Through her phenomenally popular and award-winning podcast, She's on the Money, Victoria Devine has built an empowered and supportive community of women finding their way to financial freedom. Honest, reliable, non-judgemental and motivating, Victoria is a financial adviser who knows what millennial life is really like and where we can get stuck with money stuff. (Did someone say ‘Afterpay’...?) So, to help you hit your money goals without skipping on brunch, she’s put all her expert advice into this accessible guide that will set you up for a healthy and happy future. Learn how to be more secure, independent and informed with your money - with clear steps on how to budget, clear debts, build savings, start investing, buy property and much more. And along with all the practical information, Victoria will guide you through the sometimes-tricky psychology surrounding money so you can establish the values, habits and confidence that will help you build your wealth long-term. Just like the podcast, the book is full of real-life money stories from members of the She’s on the Money community who candidly share their own lessons learned to inspire others to turn their stories around, too. And with templates and activities throughout, plus a twelve-month plan to get you started, you can immediately put Victoria’s recommendations into action in your own life. You are not alone on your financial journey, and with the money principles in this book you'll go further than you ever thought possible.

!The newbie investor will not find a better guide to personal finance. !Burton Malkiel, author of A RANDOM WALK DOWN WALL STREET TV analysts and money managers would have you believe your finances are enormously complicated, and if you don't follow their guidance, you'll end up in the poorhouse. They're wrong. When University of Chicago professor Harold Pollack interviewed Helaine Olen, an award-winning financial journalist and the author of the bestselling Pound Foolish, he made an offhand suggestion: everything you need to know about managing your money could fit on an index card. To prove his point, he grabbed a 4" x 6" card, scribbled down a list of rules, and posted a picture of the card online. The post went viral. Now, Pollack teams up with Olen to explain why the ten simple rules of the index card outperform more complicated financial strategies. Inside is an easy-to-follow action plan that works in good times and bad, giving you the tools, knowledge, and confidence to seize control of your financial life.

Does fear and insecurity keep you from looking at your bank account? Is your financial anxiety holding you captive? You don't have to stress about money anymore. YOU can take back control. As a newly divorced single mom making \$24,000 in debt, and facing down \$77,000 in debt, Kumiko Love worried constantly about money. She saw what other moms had—vacations, birthday parties, a house full of furniture—and felt ashamed that she and her son lived in a small apartment dinner on the floor. Worse, when her feelings began to exhaust her, she binge-shopped, reasoning that she'd feel better after a trip to the mall. On the day she needed to pay for a McDonald's ice cream cone without her credit card, she had an epiphany: Money is not the problem. Self-Doubt is the problem. Shame is the problem. Guilt is the problem. Society's expectations for her are the problem. She is the solution. Once she reversed the negative thinking patterns pushing her to decisions that didn't serve her values or goals, her financial plan wrote itself. Now, she's not only living debt-free in her dream home, which she paid for in cash, but she has spread her teachings around the world and helped countless women envision better lives for themselves and their families. Now, building on the lessons she's taught millions as the founder of The Budget Mom, she shares a step by step plan for taking control back over your financial life—regardless of your level of income or your credit card balance. Through stories from navigating divorce to helping clients thrive through recessions, depression, eviction, layoffs and so much more, you will learn foundational practices such as: How to use your emotions to your financial advantage, instead of letting them control you How to create a budget based on your real life, not a fable of self-denial How to create a motivating debt pay-off plan that makes you excited about your future, instead of fearing it

Money My Way will give you the tools to align your emotional health with your financial health—to let go of deprivation and embrace desire. Love's paradigm-shifting system will teach you how to honor your unique personal values, driving emotions, and particular needs so that you can stop worrying about money and start living a financially fulfilled life.

What is a budget exactly? And why do you need one? Well, simply put, a budget is a mechanism to manage your finances. For the sole purpose of benefiting your “future self.” Establishing and following a budget plan is something that anyone can learn to do, and it's really the first step in attaining financial freedom. Creating a budget or a financial plan involves understanding and tracking one's own income and expenses. In doing this, a person can determine whether or not funds are available for certain needs and luxuries. Of course having a budget will not instantly make all your money problems go away, but it is the absolute best starting point to help you to begin to control your expenses as well as manage your income. It's a very helpful practice in determining the state of your finances so that you can set and meet financial goals. Let's get started building your budget today so that you can enjoy the benefits of having done so for years to come!
