**In this IBM®

an overview of**

different data management topics related to a typical SAP® data center. The intrinsic functionality of SAP is not designed to completely handle all the tasks of a data center by itself, but the SAP system offers several interface possibilities

to attach external tools to it to accomplish this task We explain SAP basic concepts and the issues with SAP data management. We introduce Tivoli® Storage Manager and all of its products that are related to SAP data management. We

provide some comparison between database backup and recovery tools.

Finally, we discuss data archiving using IBM DB2®

CommonStore for SAP, and discuss high availability requirements and disaster recovery considerations. The

second part of this book discusses a practical implementation of SAP backup and recovery with Tivoli Storage Manager. We implement this setup on two separate SAP systems: one running DB2 and the other running Oracle®

implement LAN-free

This volume
begins with an
excellent
pedagogical
introduction to
the physics and
methods and
formalism of
supersymmetry
which is

accessible to anyone with a basic knowledge of the Standard Model of particle physics. Next is an overview of open questions, followed by chapters on topics such as

how to detect

studying them,
the current
limits on
superpartner
masses as we
enter the LHC
era, the
lightest
superpartner as
a dark matter

candidate in
thermal and non-

associated

chapters have

and updated
from the

Tayap is a
small,
previously
undocumented
Papuan
language,
spoken in a
single village
called Gapun,
in the lower
Sepik River
region of Papua

New Guinea. The language is an isolate, unrelated to any other in the area.

Furthermore, Tayap is dying. Fewer than fifty speakers actively command it today. Based on

linguistic
anthropological
work conducted
over the course
of thirty
years, this
book describes
the grammar of
the language,
detailing its
phonology,
morphology and
syntax. It

devotes particular attention to verbs, which are the most elaborated area of the grammar, and which are complex, fusional and massively suppletive. The book also

provides a full
Tayap-English-
Tok Pisin
dictionary. A
particularly
innovative
contribution is
the detailed
discussions of
how Tayap's
grammar is
dissolving in
the language of

young speakers.
The book
exemplifies how
the complex
structures in
fluent
speakers' Tayap
are reduced or
reanalyzed by
younger
speakers. This
grammar and
dictionary

should
therefore be a
valuable
resource for
anyone
interested in
the mechanics
of how
languages
disappear. The
fact that it is
the sole
documentation

Online Library

of this unique
Papuan language
should also
make it of
interest to
areal
specialists and
language
typologists.
