Since 1969, Philip Kotler's marketing text books have been read as the marketing gospel, as he has provided incisive and valuable advice on how to create, win and dominate markets. In KOTLER ON MARKETING, he has combined the expertise of his bestselling textbooks and world renowned seminars into this practical all-in-one book, covering everything there is to know about marketing. In a clear, straightforward style, Kotler covers every area of marketing from assessing what customers want and need in order to build brand equity, to creating loyal long-term customers. For business executives everywhere, KOTLER ON MARKETING will become the outstanding work in the field. The secret of Kotler's success is in the readability, clarity, logic and precision of his prose, which derives from his vigorous scientific training in economics, mathematics and the behavioural sciences. Each point and chapter is plotted sequentially to build, block by block, on the strategic foundation and tactical superstructure of the book.

editions while introducing new material and structure to further enhance learning.

Human resources management is essential for any workplace environment and is deemed most effective when a strategic focus is in place to ensure that people can facilitate that achievement of organizational goals. But, effective human resource management also contains an element of risk management for an organization which, as a minimum, ensures legislative compliance. Human Resources Management: Concepts, Methodologies, Tools, and Applications compiles the most sought after case studies, architectures, frameworks, methodologies, and research related to human resources management. Including over 100 chapters from professional, this three-volume collection presents an in-depth analysis on the fundamental aspects, tools and technologies, methods and design, applications, managerial impact, social/behavioral perspectives, critical issues, and emerging trends in the field, touching on effective and ineffective management practices when it comes to human resources. This multi-volume work is vital and highly accessible across the hybrid domain of business and management, essential for any library collection.

Focusing on the environment, market research, buyer behavior, cyber marketing, and positioning, this newly revised edition based primarily on South African companies provides a comprehensive overview of marketing theory.

This accessible book introduces students to the theories, concepts and skills required to promote an event successfully. To promote an event effectively it is essential to understand marketing, but it is also important to recognise that it is not just consumers who are the audience: other publics who may not necessarily attend can have a fundamental effect on the success of an event as well. Uniquely therefore, this book covers two related themes: marketing and public relations in an events context. This will offer events planners a comprehensive guide on how to promote events to a range of audiences, and on how to use this to manage an event's long-term reputation. The book focuses on core marketing and PR current theory specifically relevant to the events industry and introduces topics such as marketing strategy, the consumer, marketing PR and how to use the internet to promote events. It integrates a range of international case studies from small-scale events to mega-events to help show how theory can be applied in practice. It further includes inserts of interviews with practitioners in the field, to offer insight into the realities of event communication and to show how to overcome potential pitfalls. Learning outcomes, discussion questions and further reading suggestions are included to aid navigation throughout the book, spur critical thinking and further students' knowledge. The book is essential reading for all students studying Events Management, and provides valuable reading for students, academics and practitioners interested in marketing and public relations in general.

This is a substantial new edition of a successful textbook which continues to have a sensible and 'easy to read' style. Each Chapter has a past/present/future theme with a real strategic approach. Strategic Operations Managment shows operations as combining products and services into a complete offer for the customer. Services are therefore seen as key and are integrated throughout the material in each chapter. Manufacturing, service supply and other key factors are all shown to be in place. In an era where companies are fond of talking about core competences but still struggle to understand their operations, this is an important for academics and practitioners alike. Only when managers understand their operations will they be able to leverage them into any sort of capabilities that will lead to competitive advantage. Online tutor resource materials accompany the book. Witchcraft holds a perennial fascination for scholars and the public at large. In Southeast Asia malign magic and sorcery are part of the routine experience of villagers and urban dwellers alike, and stories appearing in the

press from time to time bear witness to a persisting public concern. The essays presented in this volume describe what people believe and what actions result from those beliefs. Not surprisingly, given the range and variety of cultures, considerable differences exist in the region. Among some cultures, in Thailand and Indonesia for example, sorcerers are said to possess spirits that empower them to cause illness and misfortune. Elsewhere, in Malaysia and Sumatra, the power of the dukun derives from the accumulation of arcane knowledge and mystical practice. Contributors describe the witches and sorcerers they have met and suggest both how their societies look upon them and how we in turn should regard them. Understanding Witchcraft and Sorcery in Southeast Asia will appeal to scholars and students of social anthropology and comparative religion. Its substantial contribution to theoretical and comparative issues in a Southeast Asian context provides a fresh perspective on a stimulating topic.
