim her birthright. Radu longs only for a place where he feels safe. And when they meet Mehmed, the defiant and lonely son of the sultan, who’s expected to rule a nation, Radu feels that he’s made a true friend—and Lada wonders if she’s finally found someone worthy of her passion. But Mehmed is heir to the very empire that Lada has sworn to fight against—and that Radu now considers home.

Together, Lada, Radu, and Mehmed form a toxic triangle that strains the bonds of love and loyalty to the breaking point. From New York Times bestselling author Kiersten White comes the first book in a dark, sweeping new series in which heads will roll, bodies will be impaled . . . and hearts will be broken. “A dark and twisty fantasy . . . think *Game of Thrones*, but with teens.”—Seventeen “Sinister, suspenseful, and unapologetically feminist.”—Buzzfeed “Will completely spin you into another time and place.”—Bustle “Takes no prisoners, offering up brutal, emotional historical fiction.”—NPR.org An ALA Rainbow List Top Ten Selection Moved by the desire for adventure and a yearning to help the Ute Indians, twenty-year-old Shiloh Wainright impulsively accepts a teaching position at the White River Indian Agency in northwestern Colorado. The new job, however, isn’t what she imagined it would be, and Shiloh soon finds herself caught in the cross fire between the Utes, their unyielding Indian Agent, and the unrealistic demands of the US government. Her unexpected encounter with Jesse Blackwater, an embittered half-breed Ute and childhood friend, only complicates matters as they battle their growing feelings for each other amidst the spiraling tensions threatening to explode into a catastrophic Indian uprising. Set amongst the wilds of the Colorado Rockies in 1879, this is a tale of a forbidden love and a faith tested in the cauldron of intolerance and the harsh realities of life on the untamed frontier. Bestselling author Kathleen Morgan deftly explores themes of mercy, fidelity to one’s beliefs despite what others think or do, and compassion for those different from oneself as she plumbs the depths of the human heart and the healing power of God’s love.

*China, 1760. The Emperor conquers Altishahr, a Muslim country to the west of his empire and summons a local woman from his new dominion to come to the Forbidden City as his concubine. Meanwhile in the market of Kashgar a girl named Hidligh is kidnapped by Iparhan, a woman scarred by the Emperor's conquest of her homeland and bent on vengeance. Iparhan offers her a deal: Hidligh will become the Emperor's concubine, living a life of luxury. In return she will act as Iparhan's spy. But when Hidligh arrives in the Forbidden City, she enters a frightening new world. Every word she utters may expose her as an imposter. Iparhan is watching from the shadows, waiting to exact her revenge on the Emperor. The Empress is jealous of her new rival. And when Hidligh finally meets the Emperor, she finds herself falling in love... "A passionate story, richly imagined in the spaces of real history. Melissa Addey meticulously evokes a strange, beautiful and harsh society." - Emma Darwin, award-winning author of *The Mathematics of Love* and *A Secret Alchemy*. "Melissa Addey has given us a new take on the cherished but controversial legend of 'the Fragrant Concubine,' one that weaves together the many conflicting versions of the story and plausibly embraces how romance might have blossomed between the brilliant Manchu monarch and his fragrant Muslim consort." - Professor James Millward, author of *A Uyghur Muslim in Qianlong's Court: The Meanings of the Fragrant Concubine* If you enjoyed Lisa See's *Peony in Love*, Anchee Min's *The Last Empress* and Arthur Golden's *Memoirs of a Geisha* then *The Fragrant Concubine* will be a new favourite. Set in China's Forbidden City in the 18th century, where the women of the court vie for the Emperor's attention and every concubine must fight for her position.*

*Compliance has become key to our contemporary markets, societies, and modes of governance across a variety of public and private domains. While this has stimulated a rich body of empirical and practical expertise on compliance, thus far, there has been no comprehensive understanding of what compliance is or how it influences various fields and sectors. The academic knowledge of compliance has remained siloed along different disciplinary domains, regulatory and legal spheres, and mechanisms and interventions. This handbook bridges these divides to provide the first one-stop overview of what compliance is, how we can best study it, and the core mechanisms that shape it. Written by leading experts, chapters offer perspectives from across law, regulatory studies, management science, criminology, economics, sociology, and psychology. Isobel is an artistic prodigy with a dangerous set of clients: the sinister fair folk, immortal creatures who cannot bake bread or put a pen to paper without crumbling to dust. They crave human Craft with a terrible thirst, and Isobel's paintings are highly prized. But when she receives her first royal patron—Rook, the autumn prince—she makes a terrible mistake. She paints mortal sorrow in his eyes—a weakness that could cost her life. Furious, Rook spirits her away to his kingdom to stand trial for her crime. But something is seriously wrong in his world, and they are attacked from every side. With Isobel and Rook depending on each other for survival, their alliance blossoms into trust, then love—and that love violates the fair folks' ruthless laws. Now both of their lives are forfeit, unless Isobel can use her skill as a painter to fight the fairy courts. Because secretly, her Craft represents a threat the fair folk have never faced in all the millennia of their unchanging lives: for the first time, her portraits have the power to make them feel.

With National Socialism's arrival in Germany in 1933, Jews dominated music more than virtually any other sector, making it the most important cultural front in the Nazi fight for German identity. This groundbreaking book looks at the Jewish composers and musicians banned by the Third Reich and the consequences for music throughout the rest of the twentieth century. Because Jewish musicians and composers were, by 1933, the principal conveyors of Germany's historic traditions and the ideals of German culture, the isolation, exile and persecution of Jewish musicians by the Nazis became an act of musical self-mutilation. Michael Haas looks at the actual contribution of Jewish composers in Germany and Austria before 1933, at their increasingly precarious position in Nazi Europe, their forced emigration before and during the war, their ambivalent relationships with their countries of refuge, such as Britain and the United States and their contributions within the radically changed post-war music environment. /div
