**Whooo . . . Growwwwl . . . Oinnnk—here are fifteen animal masks that are perfect for the next play, the next party, or just for when it's nifty to look like something else. Immensely popular upon its first publication in the early 1980's, these striking masks will fascinate today's children every bit as much as they did their parents (and don't be surprised if it's the parents still wearing them!). Made of high quality, laminated card stock, these brilliantly colored, super realistic masks are pre-perforated—easy to press out—with holes in place, ready for the included elastic cord that attaches in seconds for a perfect fit. There's even a storage envelope where the masks can be saved until it is time to once again become a fox . . . or a vampire . . . or a bear . . . or a . . . the possibilities are fifteen-fold!**

*Little Bear has lots of fun scaring his friends before Halloween with a homemade mask, but later, when they all set out for home, they find that the deep, dark woods are scarier than a mask could ever be.*

*Beautiful coloring sheets with Koalas for all ages! 30 sheets for coloring with koalas! Illustrations are printed on 6" x 9" sheets.*

*Coloring Sheets are beautiful! Perfect for adults and for children!*

*The images are printed one-sided with koalas on to avoid bleed through, very suitable for colored pencils. Note that markers don't work well over coloring sheets grayscale, as they are much more transparent than colored pencils.*

*With bears everywhere, a child has to find his special bear before he can sleep.*

*"This fascinating little volume explores the stuff that dreams are made of and the role the pandemic is playing in them. The dreams from Barrett's survey are riveting vignettes—from terrifying to touching to hilarious. Her decades of scientific research and clinical practice inform incisive commentary on what these dreams reveal about society's response. She offers simple exercises for managing anxieties over COVID-19 and for inspiring adaption in this unique period of history. A great read!" -Amy Tan, author of The Joy Luck Club DREAM: I looked down at my stomach and saw dark blue stripes. I "remembered" these*

were the first sign of being infected with COVID-19. DREAM: My home was a Covid-19 test center. People weren't wearing masks. I'm taken aback because I wasn't asked to be a test site. I'm worried that my husband and son (who actually lives out of state) will catch it because of my job as a healthcare worker. DREAM: I was a giant antibody. I was so angry about COVID-19 that it gave me superpowers, and I rampaged around attacking all the virus I could find. I woke so energized! Since the COVID-19 pandemic swept around the world, people have reported unusually a vivid and bizarre dream lives. The virus itself is the star of many--literally or in one of its metaphoric guises. As a dream researcher at Harvard Medical School, Deirdre Barrett was immediately curious to see what our dream lives would tell us about our deepest reactions to this unprecedented disaster. *Pandemic Dreams* draws on her survey of over 9,000 dreams about the COVID-19 crisis. It describes how dreaming has reflected each aspect of the pandemic: fear of catching the virus, reactions to sheltering at home, work changes, homeschooling, and an individual's increased isolation or crowding. Some patterns are quite similar to other crises Dr. Barrett has studied such as 9/11, Kuwaitis during the Iraqi Occupation, POWs in WWII Nazi prison camps, and Middle Easterners during the Arab Spring. There are some very distinctive metaphors for COVID-19, however: bug-attack dreams and ones of invisible monsters. These reflect that this crisis is less visible or concrete than others we have faced. Over the past three months, dreams have progressed from fearful depictions of the mysterious new threat . . . to impatience with restrictions . . . to more fear again as the world begins to reopen. And dreams have just begun to consider the big picture: how society may change. The book offers guidance on how we can best utilize our newly supercharged dream lives to aid us through the crisis and beyond. It explains practical exercises for dream interpretation, reduction of nightmares, and incubation of helpful, problem-solving dreams. It also examines the larger arena of what these collective dreams tell us about our instinctive, unconscious responses to the threat and how we might integrate them for more livable policies through these times. Deirdre Barrett, PhD is a dream researcher at Harvard Medical School. She has written five books including *Pandemic Dreams* and *The Committee of Sleep*, and edited four including *Trauma and Dreams*. She is Past President of The International Association for the Study of Dreams and editor of its journal, *DREAMING*.

*“A moving story of abandonment, love, and survival against the odds.”—Dr. Jane Goodall* *The heartbreaking and ultimately hopeful story of an abandoned polar bear cub named Nora and the humans working tirelessly to save her and her species, whose uncertain future in the accelerating climate crisis is closely tied to our own* *Six days after giving birth, a polar bear named Aurora got up and walked away from her den at the Columbus Zoo, leaving her tiny squealing cub to fend for herself. Hours later, Aurora still hadn't returned. The cub was furless and blind, and with her temperature dropping dangerously, the zookeepers entrusted with her care felt they had no choice: They would have to raise one of the most dangerous predators in the world by hand. Over the next few weeks, a group of veterinarians and zookeepers worked around the clock to save the cub, whom they called Nora. Humans rarely get as close to a polar bear as Nora's keepers got to their fuzzy charge. But the two species have long been intertwined. Three decades before Nora's birth, her father, Nanuq, was orphaned when an Inupiat hunter killed his mother, leaving Nanuq to be sent to a zoo. That hunter, Gene Agnaboogok, now faces some of the same threats as the wild bears near his Alaskan village of Wales, on the westernmost tip of the North American continent. As sea ice diminishes and temperatures creep up year after year, Agnaboogok and the polar bears—and everyone and everything else living in the far north—are being forced to adapt. Not all of them will succeed. Sweeping and tender, *The Loneliest Polar Bear* explores the fraught relationship humans have with the natural world, the exploitative and sinister causes of the environmental mess we find ourselves in, and how the fate of polar bears is not theirs alone.*

Black Skin, White Masks is a classic, devastating account of the dehumanising effects of colonisation experienced by black subjects living in a white world. First published in English in 1967, this book provides an unsurpassed study of the psychology of racism using scientific analysis and poetic grace. Franz Fanon identifies a devastating pathology at the heart of Western culture, a denial of difference, that persists to this day. A major influence on civil rights, anti-colonial, and black consciousness movements around the world, his writings speak to all who continue the struggle for political and cultural liberation. With an introduction by Paul Gilroy, author of *There Ain't No Black in the Union Jack*.

When Nicki drops his white mitten in the snow, he goes on without realizing that it is missing. One by one, woodland animals find it and crawl in; first, a curious mole, then a rabbit, a badger and others, each one larger than the last. Finally, a big brown bear is followed in by a tiny brown mouse and what happens next makes for a wonderfully funny climax. As the story of the animals in the mitten unfolds, the reader can see Nicki in the borders of each page, walking through the woods unaware of what is going on. In this oversized board book edition, Jan Brett has once again creates a dramatic and beautiful book in her distinctive style. She brings the animals to life with warmth and humor, and her illustrations are full of visual delights and details faithful to the Ukrainian tradition from which the story comes.

world-renowned education brand Sesame Workshop will help children combat school anxiety and understand new experiences like wearing masks, frequent hand washing, and social distancing. Heroes Wear Masks reminds readers that it's super to help everyone stay healthy Plus includes bonus tips for grown-ups in the back

Little Abigail helps children understand why it is so important to wear a mask, and shows them that wearing a mask shouldn't have to stop anyone from being themselves... Just like countless children around the world, little Abigail misses her Grandma and Grandpa. She hasn't seen them for a long time because of social distancing, but she is willing to wait as long as it takes to keep them safe. Finally, her mom tells her the happy news: she can visit Grandma and Grandpa at last! But on one condition - she has to cover her face with a mask. Abigail has many masks and when she wears them, she can imagine herself to be anything she wants. In these unusual and uncertain times, children face many unfamiliar challenges. It is the parents' job to give them as much support as possible. When I Wear My Mask is a fun and simple book designed to explain this new situation to children in a non-threatening way, and show them that life under social distancing is not as scary as they might think. Children will feel more comfortable wearing their masks once they understand the importance of protecting their Grandparents, and the rest of the elderly population who are at greater risk than others.
