**Since its publication this book has become the standard for both students studying for their examinations and practitioners needing a comprehensive reference book covering rating law, valuation and, importantly, practice. This third edition brings the reader up to date with the changes for the 2010 Rating Revaluation, developments in case law, the new appeals regulations and current approaches to valuing many classes of hereditament, as well as highlighting the differences between cases in**

**England and Wales. The book is well illustrated with example valuations showing both methods of valuation and the variety of property surveyors come across in practice. The authors have extensive experience in the subject and regularly lecture on rating, valuation and taxation matters.**

**Lillian stared at the closed door through which both her father and Mrs. Bolstreath had passed, and then looked at Dan, sitting somewhat disconsolately at the disordered dinner-table. She was a delicately pretty girl of a fair fragile type, not yet twenty years of age, and resembled a shepherdess of Dresden china in her dainty perfection. With her pale golden hair, and rose-leaf complexion; arrayed in a simple white silk frock with snowy pearls round her slender neck, she looked like a wreath of faint mist. At least Dan fancifully thought so, as he stole a glance at her frail beauty, or perhaps she was more like a silver-point drawing, exquisitely fine. But whatever image love might find to express her loveliness, Dan knew in his hot passion that she was the one girl in the world for him. Lillian Halliday was a much better name for her than Lillian Moon. Dan himself was tall and slim, dark and virile, with a clear-cut, clean-shaven face suggestive of strength and activity. His bronzed complexion suggested an open-air life, while the**

eagle look in his dark eyes was that new vast-distance expression rapidly being acquired by those who devote themselves to aviation. No one could deny Dan's good looks or clean life or daring nature, and he was all that a girl could desire in the way of a fairy prince. But fathers do not approve of fairy princes unless they come laden with jewels and gold. To bring such to Lillian was rather like taking coals to Newcastle since her father was so wealthy; but much desires more, and Sir Charles wanted a rich son-in-law. Dan could not supply this particular adjective, and therefore--as he would have put it in the newest slang of the newest profession--was out of the fly. Not that he intended to be, in spite of Sir Charles, since love can laugh at stern fathers as easily as at bolts and bars. And all this time Lillian stared at the door, and then at Dan, and then at her plate, putting two and two together. But in spite of her feminine intuition, she could not make four, and turned to her lover--for that Dan was, and a declared lover too--for an explanation.

**Massachusetts Sample Exam (100 questions)**

We know the real estate licensing exam can be tough, and very nerve-wracking to prepare for.

That's why we created Massachusetts Real Estate License Exam Prep (MA-RELEP) the way we did.

Since we have been managing real estate schools and developing curriculum for forty years, we know how all this works – or fails to work.

MA-RELEP is comprehensive in that it contains both key content review and testing practice.

And the text review is Massachusetts-specific – not just simplistic national content,

but terse, relevant and accurate Massachusetts laws and regulations presented as a well-

organized set of state 'key point reviews' ideal for pre-test memorization.

But let's not dismiss the importance of the national content either.

MA-RELEP's national key point reviews are a succinct compression of tested national

principles and practices that comprise the national portion of state license exams from

coast to coast. Our content is drawn from our own national textbook, Principles of Real Estate

Practice – one of the most widely used

principles textbooks in the country. Finally, our national content, as well as our question

selection, is further tailored to the state testing outline promulgated by PSI for Massachusetts.

**Thus the breadth and depth of the law reviews and test questions reflect the topic emphasis of your state’s testing service and your Massachusetts license exam. A word about the test questions... MA-RELEP’s testing practice section consists of ten national practice tests, Eight state practice tests, and one state exam sample test. The practice tests are roughly 50 questions in length and the sample test is 100 questions. The test questions are designed to cover the content covered by the law reviews – which reinforces your learning of the total body of information tested by your state exam. The questions are direct, to the point, and designed to test your understanding. When you have completed a given test, you can check your answers against the answer key in the appendix. You may also note that each question’s answer is accompanied by a brief explanation, or “rationale” to further reinforce your understanding. In the end, as you know, it’s all up to you. Unlike other publications, we are not going to tell you that using this book will guarantee that you pass your state exam. It still takes hard work and study to pass. But we have done our best here to get you ready. Following that, the most we can do is wish you the best of success in taking and passing your Massachusetts real estate exam. So good luck!!**

**Real Estate Principles: A Value Approach demonstrates how value is central to virtually all real estate decision-making. Students using Ling and Archer should finish the course with a value-oriented framework and a set of valuation and decision making tools that can be applied in a variety of real-world situations. The key to making sound investment decision is to understand how property values are created, maintained, increased or destroyed. Since the launch of Real Estate Principles: A Value Approach, significant and lasting changes have come upon the world of real estate. This is very true in real estate finance and capital sources where most of the traditional lenders have been transformed or displaced, giving way to a radically different set of players in mortgage finance. There has been change with profound and far-reaching implications in a world where it is understandable that property values can go down as well as up. This realization will color every aspect of real estate investment, finance and transactions for the foreseeable future.**

(17 pages) - Texas-Specific Laws and Practices (43 pages) - National Practice Tests (500 questions) - Texas Practice Tests (125 questions) - Texas Sample Exam (100 questions) We know the real estate licensing exam can be tough, and very nerve-wracking to prepare for. That's why we created the Texas Real Estate License Exam Prep (TX-RELEP) the way we did. Since we have been managing real estate schools and developing curriculum for forty years, we know how all this works – or fails to work. TX-RELEP is comprehensive in that it contains both key content review and testing practice. And the text review is Texas-specific – not just simplistic national content, but terse, relevant and accurate Texas laws and regulations presented as a well-organized set of state 'key point reviews' ideal for pre-test memorization. But let's not dismiss the importance of the national content either. TX-RELEP's national key point reviews are a succinct compression of tested national principles and practices that comprise the national portion of state license exams from coast to coast. Our content is drawn from our own national textbook, Principles of Real Estate Practice – one of the most widely used principles textbooks in the country. Finally, our national content, as

well as our question selection, is further tailored to the state testing outline promulgated by Pearson Vue for Texas. Thus the breadth and depth of the law reviews and test questions reflect the topic emphasis of your state's testing service and your Texas license exam. A word about the test questions... TX-RELEP's testing practice section consists of ten national practice tests, six state practice tests, and one state exam sample test. The practice tests are roughly 50 questions in length and the sample test is 100 questions. The test questions are designed to cover the content covered by the law reviews – which reinforces your learning of the total body of information tested by your Texas exam. The questions are direct, to the point, and designed to test your understanding. When you have completed a given test, you can check your answers against the answer key in the appendix. You may also note that each question's answer is accompanied by a brief explanation, or "rationale" to further reinforce your understanding. In the end, as you know, it's all up to you. Unlike other publications, we are not going to tell you that using this book will guarantee that you pass your state exam. It still takes hard work and study to
